The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising UBS Third Party Management Company S.A. in relation to this Key Information Document.

This PRIIP is authorised in Luxembourg.

UBS Third Party Management Company S.A. is authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).

This key investor information is accurate as at 2023-01-01.

What is this product?

Type

The Fund is a société d'investissement à capital variable ("SICAV") registered under Part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment (the "2010 Law").

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The Sub-Fund's objective is to offer a balanced low volatility investment strategy that generates attractive returns with a contained risk profile. It invests principally in a diversified portfolio of European corporate debt securities with fixed or variable interest rates. The portfolio manager's approach is that of lending to individual companies – selectively handpicking credits to construct a high conviction portfolio underpinned by its own in-house exhaustive research, providing investors with a higher degree of principal stability than is typically available in a portfolio of lower rated fixed income investments. Credit selection will be complemented with an emphasis on recurring income as opposed to price appreciation - predictability of income contributing to a more resilient performance. This Sub-Fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. For more information, the portfolio manager invites investors to consult the detailed ESG policy on its website. At least two-thirds of the Sub-Fund's assets will be invested in debt instruments denominated in euros or issued by corporations or entities with European exposure. The Sub-Fund may invest up to 10% of its net assets in loan participations and/or loan assignments (including rated liquid internationally syndicated loans), provided such instruments comply with the criteria applicable to money market instruments, are liquid and have a value that may be accurately determined at any time. The Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter (OTC) for efficient portfolio management purposes or hedging purposes. The Sub-Fund is actively managed without reference to a benchmark. The fund may not be appropriate for investors who plan to withdraw their money within 3 years of investment.

The return of the fund depends primarily on the development of interest rates and creditworthiness of the issuers and the interest income. The return may also be affected by currency fluctuations, where active or unhedged positions exist.

Income of this share class is reinvested.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at generating a substantial part of its yield through recurring income and addresses a preference for Sustainable Investing, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depository

UBS Europe SE, Luxembourg Branch

What are the risks and what could I get in return?

Risk indicator

The risk indicator is based on the assumption that you will hold the product 4 for year(s).

The Summary Risk Indicator (SRI) is a guide to the level of risk of this product compared to other products. It is derived from past returns and may indicate how likely it is that the product will lose money as a result of future (unknown) market conditions.

The Summary Risk indicator (SRI) for this product is 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk when your reference currency differs from the currency of the product. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This type of risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are merely examples that show the product's worst, average and best performance in the last 10 years. The markets may develop quite differently in the future.

Recommended holding period:		4 years	
Example Investment:		€10000	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 4 year(s). You could lose some or all of your investment.		
Stress	What you might get back after costs	€6220	€6820
	Average return each year	-37.8%	-9.1%
Unfavourable	What you might get back after costs	€8680	€9340
	Average return each year	-13.2%	-1.7%
Moderate	What you might get back after costs	€10000	€11170
	Average return each year	0.0%	2.8%
Favourable	What you might get back after costs	€11180	€12270
	Average return each year	11.8%	5.2%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures shown do not take account of your personal tax situation, which can also have an impact on how much you receive back.

This type of scenarios occurred for an investment between 2012-11-01 and 2022-10-01.

What happens if UBS Third Party Management Company S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to UBS Europe SE, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	€506	€1145
Annual cost impact (*)	5.1%	2.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.7% before costs and 2.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to €300
Exit costs	We do not charge a redemption fee for this product, but the party who sells the product to you may do so.	€0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.6% of the value of your investment per year. This is an estimate that is based on last year's actual costs. For products launched less than one year ago, this is an estimate based on the representation costs.	€156
Transaction costs	0.6% of the value of the investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€57
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	€0

For additional information about costs, refer to the prospectus, which is available at www.fundinfo.com

How long should I hold it and can I take money out early?

Recommended holding period: 4 year(s)

The recommended holding period for this product is 4 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative. Investors may demand to redeem their units on every normal bank business day in Luxembourg.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/tpm-policies
