What is this product?

Type The Company is an open-ended umbrella investment company with variable capital incorporated with limited liability under the laws of Ireland, registered number 373807.

Objectives

Product objectives The Fund's objective is to outperform the Benchmark over a rolling 3-year time frame.

Investment approach The Fund will primarily invest in equities and equity related securities (convertible bonds) of companies worldwide (without any particular geographic, sector or capitalisation focus) that are listed or traded on Recognised Markets worldwide.) The Investment Manager will seek to invest in companies that can sustainably grow their cash flows over time and utilise their profits to increase shareholder value as the Investment Manager believes these are the key reasons for shares to perform. The Fund is permitted to invest less than 30% of its NAV in China A shares which are listed on the Shanghai Stock Exchange using the Shanghai-Hong Kong Stock Connect or the Shenzhen Stock Exchange using the Shenzhen-Hong Kong Stock Connect. Alternatively, the Fund may gain indirect exposure to China A shares via participatory notes issued by Qualified Foreign Institutional Investors and via investment in other collective investment schemes which primarily invest in China A shares. The Fund may invest up to a maximum of 30% of the Fund's Net Asset Value in convertible bonds issued by corporates with fixed and/or floating rates of interest and which may not be rated by a rating agency. The Fund may also invest in participatory notes that give exposure to equities and equity-related securities which are consistent with the Fund's investment policy and units of open-ended and closed-ended collective investment schemes (with a maximum investment of 10% of the Fund's Net Asset Value in open-ended collective investment schemes).

Benchmark The Fund's benchmark is the MSCI AC World Net USD and may be used for comparative purposes only. The Fund is actively managed and as such does not seek to replicate its benchmark index, but instead may differ from the performance benchmark in order to achieve its objective. The sub-investment manager is not constrained by the benchmark in the selection of investments and may use its discretion to invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

Redemption policy Shares in the Fund can be bought and sold daily (every Business Day of the Fund). Shareholders may request the repurchase of shares on any Redemption Day through various communication methods, and such requests are generally irrevocable unless otherwise approved. Redemption requests are subject to certain conditions, including the completion of necessary documentation and compliance with anti-money

laundering procedures. Redemption fees will not be levied by the Company, however charges of this nature may be levied by third party nominees, distributors or intermediaries.

Distribution policy Accumulating shares do not pay dividends. The annual result is capitalized (or reinvested). Income shares pay a dividend, insofar as the performance of the fund allows.

Exchange policy Subject to the conditions set down in the Prospectus, you are entitled to switch from one share class to another, either in the Fund or in another sub-fund of the Company. Please refer to the Prospectus for further information on how to switch.

Asset segregation The Fund is a sub-fund of the Company, an umbrella fund with segregated liability between sub-funds. You can find out more information about the umbrella fund in the Prospectus.

SFDR Article 8

Derivatives policy The Fund may use derivatives for hedging purposes only with a level of risk which is consistent with the risk profile of the Fund. Such instruments may include forward foreign exchange contracts, futures and options. The Fund will not be leveraged as a result of the use of derivatives for hedging. However, leverage may arise as a result of investment in convertible bonds (embedding derivatives) but such leverage will not exceed 20% of the Net Asset Value of the Fund.

Intended retail investor This Fund may not be appropriate for investors who seek to withdraw their money within three years.

Term The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. Waystone Management Company (IE) is not entitled to terminate the product unilaterally. The Company may repurchase all shares at the determined repurchase price on the specified redemption day by providing shareholders with a notice period of four to twelve weeks.

Practical information

Depository HSBC Continental Europe.

Further information The Net Asset Value of the Share Class is calculated in GBP and is available on Bloomberg, Morningstar and Reuters. What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do

not take into account your personal tax situation, which may also affect how much you get back.

money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other materially relevant risks not included in the summary risk indicator, please refer to the Prospectus for the descriptions: Emerging Markets, Stock Connect, Sustainability

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The before-mentioned calculations were performed using benchmark MSCI AC World Net USD

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company of the Fund has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10 000 is invested.

Investment GBP 10 000		
Scenarios	If you exit after 1 Year	If you exit after 5 Years (Recommended Holding Period)
Total Costs	128 GBP	943 GBP
Annual costs impact (*)	1.3%	1.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.29% before costs and 9.87% after costs.
