What is this product?

Type The Company is an open-ended umbrella investment company with variable capital incorporated with limited liability under the laws of Ireland, registered number 373807.

Objectives

Product objectives The Fund's objective is to achieve long-term capital appreciation.

Investment approach The Fund combines an integrated top-down macro-economic view and bottom-up proprietary analysis in seeking exposure either directly or indirectly (through the use of derivatives) to debt securities (government/corporate bonds, notes or bills which may have fixed or floating rates of interest and need not be of investment grade); cash and money market instruments; shares and equity related securities (convertible bonds, warrants); collective investment schemes, subject to a maximum limit of 50% of the NAV in open-ended funds; real estate (through real estate investment trusts and/or real estate operating companies); and commodities (through commodity index-linked derivative instruments) subject to maximum exposure of 20% of the NAV. Such debt securities, shares and equity-related securities may be listed and/or traded on Recognised Markets worldwide and there is no industry or geographical focus. The Fund is permitted to invest less than 20% of its NAV in China A shares which are listed on the Shanghai Stock Exchange using the Shanghai-Hong Kong Stock Connect or the Shenzhen Stock Exchange using the Shenzhen-Hong Kong Stock Connect.

Benchmark The Fund's benchmark is the BofA Merrill Lynch USD 1M Deposit Offered Rate Constant Maturity Index plus a risk premium of 5% per annum and may be used for comparative purposes only. In addition the investment performance of the Fund will be measured against a composite benchmark (the "Index"), which has been constructed from a mix of the MSCI World Total Return (45%) (NDUEACWF Index); ICE BofAML Eurodollars (30%) (EOAO Index); ICE BofAML Global High Yield (10%) (Hw00 Index); MSCI ACWI REITS Net Total Return USD Index (5%) (NDUCREIT Index); MSCI World Commodity Producers Net Total Return USD Index (3%) (M1W00CMP Index); Hedge Fund Research HFRX Global Hedge Fund Index (5%) (HFRXGL Index); and ICE BofA US Dollar 1-Month Deposit Offered Rate Constant Maturity Index (2%) (LUS1 Index). The Fund is actively managed and as such does not seek to replicate its benchmark index, but instead may differ from the performance benchmark in order to achieve its objective. The sub-investment manager is not constrained by the benchmark in the selection of investments and may use its discretion to invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

Redemption policy Shares in the Fund can be bought and sold daily (every Business Day of the Fund). Shareholders may request the repurchase of shares on any Redemption Day through various communication methods,

and such requests are generally irrevocable unless otherwise approved. Redemption requests are subject to certain conditions, including the completion of necessary documentation and compliance with anti-money laundering procedures. Redemption fees will not be levied by the Company, however charges of this nature may be levied by third party nominees, distributors or intermediaries.

Distribution policy Accumulating shares do not pay dividends. The annual result is capitalized (or reinvested). Income shares pay a dividend, insofar as the performance of the fund allows.

Exchange policy Subject to the conditions set down in the Prospectus, you are entitled to switch from one share class to another, either in the Fund or in another sub-fund of the Company. Please refer to the Prospectus for further information on how to switch.

money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other materially relevant risks not included in the summary risk indicator, please refer to the Prospectus for the descriptions: High Yield, Stock Connect, Bond Connect, CIS, Contingent Convertible, REITs, Emerging Markets, Derivatives, Sustainability

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do

not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company of the Fund has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.
