

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## USD I Accumulating Class (IE000PD59QT4)

## Neuberger Berman Tactical Macro Fund (the "Fund")

a sub-fund of Neuberger Berman Investment Funds plc ("NBIF")

Neuberger Berman Asset Management Ireland Limited ("NBAMIL") is the manufacturer of the Fund.

The Central Bank of Ireland (the "Central Bank") is responsible for supervising NBAMIL, which is part of the Neuberger Berman Group, in relation to this Key Information Document ("KID").

The Fund is authorised by the Central Bank pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, and has been registered for sale in other EEA Member States. NBAMIL is authorised in Ireland and regulated by the Central Bank. For more information on this Fund, please refer to [www.nb.com](http://www.nb.com) or call +353 (0)1 264 2795.

This KID was produced on 29 April 2024.

## What is this product?

### Type:

This product is a UCITS fund.

### Objectives:

The Fund seeks to achieve positive returns regardless of the market environment by identifying market pricing imbalances across a broad range of asset classes, markets and regions in a highly risk-managed framework. There can be no guarantee that the Fund will ultimately achieve its investment objective.

The Fund will seek to achieve the investment objective by identifying key aspects of the macro environment to develop a universe of investment theses. In order to understand and identify the macro environment and/or a possible regime shift which may be the driver behind changes in asset prices, the fund will assess various factors, including but not limited to:

- Global growth and inflation environment
- Monetary and fiscal policy
- Asset valuation and trends
- Structural/Policy drivers
- Market imbalances

The Fund will utilise the investment regime framework to consider, by assessing market pricing and identifying the imbalances that exist within those investment theses, the various forms in which investment positions can be implemented to take advantage of them. Positions will generally be characterised into the following investment theses: thematic, catalyst or diversifiers.

The Fund does not apply the ESG Policy and the Sub-Investment Manager deems Sustainability Risks not to be relevant for the Fund's investment strategy.

Income will be rolled up into the value of your investment.

### Term:

The Fund has no fixed maturity date, however it may be terminated in certain circumstances, as described in the Prospectus in the section "Termination of Portfolios or Share Classes".

The shares may be exchanged for shares in another sub-fund of NBIF in accordance with the terms of the Prospectus. Charges may apply.

Shares in the Fund can be bought or sold on any day defined as a Business Day in Prospectus.

NBIF is established as an umbrella fund with segregated liability between sub-funds under Irish law.

Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") is appointed as the depositary of NBIF.

You can obtain copies of the Prospectus and the latest reports and accounts for NBIF free of charge in English, German, French, Italian and Spanish, along with the latest published prices of shares and other information on the Fund, free of charge from Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"), 30 Herbert Street, Dublin 2, Ireland.

### Benchmark:

The Fund is actively managed and it is not constrained by the benchmark, the ICE BofA US Dollar 3-Month Deposit Offered Rate Constant Maturity, which is used for performance comparison purposes only. While the Fund may acquire securities which are components of the benchmark, it will not do so because of their inclusion in the benchmark.

### Intended retail investor:

This Fund may be compatible with the needs of investors seeking a fund to deliver income and/or capital growth with an investment horizon of 3 years or more, as part of a diversified portfolio of investments. The Fund is a low risk product and investors should consider this when deciding the mix of their portfolio of investments. Investors who are unsure that they have the knowledge and experience to make informed investment decisions about this Fund or to construct a diversified portfolio should seek professional investment advice. The Fund is unlikely to be compatible with the needs of those investors seeking a single investment, or to achieve a specified return by a particular date.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of NBAMIL to pay you.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Fund Prospectus and/or supplement at [www.nb.com/en/gb/legal-documents](http://www.nb.com/en/gb/legal-documents). The Fund does not include any protection from future market performance so you could lose some or all of your investment. If we are unable to pay you what is owed, you could lose your entire investment.

## Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund/representative portfolio over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances, however, markets could develop very differently in the future.

Recommended Holding Period: 3 years			
Example Investment: USD 10,000			
Scenarios Minimum: There is no minimum guaranteed return and it is possible to lose all invested capital.		If you exit after 1 year	If you exit after 3 years (recommended holding period)
<b>Stress</b>	<b>What you might get back after costs</b> Average return each year	<b>7,960 USD</b> -20.40%	<b>8,330 USD</b> -5.89%
<b>Unfavourable<sup>1</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>9,140 USD</b> -8.57%	<b>9,240 USD</b> -2.59%
<b>Moderate<sup>2</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>10,110 USD</b> 1.08%	<b>10,410 USD</b> 1.36%
<b>Favourable<sup>3</sup></b>	<b>What you might get back after costs</b> Average return each year	<b>11,000 USD</b> 9.96%	<b>11,120 USD</b> 3.61%

<sup>1</sup> This type of scenario occurred for an investment between March 2015 and March 2018.

<sup>2</sup> This type of scenario occurred for an investment between April 2017 and April 2020.

<sup>3</sup> This type of scenario occurred for an investment between October 2019 and October 2022.

## What happens if NBAMIL is unable to pay out?

Investors may face financial losses as a result of the default of the Fund, NBIF, NBAMIL or any of the service providers appointed to the Fund, including the Sub-Investment Managers (or their affiliates), the Administrator, the Depositary, or a trading counterparty. Any such losses are not covered by any investor compensation or guarantee scheme.

## What are the costs?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the Fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	129 USD	395 USD
<b>Annual cost impact (*)</b>	1.3%	1.3%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.7% before costs and 1.4% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	The impact of the costs you pay when making your investment. This is the most you will pay, but you could pay less. This includes the costs of distribution of the Fund.	0 USD
<b>Exit costs</b>	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 USD
Ongoing costs taken each year		If you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	The impact of the costs that we take each year for managing your investments.	100 USD
<b>Transaction costs</b>	The impact of the costs of us buying and selling underlying investments for the product.	15 USD
Incidental costs taken under specific conditions		If you exit after 1 year
<b>Performance fees</b>	A performance fee equal to 20.0% of the outperformance of the Benchmark may be payable in accordance with the supplement. The amount will vary and can be payable in years where the Fund return is negative but outperforms the Benchmark. The aggregated cost estimation is an average over the last 5 years.	14 USD

## How long should I hold it and can I take money out early?

### Recommended holding period: 3 years

The Fund is designed to be held over the medium term and we recommend that you hold this investment for at least 3 years. Shares in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in the Prospectus).

Further information on the Fund's disinvestment procedure is included in the "Subscriptions & Redemptions" section of the Prospectus.

## How can I complain?

Complaints about the Fund, or the conduct of NBAMIL or a person advising on, or selling the Fund should be sent to the Fund distributor or your adviser, with a copy to the Administrator. If you do not have a distributor or adviser, the complaint should be addressed in writing to the Administrator, using the following contact details:

Brown Brothers Harriman Fund Administration Services (Ireland) Limited,  
30 Herbert Street  
Dublin 2,  
Ireland
