You are about to purchase a product that is not simple and may be difficult to understand

What is this product?**Type**

The Product is a share of the Sub-fund Wellington Opportunistic Fixed Income Fund (the "Fund") which is part of the Wellington Management Funds (Ireland) plc (the "Umbrella Fund"), an open-ended investment company with variable capital and segregated liability between Funds incorporated with registered number 267944 and is authorised in Ireland as a UCITS pursuant to the Regulations.

Term

The Umbrella Fund and the Fund do not have a fixed term or maturity period, but the Management Company, with the approval of the Depositary, is entitled to give notice of the Umbrella Fund's dissolution at any time. In the event that the Management Company considers that changes in the political, economic, military, regulatory or business environments, or reductions in the scale of a Fund's total net assets compromise the effective management of a Fund, then the Management Company is empowered to liquidate the Fund at any time.

Objectives

The Fund seeks long-term total returns.

The Fund will be actively managed, seeking to achieve the objective primarily via long and short (synthetic) exposure in an unconstrained manner to a broad range of fixed income debt securities across multiple geographies, including securities with both investment grade and non-investment grade credit ratings.

The Investment Manager aims to enhance the Fund's value by investing in high conviction global fixed income ideas. Opportunities are looked for outside the core developed market government and investment grade corporate sectors focused on by most investors with the belief that market inefficiencies exist and can be exploited. Allocations are made to areas the Investment Manager considers misunderstood by other investors, for example where there is crisis, complacency or where structural change is going unrecognized, as well as to country selection, currency, duration, security selection or sector rotation strategies which are intended to capture short and medium term mispricing in the market.

The Fund is not restricted by geographies, credit ratings or investment styles and has the freedom to invest in areas such as global government, inflation-linked, corporate, securitized, high yield, bank loan, emerging markets and securities that are able to be converted in to equity securities.

The Fund will invest, either directly, via collective investment schemes (funds), or via derivatives, in bonds (fixed or floating rate) issued primarily by government, agency, quasi-sovereign, commercial and sub national government or supranational issuers (e.g. the International Bank for Reconstruction and Development), mortgage and other asset-backed securities, corporate bond securities. The Fund will generally be diversified by country, currency, sector and issuer, but may hold positions that are concentrated from time to time.

Investments will represent a broad credit spectrum, including up to 50% of the net assets of the Fund in below investment grade securities. These are considered to

be securities which have a relatively low credit rating. Currency is actively managed and may be denominated in a variety of currencies. There are no limitations on the credit quality of individual securities or currencies.

Derivatives will be used to hedge (manage) risk and/or volatility and for investment purposes (such as gaining exposure to a security, to create leverage and/or a short position). Derivatives will form a significant part of the strategy and will impact performance.

The Fund does not consider a benchmark during portfolio construction or for performance comparison purposes. However, the Bloomberg Barclays Global Aggregate Index hedged to USD (the "Index") is used as a proxy for the global market for volatility measurement.

The Fund promotes certain environmental, social and governance (ESG) characteristics by investing in issuers with ESG ratings and maintain an overall weighted average ESG rating which is at least 5% better than the Bloomberg Multiverse Index (the "Index"). In order to do this, the Investment manager assigns issuers an ESG Rating, based on Wellington Management's proprietary ratings framework, using a rating scale of 1-5, where 1 is the highest rating, and is used in the overall weighted average ESG rating calculation.

During normal market conditions, a minimum of 80% of the Fund's net assets will be aligned to the environmental or social characteristics of the Fund.

The currency of this Share class is different to the base currency of the Fund and so the performance of the Share class will be subject to the impact of the movement of the exchange rate between the currencies.

Income policy

Any income allocated to the Share class from the Fund is reinvested.

Dealing Frequency

Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.

Intended retail Investor

The Fund is intended for basic retail investors with a long-term investment horizon seeking capital appreciation and who are able to bear capital loss. Investors in the Fund should be prepared to accept, in normal market conditions, a high degree of volatility of net asset value from time to time. The Fund is suitable as an investment in a well-diversified portfolio. An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

Depositary

State Street Custodial Services (Ireland) Limited.

Further Information

Please refer to the 'Other relevant information' section below.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You may not be able to cash in early. You may have to pay significant extra costs to cash in early.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 3 out of 7 which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for full details about any other risks materially relevant to the fund not included in the summary risk indicator such as liquidity, sustainability and operational risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 CAD	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,000 CAD	6,810 CAD
	Average return each year	-30.00%	-7.40%
Unfavourable	What you might get back after costs	8,800 CAD	9,770 CAD
	Average return each year	-12.00%	-0.46%
Moderate	What you might get back after costs	10,430 CAD	11,350 CAD
	Average return each year	4.30%	2.56%
Favourable	What you might get back after costs	11,460 CAD	13,030 CAD
	Average return each year	14.60%	5.44%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2020 and 2024.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2018 and 2023.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2014 and 2019.

What happens if Wellington Luxembourg S.à r.l. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the 5 year holding period we have assumed the product performs as shown in the moderate scenario
- 10,000.00 CAD

	If you exit after 1 year	If you exit after 5 years
Total costs	95 CAD	534 CAD
Annual cost impact (*)	1.0%	0.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.5 % before costs and 2.6 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 CAD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 CAD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.62% of the value of your investment per year. This is an estimate based on actual costs over the last year.	62 CAD
Transaction costs	0.33% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	33 CAD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 CAD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 5 years.

The Management Company shall redeem shares of this Fund at the redemption price on each dealing day. Redemptions of the applicable Fund will be effected at the valuation point on the relevant dealing day. The price is based on the net asset value per share of each class determined at the valuation point. Redemption requests received after the dealing deadline will be treated as having been received by the following dealing deadline unless otherwise determined by the Management Company.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

If you choose to invest in the Fund and subsequently have a complaint about it or the Management company or any distributor of the Fund, you should in the first instance contact:

- the Transfer Agent on +353 1 242 5452, via email at WellingtonGlobalTA@statestreet.com
- the Management Company by post at 33, Avenue de la Liberté L-1931 Luxembourg, Grand Duchy of Luxembourg.
