This document was produced on 29 April 2024.

What is this product?

Type

This product is a UCITS sub-fund of a variable capital umbrella investment company with segregated liability between sub-funds authorised by the Central Bank of Ireland pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended.

Subject to the conditions set down in the prospectus, shareholders may exchange all or part of their shares of this fund for shares of another fund of the company. Please refer to the section entitled "How To Exchange Shares" in the prospectus for further details.

Term

This product has no fixed term.

Objectives

The fund aims to maximise optimal risk adjusted returns on your investment through primarily investing in a diversified portfolio of fixed income securities and instruments while giving consideration to long term climate related risks and opportunities. Through consideration of long term climate related risks and opportunities, the fund aims to contribute to climate change mitigation and adaptation.

Investment Policy

The fund aims to achieve its objective by investing under normal circumstances at least 80% of its total assets in a diversified portfolio of fixed income securities and instruments (which are similar to loans that pay a fixed or variable rate of interest), of varying maturities.

As part of the fund's commitment to invest in sustainable investments as further outlined in the fund's supplement, the fund will ordinarily be comprised of labelled and unlabelled (issued without formal certifications) green fixed income securities as well as the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change. Labelled green fixed income securities are those issues with proceeds specifically earmarked to be used for climate and environmental projects. The fund may also invest in any of the other types of ESG Fixed Income Securities (as further described in the section of the company's prospectus entitled "ESG Fixed Income Securities").

The fund will employ the use of an exclusion strategy. The fund will not invest in the securities of any issuer determined by the investment advisor to be engaged principally in Fossil Fuel related sectors (including issuers engaged principally in the fossil fuel industry, including distribution/retail, equipment and services, extraction and production, petrochemicals, pipelines and transportation and refining, and the mining and distribution of coal and coal fired generation), but excluding biofuel production, natural gas generation, transportation, distribution and sales and trading activities. However, ESG Fixed Income Securities from issuers involved in Fossil Fuel related sectors, as described above, may be permitted. The fund will not invest in the securities of any sovereigns scoring weakest on transparency and corruption

indices and the fund will not invest in any issuer determined to be engaged principally in the manufacture and distribution of alcoholic beverages and tobacco products, the manufacture of military weapons, the operation of gambling activities, or the production or trade of pornographic materials. The investment advisor may also exclude an issuer based on other criteria such as involvement in poor environmental practices, weak corporate governance, corrupt business practices, violation of human rights or unacceptable labour practices.

In addition, the investment advisor will actively engage with certain issuers as applicable in order to seek to improve their sustainability practices or preparations for a low carbon economy (examples may include material climate and biodiversity related matters), including encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

The fund will reference its performance against the Bloomberg MSCI Green Bond Index USD Hedged (the "Index"). The fund is considered to be actively managed in reference to the Index by virtue of the fact that it uses the Index for performance comparison purposes. Certain of the fund's securities may be components of and may have similar weightings to the Index. However the Index is not used to define the portfolio composition of the fund or as a performance target and the fund may be wholly invested in securities which are not constituents of the Index.

The securities will be both "investment grade" and "non-investment grade". Non-investment grade securities are considered to be riskier investments than investment grade securities, but typically produce a higher level of income.

The average portfolio duration of the fund will normally vary between 2 to 8 years based on the investment advisor's forecast for interest rates. Duration measures the sensitivity of the assets to interest rate risk. The longer the duration the higher the sensitivity to changes in interest rates.

Investments may also be linked to emerging markets countries, which in investment terms are those economies that are not developed. The fund may invest in derivative instruments (such as futures, options and swaps) rather than directly in the underlying securities themselves. The derivatives return is linked to movements in the underlying assets. The assets held by the fund may be denominated in a wide variety of currencies with non-USD currency exposure limited to 20% of total assets. The investment advisor may use foreign exchange and related derivative instruments to hedge or implement currency positions.

Dealing Day Shares in the fund can normally be redeemed on a daily basis. Please refer to the section entitled "How to Redeem Shares" in the prospectus.

Distribution Policy This share class does not pay out a distribution. Any investment income generated will be reinvested.

Intended retail investor

Typical investors in the Fund will be investors who are looking to maximise total return through a combination of both income and capital growth and are looking for a diversified exposure to investment grade global fixed income markets, subject to the climate related risks and opportunities outlined above, and are willing to accept the risks and volatility associated with investing in such markets and who have an investment horizon over the medium to long term.

This classification is subject to change over time.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact the value of your investment.

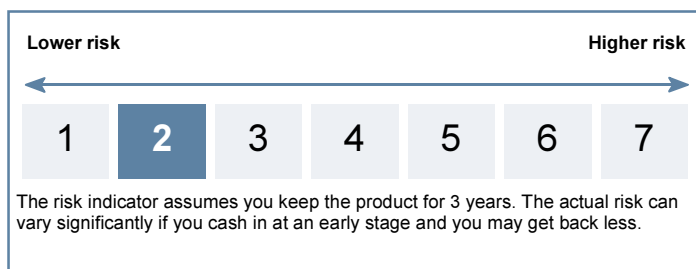

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not covered by the risk indicator include Credit and Default Risk, Interest Rate Risk and Emerging Markets Risk. For a full list of risks, please refer to the fund's prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund or benchmark over the last 10 years. The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 3 years			
Investment: CHF 10,000			
Scenarios		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 3 years. You could lose some or all of your investment.			
Stress	What you might get back after costs Average return each year	6,510 CHF -34.93%	7,300 CHF -9.96%
Unfavourable	What you might get back after costs Average return each year	7,850 CHF -21.51%	7,870 CHF¹ -7.65% ¹
Moderate	What you might get back after costs Average return each year	9,720 CHF -2.82%	10,430 CHF² 1.42% ²
Favourable	What you might get back after costs Average return each year	10,710 CHF 7.10%	11,630 CHF³ 5.15% ³

¹ This type of scenario occurred for an investment between October 2020 and October 2023.

² This type of scenario occurred for an investment between May 2014 and May 2017.

³ This type of scenario occurred for an investment between July 2018 and July 2021.

What happens if PIMCO Global Advisors (Ireland) Limited is unable to pay out?

As a collective investment scheme that has engaged an independent depositary to perform safekeeping and ownership verification duties on its assets in accordance with EU law, your investment is not exposed to the credit risk of PIMCO Global Advisors (Ireland) Limited. Nonetheless you may face financial loss should PIMCO Global Advisors (Ireland) Limited or the depositary, State Street Custodial Services (Ireland) Limited default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

Investment: CHF 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	559 CHF	704 CHF
Annual cost impact (*)	5.6%	2.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.8% before costs and 1.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less.	497 CHF
Exit costs	We do not charge an exit fee for this product but, the person selling you the product may do so.	0 CHF
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	0.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.	52 CHF
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product. This amount will vary depending on how much the fund buys and sells underlying investments.	10 CHF
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This product does not have any performance fees.	0 CHF

How long should I hold it and can I take money out early?**Recommended holding period: 3 years**

This product has no required minimum holding period but is designed for medium term investment; you should be prepared to stay invested for at least 3 years. You may sell your shares in the product, without penalty, on any day on which the banks are normally open for business in the United States.

How can I complain?

If you have any complaints about the product or conduct of the manufacturer or the person advising on, or selling the product, you may lodge your complaint in one of three ways:

- You can contact us on + 353 1776 9990 and we will log your complaint and explain what to do.
- You may log your complaint via our website www.pimco.com or via email PIMCOEMteam@statestreet.com.
- You may send your complaint in writing to PIMCO Shareholder Services State Street Fund Services (Ireland) Limited 78 Sir John Rogerson's Quay, Dublin 2, D02 HD32 Ireland.
