The Central Bank of Ireland is responsible for supervising UBS Fund Management (Ireland) Limited in relation to this Key Information Document.

This PRIIP is authorised in Ireland.

UBS Fund Management (Ireland) Limited is authorised in Ireland and regulated by the Central Bank of Ireland.

Date of production of the KID: 18 November 2024.

What is this product?

Type

UBS (Irl) ETF Plc is an umbrella investment company with variable capital and segregated liability between sub-funds incorporated in Ireland and authorised by the Central Bank as an Undertaking for Collective Investment in Transferable Securities under the UCITS Regulations. The fund is a UCITS ETF.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested. The recommended holding period (RHP) is displayed in the section "How long should I hold it and can I take money out early?".

Objectives

The Fund is passively managed and seeks to track performance of the S&P 500 Climate Transition Base ESG Index (Net Return) (the 'Index'). The S&P Climate Transition Base Index Series measures the performance of eligible equity securities from an underlying parent index selected and weighted to be collectively compatible with the transition to a low-carbon and climate resilient economy. The indices apply exclusions based on companies' involvement in specific business activities, violations of the principles of the United Nations' Global Compact, and involvement in relevant ESG controversies, all outlined in Eligibility Criteria. The Fund invests at least 90% of its total net assets in securities that are constituents of the Index and the Index Provider applies ESG scores on all of the index constituents. The Index is eliminating at least 20% of the least well-rated securities as against the standard index universe. It is, therefore, expected that the Fund's resulting ESG score will be higher than the ESG score of a Fund tracking a standard index. The Fund does not benefit from an SRI label. In seeking to implement its investment objective of tracking the performance of the Index, the Fund may also in exceptional circumstances hold securities which are not comprised in its Index, including, for example, securities in respect of which there has been an announcement or it is expected that they will shortly be included in the Index. The Fund may, for the purpose of reducing risk, reducing costs or generating additional capital or income, use derivative instruments. The use of derivative instruments may multiply the gains or losses made by the Fund on given investment or on its investments generally. Currency hedged share classes may also be available in the Fund.

This sub-fund promotes environmental and/or social characteristics but does not have a sustainable investment objective. The Fund will not enter into any securities lending.

The return of the fund depends mainly on the performance of the tracked index.

This class distributes its net income in order to maintain the maximum tracking accuracy of the S&P 500 Climate Transition Base ESG Index (Net Return). The exchange rate risk of the share class currency is to a large extent hedged against the currency of the fund.

Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at generating a substantial part of its yield through recurring income and addresses a preference for Sustainable Investing, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy long term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

Depository

State Street Custodial Services (Ireland) Limited

What are the risks and what could I get in return?

Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 7 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7 which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 12 year(s). Markets could develop very differently in the future.

| Recommended holding period: | | 7 years | |
|-----------------------------|--|--------------------------|---------------------------|
| Example Investment: | | GBP 10 000 | |
| | | If you exit after 1 year | If you exit after 7 years |
| Scenarios | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | GBP 810 | GBP 1 980 |
| | Average return each year | -91.9% | -20.7% |
| Unfavourable | What you might get back after costs | GBP 8 150 | GBP 12 500 |
| | Average return each year | -18.5% | 3.2% |
| Moderate | What you might get back after costs | GBP 11 480 | GBP 23 000 |
| | Average return each year | 14.8% | 12.6% |
| Favourable | What you might get back after costs | GBP 15 560 | GBP 25 440 |
| | Average return each year | 55.6% | 14.3% |

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

Unfavourable scenario: This type of scenario occurred for an investment between 2021 and 2024.

Moderate scenario: This type of scenario occurred for an investment between 2014 and 2021.

Favourable scenario: This type of scenario occurred for an investment between 2014 and 2021.

What happens if UBS Fund Management (Ireland) Limited is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to State Street Custodial Services (Ireland) Limited as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10 000 GBP is invested.

| | If you exit after 1 year | If you exit after 7 years |
|------------------------|--------------------------|---------------------------|
| Total costs | GBP 10 | GBP 109 |
| Annual cost impact (*) | 0.1% | 0.1% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.7% before costs and 12.6% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|--|--------------------------|
| Entry costs | We do not charge an entry fee. | GBP 0 |
| Exit costs | We do not charge an exit fee for this product, but the person selling you the product may do so. | GBP 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 0.1% of the value of your investment per year. This is an estimate based on actual costs over the last year. | GBP 10 |
| Transaction costs | | GBP 0 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | GBP 0 |

How long should I hold it and can I take money out early?

Recommended holding period: 7 year(s).

The recommended holding period for this product is 7 year(s). This is the period we recommend you to hold based on the risk and the expected return of the product. Please note that the expected return is not guaranteed. The greater the actual holding period deviates from the recommended holding period of the product, the more your actual returns may deviate from the product assumptions. Depending on your needs and restrictions, a different holding period may be suitable for you. Therefore, we recommend that you discuss this point with your client advisor.

Investors other than authorized participants may not subscribe for shares directly with UBS (Irl) ETF plc, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website www.ubs.com/etf. In exceptional circumstances, direct redemptions with UBS (Irl) ETF plc, are however possible on each dealing day (as set out in the relevant supplement to the prospectus). Authorized participants may subscribe and redeem shares with the UBS (Irl) ETF plc under the conditions detailed in the relevant authorized participant agreement.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/manco-fmie
