What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of DNCA Invest (the "Fund"), an Undertaking for collective investment in transferable securities (UCITS) under the laws of the Grand-Duchy of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration and liquidation must be decided upon by the Board of Directors.

OBJECTIVES

The Sub-Fund seeks to outperform of the following composite net return index denominated in Euro: 40% MSCI Nordic, 35% DAX, 15% SMI, 10% MSCI UK TR UK Net Local Currency calculated with dividends net of withholding taxes reinvested, over the recommended investment term. Investors' attention is drawn to the fact that the management style is discretionary and integrates environmental, social / societal and governance (ESG) criteria.

The Sub-Fund will invest at all times at least 90% of its total assets in equities of issuers listed on North European stock exchanges (Britain, Ireland, Benelux, Norway, Sweden, Finland, Denmark, Germany, Swiss, Austria) in all market capitalisation or exercising the preponderant part of their economic activities in North Europe. The selection process carried out by the Management Company is based on picking stocks according to their intrinsic worth (an in-depth analysis of fundamentals is conducted in-house) as opposed to a mere replication of the composition of the benchmark index. The Sub-Fund is also managed taking into consideration Responsible and Sustainable principles and promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR.

Additional information on SRI strategy may be obtained in the prospectus of the Sub-Fund.

The Sub-Fund may at any time invest in:

- Equities of issuers having their registered office in the North Europe: from 80% to 100% of its net assets;
- Equities outside the North Europe: from 0% to 10% of its net assets;
- Equities with total market capitalisation below 200 million EUR up to 10% of its net assets;
- Fixed income securities and money market instruments or deposits if market conditions are unfavourable: from 0% to 10% of its net assets;
- Other financial instruments up to 10% of its net assets.

Exposure to exchange risk may reach 100% of the Sub-Fund's net assets.

Investment in "speculative grade" or non-rated debt securities (i.e. which have a Standard & Poor's rating below A-3 short term rating or BBB- long-term rating or equivalent) may not exceed 10% of its net assets. Investment in units and or shares of UCITS and/or other UCIs is limited to 10% of the Sub-Fund's net assets.

Futures and currency forward may be used for purpose of hedging exchange currency risk. The Sub-Fund may not invest in other derivatives or any other financial derivative instruments.

The Sub-Fund is eligible to the PEA (French equity savings plan).

The Sub-Fund is actively managed and uses the benchmark for the calculation of the performance fee and performance comparison purposes. This means the Management Company is taking investment decisions with the intention of achieving the Sub-Fund's investment objective; this may include decisions regarding asset selection and overall level of exposure to the market. The Management Company is not in any way constrained by the benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the Sub-Fund lie in the possibility of depreciation of the securities in which the Sub-Fund is invested.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment		5 years EUR 10 000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 5 220 -47.8%	EUR 2 280 -25.6%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 6 670 -33.3%	EUR 7 170 -6.4%	This type of scenario occurred for an investment in the product between December 2021 and July 2023.
Moderate scenario	What you might get back after costs Average return each year	EUR 10 810 8.1%	EUR 15 210 8.7%	This type of scenario occurred for an investment in the product between June 2017 and June 2022.
Favourable scenario	What you might get back after costs Average return each year	EUR 16 110 61.1%	EUR 25 460 20.6%	This type of scenario occurred for an investment in the proxy then the product between October 2016 and October 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if the Fund is unable to pay out?

There is no guarantee in place against the default of the Sub-Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with BNP Paribas, Luxembourg Branch and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

The Sub-Fund would not be liable in the event of failure or default of the Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 576	EUR 3 187
Annual cost impact (*)	5.8%	4.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.9% before costs and 8.7% after costs.
