When preparing the audited annual report and unaudited semi-annual report, if the last day of the financial year and the semi-annual period is not a Business Day, a day which is

a Luxembourg bank business day unless otherwise provided for a specific Sub-Fund in the Appendix of the prospectus, the net asset value of the last Valuation Day of the year and the half-year period will be replaced by a net asset value calculated as at the last day of the period concerned.

It was set up in Luxembourg on 21 December 2006, in accordance with Part I of the amended law of 17 December 2010 (the "Law").

Its Articles of Incorporation were amended for the last time on 8 June 2011 and published in the Mémorial on 27 June 2011.

a) Combined financial statements

The various positions of the combined financial statements of the SICAV are equal to the sum of the various corresponding positions in the financial statements of each Sub-Fund and are expressed in euros (EUR). Redwheel Global Climate Engagement Fund*	1 USD - 0.9330534 EUR

* The Sub-Fund launched on 11 April 2024.

The Sub-Funds may enter into cross-investments with other Sub-Funds within the SICAV. As at 30 June 2024, Redwheel Global Convertibles Fund held investments in Redwheel Asia Convertibles Fund, Class C – EUR totaling EUR 19,259,725.96, which equated to 5.44% of Redwheel Global Convertibles Fund's net assets. As at 30 June 2024, Redwheel Global Emerging Markets Fund held investments in Redwheel China Equity Fund, Class ZF - USD totaling USD 18,410,620.00, which equated to 1.46% of Redwheel Global Emerging Markets Fund's net assets. As at 30 June 2024, the total of cross-Sub-Funds' investments amounts to EUR 36,437,818.20 and therefore total combined NAV as at 30 June 2024 without cross-investments would amount to EUR 2,555,170,121.23.

b) Valuation of investments in securities

The value of assets, which are listed or dealt in on any stock exchange, is based on the last available price on the stock exchange, which is normally the principal market for such assets.

The value of assets dealt in on any other Regulated Market is based on the last available price.

In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Market as aforesaid, the price as determined pursuant to paragraph mentioned above is not representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith.

The transferable debt securities are valued using the amortised cost method. This method involves valuing a security as its cost and thereafter assuming its amortisation to maturity of any discount or premium.

c) Net realised gain or loss on the sales of investments

Realised gains or losses on sales of investments are calculated on the basis of average cost of investments sold.

d) Dividend income from investments

Dividend income from investments includes dividends on equity securities net of any withholding taxes incurred during the reporting period.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

e) *Interest income from investments*

Interest income from investments includes interest on bonds and accretion of market discount/ amortisation of premiums recorded into income over the life of the underlying investment.

f) *Cost of investments in securities*

The cost of investments in securities in currencies other than the currency of the Sub-Fund is converted to the currency of the Sub-Fund at the exchange rate prevailing on the purchase date. The combined cost of investments in securities for the SICAV is equal to the sum of the cost of investments in securities of each Sub-Fund converted to EUR at the exchange rate prevailing on 30 June 2024.

g) *Valuation of forward foreign exchange contracts and currency swaps*

Unmatured forward foreign exchange contracts and currency swaps are valued by reference to the forward exchange rate prevailing on the remaining life of the contract. Interest attributable to swaps, if any, is disclosed under "Administrative, depositary and other expenses" in the Statement of Operations and Changes in Net Assets. The resulting unrealised profit or loss is recorded in the Statement of Operations and Changes in Net Assets.

h) *Valuation futures and listed options contracts*

Futures contracts and listed options are valued based on their closing price the previous day on the market concerned. The resulting unrealised profit or loss is booked in the Statement of Operations and Changes in Net Assets.

i) *Formation expenses*

The SICAV's formation expenses and the expenses relating to the creation of new Sub-Funds may be capitalised and amortised over a period not exceeding five years, as permitted by Luxembourg law and in accordance with Luxembourg generally accepted accounting principles.

j) *Valuation of contracts for difference*

Contracts for difference are valued based on the closing market price of the underlying security. Upon entering into contracts for difference, the SICAV may be required to pledge to the broker an amount of

cash and/or other assets equal to a certain percentage of the contract amount ("initial margin").

Subsequently, payments known as "variation margin" are made or received by the SICAV periodically, depending on fluctuations in the value of the underlying security. During the period the contracts are open, changes in the value of contracts are recognised as unrealised gains and losses on swap contracts by marking to market at each valuation point in order to reflect the value of the underlying security. The difference between the value of the underlying at the time it was opened and the value at the time it was closed is disclosed under "Net realised result on swaps" in the Statement of Operations and Changes in Net Assets. The open contracts for difference are listed in the Notes to the Financial Statements.

Dividends receivable attributable to open contracts for difference are recorded under "Dividend receivable on swaps contracts" in the Statement of Net Assets. Dividends payable attributable to open contracts for difference are recorded under "Dividend payable on swaps contracts" in the Statement of Net Assets. Dividend income and expenses are disclosed under "Other income" and "Administrative, depositary and other expenses", respectively, in the Statement of Operations and Changes in Net Assets. The unrealised appreciation/(depreciation) is recorded under "Unrealised gain on swaps contracts" or "Unrealised loss on swaps contracts", respectively, in the Statement of Net Assets. The movement in such amounts is recorded under "Change in net unrealised appreciation/(depreciation) on swaps" in the Statement of Operations and Changes in Net Assets at the end of the period.

The contracts are subject to a daily financing charge and income, usually applied at a previously agreed rate, which is disclosed within the "Net realised result on swaps" in the Statement of Operations and Changes in Net Assets.

k) *Valuation of credit index swaps and commodity index swap contracts*

Credit index swaps and commodity index swap contracts are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. Interest attributable to swaps, if any, is disclosed under "Administrative, depositary and other expenses" in the Statement of Operations and Changes in Net

Assets. The unrealised gain/(loss) is disclosed in the Statement of Net Assets under "Swaps at market value". Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised result on swaps" and "Change in net unrealised appreciation/(depreciation) on swaps".

l) Valuation of OTC options

The Board of Directors decided to determine the value of OTC options primarily on the basis of market prices supplied to the SICAV by Markit, a financial service provider qualifying as an appropriate third party, independent of the relevant counterparty to the OTC options, which proceeds with a daily verification and pursuant to methods allowing the SICAV to check it.

m) Swing pricing

A Sub-Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Sub-Fund at a price that does not reflect the dealing and other costs, such as but not limited to bid/offer spreads, execution commission and stamp duty, that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of shareholders of each Sub-Fund. If on any Valuation Day, the aggregate net transactions in shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Board of Directors, the net asset value per share may be adjusted upwards or downwards to reflect net inflows and net outflows, respectively. The net inflows and net outflows will be determined by the Board of Directors based on the latest available information at the time of calculation of the net asset value per share. The swing pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Board of Directors to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original net asset value per share. The swing pricing mechanism is applied on the capital activity at the level of the Sub-Fund and does not address the specific circumstances of each individual investor transaction. The adjustment will be an addition when the net

movement results in an increase of all Shares of the Sub-Fund and a deduction when it results in a decrease of all Shares of the Sub-Fund. With respect to certain Classes, the Investment Manager may be entitled to a Performance Fee, where applicable, this will be based on the unsprung NAV.

The net asset value per share as disclosed in the statistical information is the published net asset value per share, whereas the total net assets disclosed in the Statement of Net Assets is the total net asset value excluding any period end swing adjustments.

During the period ended 30 June 2024, Redwheel Asia Convertibles Fund, Redwheel Nissay Japan Focus Fund, Redwheel Global Emerging Markets Fund, Redwheel Next Generation Emerging Markets Equity Fund, Redwheel Global Equity Income Fund, Redwheel Responsible Global Income Fund, Redwheel Sustainable Emerging Markets Fund, Redwheel Clean Economy Fund, Redwheel Life Changing Treatments Fund and Redwheel Global Climate Engagement Fund applied swing pricing adjustments.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
30 June 2024

**FEES ON THE ISSUE, REDEMPTION AND
CONVERSION OF THE SICAV'S SHARES
(CONTINUED)**

No redemption fees or charges are charged by the SICAV and no redemption commission is charged by the Investment Manager.

If as a result of a redemption, conversion or transfer, a Shareholder is owner of a small balance of Shares, which is considered as a value not above EUR 20 (or the equivalent amount in another currency), the Board of Directors or Administration Agent on behalf of the Board of Directors may decide at its sole discretion to redeem such position and repay the proceeds to the Shareholder.

The shareholders have the right to convert all or a part of their Shares of one Class in any Sub-Fund into Shares of another Class of the same Sub-Fund or of another existing Sub-Fund by applying for conversion in the same manner as for the redemption of Shares.

A Sub-Fund may be closed to new subscriptions or conversions in (but not to redemptions or conversions out) if, in the opinion of the Board of Directors, this is necessary to protect the interests of existing shareholders. One such circumstance would be where the Sub-Fund has reached a size such that the capacity of the market and/or the capacity of the Investment Manager has been reached, and where to permit further inflows would be detrimental to the performance of the Sub-Fund. The Board of Directors may however decide to accept subsequent subscriptions from existing shareholders if, in the Board of Directors' opinion, this is in the interest of existing shareholders of the relevant Sub-Fund or of the Fund.

Any Sub-Fund which, in the opinion of the Board of Directors, is materially capacity constrained may be closed to new subscription or conversion, as described in the paragraph above, without notice to shareholders. Once closed to new subscriptions or conversion in, a Sub-Fund will not be re-opened until, in the opinion of the Board of Directors, the circumstances which required closure no longer prevail and significant capacity is available with the Sub-Fund for new investment.

Where closures to new subscriptions or conversion occur, the website www.redwheel.com will be amended to indicate the change in status of the applicable Sub-Fund.

DIRECTORS' FEES

Richard Goddard receives as Chairman of the Board a annual fee of EUR 35,000. The other two Independent Directors receive an annual fee each of EUR 25,000. These fees are fixed and there is no variable element. The Directors who are employees of or otherwise affiliated with RWC Asset Management LLP do not receive remuneration from the Fund in respect of their roles as Directors of the Fund.

PERFORMANCE FEE

The performance fee is calculated based on the performance of each relevant Share Class of certain Sub-Funds over the relevant Crystallisation Period. The performance fee is calculated and accrued daily in the net asset value of each relevant Share Class and is payable to the Investment Manager at the end of the Crystallisation Period.

a) Methodology A (High-Water Mark Model)

The performance fee for each Sub-Fund may be calculated with reference to a High-Water Mark. The High-Water Mark is the point after which a performance fee becomes payable. The High-Water Mark will be the higher of (i) the net asset value at launch of the Share Class and (ii) the net asset value at which the last performance fee has been paid.

The performance fee for each Class of these Sub-Funds will be calculated as follows:

- (i) On each Valuation Day, the net asset value before the daily performance fee accrual of each Class is compared to the net asset value from the previous day.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
30 June 2024

PERFORMANCE FEE (CONTINUED)

- (ii) If the difference between the net asset value of a specific Share Class between one Valuation Day and the next is positive and the net asset value of this Share Class is above the applicable High-Water Mark, it is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged (the "Performance Fee Rate") and added to the performance fee accrued since the start of the Crystallisation Period. If the difference between the net asset value of a specific Share Class between one Valuation Day and the next is negative, it is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged and subtracted from the performance fee accrued since the start of the Crystallisation Period.
- (iii) The performance fee accrual will never fall below zero. If at any time during a given Crystallisation Period the performance fee accrual has been reduced to zero, there will be no further accrual until the net asset value per Share has increased above the High-Water Mark.
- (iv) A High-Water Mark will be used to ensure that, following one or more Crystallisation Periods of depreciation, the Investment Manager does not receive a performance fee until the net asset value per Share is above the High-Water Mark at the end of the Crystallisation Period.
- (v) Appropriate adjustments are made for redemptions, dividends and currency conversions.

The performance fee is crystallised, where applicable, from each Class as of the last Valuation Day of the Crystallisation Period or on the date of the liquidation of a Sub-Fund where a performance fee applies and is paid to the Investment Manager. For a merger, on the last date of a merger of a Sub-Fund, if a performance fee applies and if practical and in the best interests of shareholders in both the merging and receiving Sub-Funds, the Investment Manager will transfer the uncrystallised fee to the absorbing Sub-Fund; otherwise if not practical and subject to authorisation, any performance fee applying shall be paid on the date of the merger.

Should redemptions occur on a Valuation Day where the performance fee accrual is positive, the performance fee accrual pro-rata of the Shares being redeemed will be crystallised and will be payable to the Investment Manager at the end of the Crystallisation Period.

Should redemptions occur on a Valuation Day where the performance fee accrual is negative, the performance fee accrual pro-rata of the shares being redeemed will be adjusted, in that the negative accrual will be proportionally reduced in line with the shares being redeemed.

The Investment Manager does not implement a limited Reference Period for the calculation of the performance fees. For clarity, the Reference Period is not shorter than the life of the applicable Sub-Fund.

b) Methodology B (Benchmark Model)

The performance fee for each Class of these Sub-Funds will be calculated as follows:

- (i) On each Valuation Day, the change in net asset value before the daily performance fee accrual of each Class is compared to the change in the relevant benchmark.
- (ii) If the change in the net asset value of a specific Share Class is above the change in the relevant benchmark between one Valuation Day and the next the Excess Performance is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged (the "Performance Fee Rate") and added to the performance fee accrued since the start of the Crystallisation Period. If the change in net asset value of a specific Share Class is lower than the change in benchmark between one Valuation Day and the next, it is applied to the portion of assets attributable to that Class and then multiplied by the percentage rate at which the performance fee is charged and subtracted from the performance fee accrued since the start of the Crystallisation Period.
- (iii) The performance fee accrual will never fall below zero. If at any time during a given Crystallisation Period the performance fee accrual has been reduced to zero, there will be no further accrual until the cumulative excess return over the benchmark since the last performance fee payment has become positive. For the avoidance of doubt, a performance fee will only be payable at the end of a Crystallisation Period after any underperformance previously incurred has been recovered.
- (iv) Appropriate adjustments are made for redemptions, dividends and currency conversions.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
30 June 2024

PERFORMANCE FEE (CONTINUED)

The performance fee is crystallised, where applicable, from each Class of these Sub-Funds on the last Valuation Day of the Crystallisation Period or on the date of the liquidation of a Sub-Fund where a performance fee applies. For a merger, on the last date of a merger of a Sub-Fund, if a Performance Fee applies and if practical and in the best interests of shareholders in both the merging and receiving Sub-Funds, the Investment Manager will transfer the uncrystallised fee to the absorbing Sub-Fund; otherwise if not practical and subject to authorisation, any performance fee applying shall be paid on the date of the merger.

Should redemptions occur on a Valuation Day where the performance fee accrual is positive, the performance fee accrual pro-rata of the shares being redeemed will be crystallised and will be payable to the Investment Manager at the end of the Crystallisation Period.

Should redemptions occur on a Valuation Day where the performance fee accrual is negative, the performance fee accrual pro-rata of the shares being redeemed will be adjusted, in that the negative accrual will be proportionally reduced in line with the shares being redeemed.

The Fund and the Management Company draw the investors' attention to the fact that, in case the relevant benchmark and the Sub-Fund performance fall, a performance fee will be charged based on the aforementioned methodology to the extent the Sub-Fund outperforms the benchmark.

The Investment Manager does not implement a limited Reference Period for the calculation of the performance fees. For clarity, the Reference Period is not shorter than the life of the applicable Sub-Fund.

No performance fee is applicable for Redwheel Global Convertibles Fund, Redwheel Global Emerging Markets Fund, Redwheel Next Generation Emerging Markets Equity Fund, Redwheel China Equity Fund, Redwheel Global Equity Income Fund, Redwheel Responsible Global Income Fund, Redwheel Sustainable Emerging Markets Fund, Redwheel Clean Economy Fund, Redwheel Biodiversity Fund, Redwheel Life Changing Treatments Fund and Redwheel Global Climate Engagement Fund.

A performance fee is applicable to the below Sub-Funds at the following performance fee rates. Unless otherwise noted the below performance fee rates apply to Class A, B and R Shares:

Redwheel Asia Convertibles Fund (Class P Shares)	15%	Refinitiv Asia ex Japan Convertible USD Hedged	Benchmark Model

FORWARD FOREIGN EXCHANGE CONTRACTS ON CURRENCIES

Shares are denominated in Euro (EUR), US Dollar (USD), British Pound (GBP), Swiss Franc (CHF), Japanese Yen (JPY) and Australian Dollars (AUD) may be issued and redeemed in these currencies. The assets of each Sub-Fund may, however, be invested in securities or other investments, which are denominated in currencies other than the currency in which a Class of shares is denominated. Consequently, each Sub-Fund is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Sub-Fund's assets or liabilities denominated in currencies other than the base currency. For example, an investor who acquires GBP shares will be subject to foreign exchange risk in respect of those assets of the Sub-Fund which are denominated in any currency other than GBP. For hedge or look through hedge Share Classes the assets of the non-base currency Classes are hedged against the base currency and foreign exchange transactions with respect to the non-base currency. Shares may be undertaken with a view to protecting the value of those Classes against the base currency. The foreign currency exposure of the Classes is substantially hedged through the use of forward contracts. The profits and losses from these transactions are allocated solely among the shares of the respective Classes to which they relate.

However, the following Sub-Funds will not hedge Share Classes denominated in another currency than the currency of the Sub-Fund:
