# The Board of Directors

## THE BOARD

### Executive Chairman

#### Gregory E. Johnson

Greg Johnson (61) is executive chairman of the Board of Franklin Resources, Inc.

Mr. Johnson was elected co-CEO of Franklin Resources in 2004 and served as the company's CEO beginning in 2005 until February 2020. Under his tenure as CEO, Franklin Templeton became one of the most globally recognized firms in the asset management industry. In 2020, Mr. Johnson became executive chairman.

Mr. Johnson earned a B.S. in accounting and business administration in 1983 from Washington and Lee University, and his Certified Public Accountant (CPA) certificate in 1985. He is a board member and past chairman of the Investment Company Institute's Board of Governors. Mr. Johnson is a past vice chairman of the Mutual Fund Forum and a past chairman of the Western district of the Securities Industry Association. He is a current board member of Jumpstart, an early literacy and education organization. Previously, he served on the board of the San Francisco Symphony. Mr. Johnson serves as the chairman and designated control person for the San Francisco Giants and serves on Major League Baseball's audit and competition committees.

### Directors

#### Mark G. Holowesko

Mark Holowesko (62) was appointed to the Board on November 30, 1994. Mark Holowesko is the founding Partner and Chief Executive Officer of Holowesko Partners Ltd (HPL). Mark launched the firm in the fall of 2000, under the name of Templeton Capital Advisors, to serve the needs of institutional and high-net-worth investors. Subsequently renamed Holowesko Partners, under Mark's leadership HPL has enjoyed steady and consistent growth and now stands as one of the premier global equity hedge firms in the industry.

Mark's investment career began in 1985 when he joined Templeton Global Advisors as a research analyst. By 1987, he had assumed the day-to-day management of all portfolios previously managed by Sir John Templeton, including the Templeton Growth Fund and the Templeton Foreign Fund. In 1989, Mark became the Director of Research of the Templeton Global Equity Funds and later, in 1996, assumed the role of Chief Investment Officer.

Mark served as a member of the Executive Committee of Templeton, Galbraith & Hansberger from 1987 to 1992 and as a member of the Executive Committee of Franklin Resources from 1992 to 2000. Mark was Director, President & Head of Investments of Templeton Global Advisors Ltd. from 1992 to 2000.

#### Jed A. Plafker

Mr. Plafker (51) is Executive Vice President of Global Alliances and New Business Strategies for Franklin Templeton. In this position, Mr. Plafker is responsible for the expansion of the company's digital wealth management and distribution-related financial technology, ensuring that the firm fully harnesses these capabilities for financial advisors and clients. In addition, he partners closely with the CEO to drive execution of the Legg Mason acquisition, working closely with the Specialist Investment Managers, to maximize coordination and operating connectivity across all aspects of the firm. Mr. Plafker is also responsible for the company's closed-end fund business, joint ventures, product governance, seed capital allocations, fund board management, and direct-to-consumer initiatives. He serves as a director of various Franklin Templeton corporate and investment entities and is a member of the Franklin Resources' Executive Committee, a small group of the company's top leaders responsible for shaping the firm's overall strategy.

Prior to assuming his current position in 2020, Mr. Plafker was Executive Vice President of Global Advisory Services, overseeing Franklin Templeton's global distribution efforts, including retail and institutional sales, marketing and product strategy. Prior to that, he was responsible for international distribution for the firm beginning in 2006. Mr. Plafker joined Franklin Templeton as a corporate attorney in 1994 and later served as chief legal counsel - Asia. In 2001, he moved to the distribution side of the business as Country Head of Hong Kong. Thereafter, he became a Managing Director in Europe.

Mr. Plafker earned a B.A. in economics and business from Lafayette College in Easton, Pennsylvania, and a Juris Doctorate from the University of Miami in Coral Gables, Florida.

**William C. P. Lockwood**

William Lockwood (66) was appointed to the Board of Franklin Templeton Investment Funds on December 1, 2014. He joined Franklin Templeton in 1992 and served as General Manager of the Franklin Templeton Luxembourg subsidiary and Franklin Templeton Investment Funds until December 2005. From December 2005 until January 2014, he was Conducting Officer of Franklin Templeton Investment Funds and of Franklin Templeton International Services S.à r.l. subsequently. The Conducting Officer role was a management, oversight and governance role under the EU UCITS legislation reporting directly to the Board of Franklin Templeton Investment Funds. Mr Lockwood has been working in the financial services industry in Luxembourg since 1982. He is a Scottish Chartered Accountant and a Member of the Chartered Institute for Securities & Investment, London. He has served as a director and international vice chairman of the Luxembourg Fund Industry Association (ALFI) and as a council member of the Institute of Chartered Accountants of Scotland.

**Craig S. Tyle**

Craig S. Tyle (62) is a Senior Advisor for Franklin Templeton. Prior to his current role, Mr. Tyle was Executive Vice President and General Counsel for Franklin Resources, Inc., overseeing the Legal, Regulatory Compliance and Investment Compliance departments. Mr. Tyle joined Franklin Templeton in 2005. Previously, he was a partner at Shearman & Sterling LLP in Washington D.C., where his clients included investment advisory firms, investment companies and independent directors of investment companies. Before joining Shearman & Sterling, Mr. Tyle was General Counsel for the Investment Company Institute (ICI), the national association of the mutual fund industry. As General Counsel, Mr. Tyle helped to develop industry positions on legislative and regulatory proposals, and was responsible for the drafting of Congressional testimony and submissions to the U.S. Securities and Exchange Commission and other federal, state and foreign regulatory agencies. Prior to being appointed General Counsel, Mr. Tyle held various positions in the ICI's legal department. He started his career as an attorney with Sullivan & Cromwell LLP in New York. Mr. Tyle earned his B.A. with high honors from Swarthmore College and graduated magna cum laude from Harvard Law School.

**Anouk Agnes**

Anouk Agnes (49) is an independent director with a focus on financial services. She is currently a member of several investment fund and management company boards in Luxembourg. Until May 2022, Mrs Agnes served as Economic Advisor to the Prime Minister of Luxembourg. She joined the Prime Minister's office after 7 years at ALFI, the Association of the Luxembourg Fund Industry, where she was the Deputy Director General and the Director for Communications and Business Development. Mrs Agnes previously worked as an Advisor to the Minister of Finance, with her main responsibilities targeted at the development of the financial centre. As such, she acted as the Secretary General of the High-level Committee for the Financial Centre, as well as Deputy Director General of Luxembourg for Finance, the Agency for the development of the financial centre. Mrs Agnes started her career in the area of international development cooperation in the Philippines and in Namibia. She holds Master's degrees in law (LL.M) and in political science (M.Sc).

**Joseph La Rocque**

Joseph La Rocque (55) is the Founder of and provides US tax consultancy services on behalf of Lighthouse Tax Advisors in Baltimore, Maryland, USA. Mr. LaRocque is also an Independent Director of both Luxembourg and Irish domiciled funds and Management Companies. He is also the Chairman of the Irish domiciled Franklin Templeton Fund families. He is a former Managing Director in charge of Affiliate Strategic Initiatives at Legg Mason. Mr. LaRocque worked for Legg Mason from 2001 until July 2019. He is a Certified Public Accountant and from 1991 to 2001 was employed by PricewaterhouseCoopers in Boston, Massachusetts, Dublin, Ireland and Baltimore, Maryland in several capacities, most recently as a Senior Manager in their global financial services practice.

# Report of the Investment Managers

## Six months to December 31, 2022

Global equities generally rose during the six-month reporting period ended 31 December 2022, as developed market stocks collectively posted modest gains, while emerging and frontier market stocks overall posted losses, all in US-dollar terms. Following a strong rally during the first half of 2022's third quarter, global equities fell sharply as investors worried that the global economy would weaken further or enter a recession as many central banks tighten monetary policy to fight persistently high inflation. After collectively reaching 2022 lows in mid-October, global equities rallied as many investors grew optimistic that the US Federal Reserve (Fed) would slow the pace of its policy tightening beginning in December. In the fourth quarter, global equities collectively advanced as gains in October and November more than offset losses in December. However, as the quarter wound down, a return of investor concerns about slower global economic growth driven by the aggressive rate-hiking actions of many central banks during the year led global equities to retreat; they closed 2022 with their worst annual loss since the 2008 global financial crisis. The ongoing Russia-Ukraine war and a COVID-19 surge in China after the country's easing of its zero-COVID policy also weighed on investor sentiment.

Equities in Europe were weighed down during the third quarter by investor concerns of a potential recession, the euro's significant decline against the US dollar and high energy prices. In the fourth quarter, European stocks rallied as many investors hoped that slower economic growth and moderating inflation would lead the European Central Bank (ECB) and the Bank of England (BoE) to slow the pace of their interest-rate hikes. Economic growth slowed in the eurozone in the third quarter, and the currency bloc's manufacturing activity contracted for the sixth consecutive month in December. The ECB raised its key interest rate four times during the period to the highest level in 14 years. Elsewhere in Europe, the United Kingdom's economy contracted in the third quarter compared with the previous quarter, and its manufacturing activity contracted in December for the fifth consecutive month. The BoE also raised its key bank rate four times during the six-month period, taking it to the highest rate since 2008.

US equities were pressured during most of the second half of the year, as they were during most of 2022, by investor concerns that the Fed's aggressive rate increases could drive the US economy into a recession, though optimism that moderating inflation could lead the Fed to slow the pace of its rate hikes supported investor sentiment at times. The combination of a strong US job market and persistently high inflation led the Fed to raise the federal funds target rate by 75 basis points (bps) in July, September and November and by 50 bps in December, bringing it to the highest level since 2007. Meanwhile, the US economy expanded in the third quarter after contracting in the first and second quarters, but manufacturing activity contracted in December for the second consecutive month as production, new orders and backlogs declined.

In credit markets, the second half of 2022 continued to see the dominant financial market themes of the year as a whole, including high inflation, tighter monetary policy, rising bond yields, a stronger US dollar, and increasing concerns about global growth—all in the shadow of (and in some instances exacerbated by) the Russia-Ukraine war. However, the last part of the period was characterised by a tentative rolling over in a number of these factors: inflation appeared to have peaked in a number of countries, bond yields retreated from their highs, the stronger US dollar trend showed some signs of softening, and central banks mostly either slowed their rate increases or even paused, depending on where in the cycle they were. For the six-month period as a whole, bond yields rose in most countries, with some emerging Asian and central European countries the exceptions.

Global commodity prices generally declined during the six-month period. Prices in the global commodities complex generally came down in the third quarter of 2022, capping the asset class's first back-to-back quarterly losses since 2019. Europe's energy crisis supported natural gas prices during the third quarter, while crude oil, refined products and metals declined due to investor expectations for global demand weakness. Elevated inflation readings in the United States, Europe, and elsewhere drove many of the world's central banks, notably the Fed, the ECB, and the BoE, to aggressively hike interest rates. Such actions—in addition to heightened geopolitical risk, policy uncertainty in China, weak manufacturing data, and a more defensive stance in trade and financial markets—were viewed as drags on economic growth and, potentially, demand for energy and raw materials. The US dollar's strength made a wide range of commodities more expensive for overseas buyers, further stoking inflation and damping their demand. Commodities generally advanced modestly in the fourth quarter. Although demand dynamics began to loosen, the global economy was hard-pressed to satisfy its commodity needs, which kept a support under prices. It was a volatile quarter and six-month period, though, with many energy and raw materials prices heading into 2023 well off their 2022 highs as investors braced for a downshift in economic activity. The Russia-Ukraine war, which raised worries over the supply chain and led to higher commodity-linked inflation across the globe earlier in 2022 following Russia's invasion of Ukraine, faded as a major influence in fourth-quarter market activity. Although the supply-and-demand situation remained tight through year-end, the October–December span was a far cry from peak levels earlier in the year, when commodities posted their best quarter in 32 years during the first three months of 2022.

As we enter 2023, we believe global growth is slowing to below trend, and risks remain skewed to the downside, accentuated by the impact of monetary policy tightening. This complicates continuing supply pressures, including the ongoing Russia-Ukraine war, in boosting inflation. In the second half of 2022, riskier assets were generally hampered as recession fears rose, even as corporate fundamentals remained generally strong. In broad terms, global equities require sustained earnings growth to offset any further decrease in valuations. Earnings expectations remain elevated and vulnerable to downgrades. Tightening monetary policy has led to a rise in volatility, which offsets longer-term equity fundamentals, which we believe are still relatively supportive. Long-term bond valuations appear fair, in our assessment, and monetary policy is still expected to tighten further. However, decelerating growth and heightened global uncertainties balance this view. The trough in economic activity is likely still ahead of us, as leading indicators suggest, even as current activity has held up reasonably well.

The Fund Performance disclosed in this table is the performance of the reference share class in base currency of the Fund.

Where Class A distribution "A (dis)" Shares are disclosed, the performance is calculated with all the income reinvested (total return). Information on other share classes is available on request.

Ω Unaudited figures.

\* The launch date is for the Fund, however the reference share class launched at a later date.

† Fund performance prior to September 1996 excluded from calculation because a different portfolio allocation strategy was in use.

Information on other share classes is available on request. This report shall not constitute an offer or a solicitation of an offer to buy shares. Subscriptions are to be made on the basis of the current prospectus, where available the relevant Key Investor Information Documents ("KIIDs"), a copy of the latest available audited annual report and, if published thereafter, the latest unaudited semi-annual report.

The price of shares and income from them can go down as well as up and you may not get back the full amount that you invested.

Past performance is no guarantee of future performance. Currency fluctuations may affect the value of investments. The performance data do not take account of the commissions and costs incurred on the issue and redemption of units.

Data Source: Performance – Franklin Templeton Investments

acc – accumulation shares

dis – distribution shares

Mdis – monthly distribution shares

Qdis – quarterly distribution shares

Ydis – yearly distribution shares

## Statement of Net Assets

# Notes to Financial Statements

## For the period ended December 31, 2022

### Note 1 - The Company

Franklin Templeton Investment Funds (“FTIF” or the “Company”) is a collective investment undertaking pursuant to Part I of the amended Luxembourg law of December 17, 2010 on undertakings for collective investment and qualifies as a société d’investissement à capital variable. The Company was incorporated in Luxembourg on November 6, 1990, for an undetermined period. At the date of this report, it offers shares in 86 sub-funds of the Company (the “Funds”). The Board of Directors of the Company may authorise the creation of additional Funds in future with different investment objectives.

The Company aims to provide investors with a choice of Funds investing in a wide range of transferable securities and other eligible assets on a worldwide basis and featuring a diverse array of investment objectives, including capital growth and income. The overall objective of the Company is to seek to minimise investment exposure through diversification and to provide Shareholders with the benefit of a portfolio managed by Franklin Templeton, according to its successful time-tested investment selection methods.

#### Fund launches

Franklin European Social Leaders Bond Fund launched on September 19, 2022.

#### Templeton Eastern Europe Fund

In the context of the invasion of Ukraine by Russia and the resulting impact of sanctions and the actions of governments and market counterparties on certain Russian issuers and assets, to allow the proper functioning of the Fund, Russian assets held by the Fund as of February 25, 2022 were segregated from the liquid assets within the Fund and allocated to seven share classes newly created on November 11, 2022 (the “Restricted Share Classes”) and these are being managed with the aim to realize them in the best interest of the shareholders. Shares in such new classes listed below were allocated to shareholders on November 11, 2022 in a manner to reflect their respective percentage holdings in the Fund’s total NAV as of February 25, 2022. The Restricted Share Classes are closed to subscriptions, redemptions and switches.

Restricted Share Classes - A (acc) EUR RC, A (acc) USD RC, A (Ydis) EUR RC, I (acc) EUR RC, N (acc) EUR RC, W (acc) EUR RC, X (acc) EUR RC.

Following the allocation of the Russian assets to the Restricted Share Classes issued only to existing shareholders on November 11, 2022, the liquid part of the Fund’s portfolio no longer has any exposure to Russian assets and the Fund will not make any further investments in Russian or Belarussian assets until further notice.

#### Fund closures

Franklin Systematic Style Premia Fund closed on November 14, 2022. The remaining amount of cash at bank is USD 10,490 as at December 31, 2022 and will be used to cover costs linked to liquidation.

As of December 31, 2022, the above cash balance is still open and there is no Shareholder in the Fund. The cash accounts will be closed as soon as all invoices are paid. In case of remaining cash, the amount will be distributed to Shareholders that were still invested at closure.

### Note 2 - Significant accounting policies

#### (a) General

The financial statements are prepared in accordance with the regulations of the Grand Duchy of Luxembourg relating to investment funds under the going concern basis of accounting except for Franklin Systematic Style Premia Fund. As such, the financial statements for this Fund has been prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not lead to material adjustments to the Fund’s published net asset value.

**Note 2 - Significant accounting policies (continued)****(b) Investment in securities**

Securities which are listed on a stock exchange or traded on any other organised market are valued at the last available price on such exchange or market which is normally the principal market for each security, and those securities dealt in on an over-the-counter market are valued in a manner as near as possible to that for quoted securities.

Securities not listed on any stock exchange nor traded on any organised market are valued at the last available price, or if such price is not representative of their fair value, they are valued prudently and in good faith on the basis of their reasonably foreseeable sales prices.

In accordance with the provisions of the current prospectus, Market Level Fair Valuation may be implemented to protect the interests of the Company's shareholders against market timing practices, as market timers may seek to exploit possible delays between the change in the value of a Fund's portfolio holdings and the Net Asset Value of the Fund's Shares in Funds that hold significant investments in foreign securities because certain foreign markets close several hours ahead of the US markets, and in Funds that hold significant investments in small-cap securities, high-yield (junk) bonds and other types of investments which may not be frequently traded.

The Company has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. In such circumstances, the price of such investment shall be adjusted in accordance with the procedures adopted, as determined by or under the direction of the Board of Directors.

During the accounting period under review, gains and losses on investment securities sold were computed on the average cost basis for all Funds with the exception of the Franklin High Yield Fund, the Franklin Income Fund, the Franklin U.S. Government Fund, the Templeton Asian Bond Fund and the Templeton BRIC Fund which were computed on the first-in, first-out basis.

During the accounting period under review, discounts and premiums were amortised to income over the period to maturity.

For mortgage-backed and other similar holdings with scheduled debt paydowns, the Funds record accruals, based on their historical experience, for anticipated paydowns. Such accruals are recorded as a reduction or increase to the related holdings as disclosed on the Schedule of Investments and are included in the related unrealised appreciation/depreciation on investments shown on the "Statement of Operations and Changes in Net Assets".

Money market instruments are valued at market value.

The global pandemic following the outbreak of novel Coronavirus (Covid-19) continued through 2021-22 with ongoing adverse impact on financial markets despite vaccination programmes in many countries.

On February 24, 2022, Russia began military operations in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine has increased market volatility and the economic risk of investing in securities in these countries and other impacted countries within the region. Due to the sanctions, actions by governments, developments in Ukraine itself and other circumstances, the Manager continues to assess the impact on valuation and liquidity and will take any potential actions needed, in accordance with the Funds' valuation policies and procedures. The equity securities are priced at nil as at 31.12.2022.

Exposure within the sub-funds has been summarised as follows (exposure is limited to non-equity holdings as the equities have been fair valued at nil):

<b>Sub-fund</b>	<b>As of</b>	<b>% Ukraine</b>	<b>% Russia</b>	<b>% Belarus</b>	<b>% Total Exposed</b>

## **Note 2 - Significant accounting policies (continued)**

### **(c) Forward foreign exchange contracts**

Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the remaining period, until maturity. Gains or losses resulting from forward foreign exchange contracts are recognised in the "Statement of Operations and Changes in Net Assets".

### **(d) Financial future contracts**

The Company may enter into financial future contracts to gain exposure to market changes. A financial future contract is an agreement between two parties to buy or sell a security for a set price on a future date. Required initial margin deposits of cash or securities are maintained by a broker in a segregated account. Subsequent payments, known as variation margin, are made or received by the Company depending on the fluctuations in the value of the underlying securities. Such variation margin is accounted for as unrealised gains or losses until the contract is closed, at which time the gains or losses are reclassified to realised gains or losses. Realised and unrealised gains and losses are included in the "Statement of Operations and Changes in Net Assets".

### **(e) Interest rate swap contracts**

Interest rate swap contracts are used to hedge the risk of changes in interest rates and are agreements between two parties to exchange cash flows based on a notional principal amount. The net interest received or paid on interest rate swap contract agreements is accrued daily as interest income/expense.

Interest rate swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of interest rate swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

### **(f) Inflation swap contracts**

An inflation swap contract is a bilateral agreement used to transfer inflation risk from one party to another through an exchange of cash flows.

Inflation swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of inflation swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

### **(g) Cross currency swap contracts**

A cross currency swap is an agreement between two parties to exchange interest payments and principals denominated in two different currencies. Cross currency swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of cross currency swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

**Note 2 - Significant accounting policies (continued)****(h) Total return swap contracts**

A total return swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains.

Total return swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of total return swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

**(i) Contracts for difference**

Contracts for difference are contracts entered into between a broker and the Fund under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place.

Upon entering into contracts for difference, the Fund may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ("initial margin"). Subsequently, payments known as "variation margin" are made or received by the Fund periodically depending on fluctuations in the value of the underlying security.

The market value of CFDs is determined by the last known traded price on the exchange on which the underlying securities or assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

Contracts for differences are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

**(j) Credit default swap contracts**

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic payment for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual users.

Credit default swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

The risks of credit default swap contracts include unfavourable changes in interest rates, an illiquid secondary market and the possible inability of the counterparty to fulfil its obligations under the agreement, which may be in excess of the amount reflected in the "Statement of Net Assets".

## Note 2 - Significant accounting policies (continued)

### (k) Option contracts

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract-stated expiration date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium (original option value) and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

The risks include price movements in the underlying securities, the possibility there may be an illiquid options market, or the inability of the counterparties to fulfil their obligations under the contract.

The Company writes options on securities, futures and interest rate swaps (“swaptions”). These options are settled in cash and subject the Company to unlimited risk of loss. The Company, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

The market values are recorded under “Option Contracts at Market Value” in the “Statement of Net Assets”.

### (l) Foreign exchange transactions

Transactions expressed in currencies other than each Fund’s currency are translated into each Fund’s currency at the exchange rates applicable on the transaction dates.

Assets and liabilities denominated in currencies other than each Fund’s currency are translated into each Fund’s currency at the appropriate exchange rates ruling at the period-end. Gains and losses on foreign exchange transactions are recognised in the “Statement of Operations and Changes in Net Assets” in determining the results for the accounting period.

The reference currency of the Company as reflected in the combined financial statements is U.S. dollar. The principal exchange rates applied as at December 31, 2022 are as follows:

AUD	1.4689	EUR	0.9342	NOK	9.7991
CAD	1.3540	GBP	0.8272	PLN	4.3782
CHF	0.9247	HKD	7.8054	SEK	10.4355
CNH	6.9207	HUF	373.1150	SGD	1.3394
CZK	22.5680	JPY	131.2850	ZAR	16.9934

The list of the currency abbreviations is available in note 27.

### (m) Mortgage dollar rolls

In a mortgage dollar roll, a Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (name, type, coupon, and maturity) securities on a specified future date. During the period between the sale and repurchase, the Fund foregoes principal and interest paid on the mortgage-backed securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase, as well as by the interest earned on the cash proceeds of the initial sale.

Mortgage dollar rolls are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”.

The difference between the current sales price and the lower forward price is treated as realised gain.

The market values are recorded under “Investment in mortgage dollar rolls at market value” or under “Open Short Positions on mortgage dollar rolls” in the “Statement of Net Assets”. During the period ended as at December 31, 2022, the fund’s had no exposure.

**Note 2 - Significant accounting policies (continued)****(n) Income**

Dividends are credited to income on their ex-dividend date. Interest income is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest is credited to the funds upon receipt. Swap interest where applicable is recorded in accordance with the terms of the relevant swap deal. Sundry income are principally comprised of derivative income – options, accrual adjustments pertaining to consent fees and tax reclaims.

**(o) Securities lending**

To the extent permitted in the relevant Fund's investment policy, a Fund may utilise, on a temporary basis, up to 50% of its assets for securities lending transactions. The volume of the securities lending transactions of each Fund shall be kept at an appropriate level or each Fund shall be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of each Fund's assets in accordance with its investment policy. The counterparties to securities lending transactions are selected following an initial analysis, and subsequent annual review thereafter, of financial statements, company announcements, credit ratings and other market information which includes general market movements. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process. Loans will be secured continuously by collateral which must at least equal the value of the securities lent. Securities lending income is disclosed under the caption "Securities lending" in the "Statement of Operations and Changes in Net Assets". Any transaction expenses in connection with the loans are charged to the concerned Fund.

**(p) Formation expenses**

Formation expenses associated with the launch of the new Funds are expensed as incurred.

**(q) Senior floating rate interest**

Senior secured corporate loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or the Sterling Over Night Index Average (SONIA). Senior secured corporate loans often require prepayment of principal from excess cash flows or at the discretion of the borrower. As a result, actual maturity may be substantially less than the stated maturity.

Senior secured corporate loans in which Franklin Gulf Wealth Bond Fund holds are generally readily marketable, but may be subject to some restrictions on resale.

**(r) Swing pricing**

A Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

To counter this dilution impact and to protect Shareholders' interests, a swing pricing mechanism may be adopted by the Company as part of its valuation policy.

The Fund operates a swing pricing mechanism which is applied when the total capital activity (aggregate of inflows and outflows) at a Fund level exceeds a pre-determined threshold, as determined as a percentage of the net assets of that Fund for the Valuation Day. Funds can operate a full swing pricing mechanism where the threshold is set to zero or a partial swing pricing mechanism where the threshold is greater than zero.

Typically, such adjustment will increase the Net Asset Value per Share when there are net inflows into the Fund and decrease the Net Asset Value per Share when there are net outflows. The Net Asset Value per Share of each Share Class in a Fund will be calculated separately but any adjustment will, in percentage terms, affect the Net Asset Value per Share of each Share Class in a Fund identically. Swing pricing does not address the specific circumstances of each individual investor transaction.

## Note 2 - Significant accounting policies (continued)

### (r) Swing pricing (continued)

The adjustments will seek to reflect the anticipated prices at which the Fund will be buying and selling assets as well as estimated transaction costs.

Investors are advised that the volatility of the Fund's Net Asset Value might not reflect the true portfolio performance as a consequence of the application of swing pricing.

The size of the adjustment impact is determined by factors such as the volume of transactions, the purchase or sale prices of the underlying investments and the valuation method adopted to calculate the value of such underlying investments of the Fund.

The swing pricing mechanism may be applied across all Funds of the Company. The extent of the price adjustment will be reset by the Company on a periodic basis to reflect an approximation of current dealing and other costs. Such adjustment may vary from Fund to Fund and under normal conditions will not exceed 2% of the original Net Asset Value per Share. The Board of Directors can approve an increase of this limit in case of exceptional circumstances, unusually large Shareholders trading activities, and if it is deemed to be in the best interest of Shareholders.

The Management Company mandates authority to the Swing Pricing Oversight Committee to implement and on a periodic basis review, the operational decisions associated with swing pricing. This committee is responsible for decisions relating to swing pricing and the ongoing approval of swing factors which form the basis of pre-determined standing instructions.

The price adjustment is available on request from the Management Company at its registered office.

On certain share classes, the Management Company may be entitled to a performance fee, where applicable, this will be based on the unswung NAV.

In the case of a swing pricing event on the last day of the annual/semi-annual period, the net assets as disclosed in the "Statement of Net Assets", exclude the swing pricing adjustment, however, the net asset value per share as at annual/semiannual period end, as disclosed in the Statistical Information, would include the swing pricing adjustment.

During the period ended December 31, 2022, swing pricing adjustments affected the net asset value per share of the following Funds:

Franklin Disruptive Commerce Fund  
Franklin Emerging Market Corporate Debt Fund  
Franklin Emerging Markets Debt Opportunities Hard Currency Fund  
Franklin Euro Government Bond Fund  
Franklin Euro High Yield Fund  
Franklin Euro Short Duration Bond Fund  
Franklin European Corporate Bond Fund  
Franklin European Social Leaders Bond Fund  
Franklin Flexible Alpha Bond Fund  
Franklin Global Aggregate Bond Fund  
Franklin Gold and Precious Metals Fund  
Franklin Gulf Wealth Bond Fund  
Franklin K2 Alternative Strategies Fund  
Franklin MENA Fund  
Franklin UK Equity Income Fund  
Templeton Asian Smaller Companies Fund  
Templeton Emerging Markets Fund  
Templeton Emerging Markets Smaller Companies Fund  
Templeton Emerging Markets Sustainability Fund  
Templeton European Dividend Fund  
Templeton European Opportunities Fund  
Templeton Global Bond Fund  
Templeton Global Smaller Companies Fund

### Note 3 - Cross Funds Investments

Some Funds may invest into shares of UCITS and other open and closed end UCIs which may include other Funds of Franklin Templeton Investment Funds. As at December 31, 2022, the following Funds held shares issued by another Fund of the Company.

	Currency	Investment in securities at market value as per Statement of Net Assets	Market value of Cross Funds investment	Investment in securities at market value after deduction of Cross Funds investments
Franklin Diversified Balanced Fund	EUR	178,105,220	3,750,373	174,354,847
Franklin Global Multi-Asset Income Fund	EUR	115,046,033	2,612,841	112,433,192
Templeton Asian Growth Fund	USD	1,976,470,496	21,578,427	1,954,892,069
Templeton Emerging Markets Dynamic Income Fund	USD	101,929,868	4,664,882	97,264,986

The total combined net assets at period-end without Cross Funds investments would amount to USD 55,682,785,879

### Note 4 - Time deposits ("TDs")

As at December 31, 2022, the Company had the following cash on time deposits:

Fund Counterparty	Value of TDs in Fund Currency	Fund Counterparty	Value of TDs in Fund Currency
<b>Franklin Global Growth Fund</b>		<b>Templeton China A-Shares Fund</b>	
Royal Bank of Canada	USD 4,800,000	Royal Bank of Canada	USD 800,000

### Note 14 - Investment management fees

The Management Company receives from the Company a monthly investment management fee equivalent to a certain percentage per annum (as detailed below) of each Fund's average daily net assets during the accounting period. When Funds invest in other Franklin Templeton funds, a management fee is not applied to the amounts invested. The following percentages apply in respect of the different Funds as at December 31, 2022.

The Investment Managers will be remunerated by the Management Company out of the investment management fee received from the Company.

No management fee is payable by an investor on the acquisition of Class X and Class Y shares, instead a fee is paid to the Investment Manager or affiliates under a separate agreement.

	Class A PF	Class I	Class I PF	Class J	Class S	Class S PF	Class W	Class EB	Other Classes except Class X and Class Y
Franklin Biotechnology Discovery Fund		0.70%					0.70%		1.00%
Franklin Disruptive Commerce Fund		0.70%					0.70%		1.00%

**Note 14 - Investment management fees (continued)**

	Class A PF	Class I	Class I PF	Class J	Class S	Class S PF	Class W	Class EB	Other Classes except Class X and Class Y

**Note 15 - Performance fees**

The Management Company may be entitled to receive from the net assets attributable to a share class an annual performance-based incentive fee (the “performance fee”) which, if applicable, will be calculated and accrued daily and payable as of the end of each fiscal year.

The performance fee becomes due in the event of outperformance, that is, if the increase in the NAV during the relevant performance period (after deduction of any subscription and/or redemption fees levied) exceeds (i) the increase in the target benchmark over the same period and (ii) the applicable high water mark point as defined in the prospectus.

If shareholders redeem all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallise on that dealing day and will then become payable.

The following performance fees apply in respect of the PF shares as at December 31, 2022.

**Note 15 - Performance fees (continued)**

Sub-fund and Share Classes	Sub-fund currency	Performance fees	Performance fees (amount)	Percentage of average net assets	Target benchmark

**Note 16 - Soft commission**

Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the Company may be directed by the Investment Managers to broker-dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such broker-dealers.

The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms.

Such services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are paid for directly by the Investment Managers.

**Note 17 - Connected party transactions**

Certain Directors of the Company are or may also be Officers and/or Directors of one or more of the various Investment Managers of the Funds, among others, Franklin Templeton Investments (Brasil) Ltd., Franklin Templeton Investments (Asia) Limited, Templeton Investment Counsel, LLC and Franklin Templeton Institutional, LLC. All transactions with connected parties were entered into in the ordinary course of business and under normal commercial terms. The investment management fees that are accrued by the Company in respect of the Management Company are detailed in note 14 to the financial statements.

There are no connected brokers in Franklin Templeton, and no transactions were entered into with connected brokers during the period ended December 31, 2022.

During the period ended December 31, 2022, the Company accrued administration and transfer agency fees and shares' maintenance and service charges in respect of Franklin Templeton International Services S.à r.l. as Management Company and Principal Distributor of the Funds.

Any investment in Cross Funds as defined in Note 3 or products issued by Franklin Templeton are made at normal market condition.

**Note 18 - Taxation**

Under current tax laws and practice, the Company is not liable in the Grand Duchy of Luxembourg to any taxes on income or on realised or unrealised capital gains.

The Company is liable in the Grand Duchy of Luxembourg to a tax of 0.05% per annum, such tax being paid quarterly, and calculated on the net asset value of each Fund at the end of each relevant quarter (except the Franklin U.S. Dollar Short-Term Money Market Fund for which the rate is 0.01%). This tax is not applicable for the portion of the assets of a Fund invested in other undertakings for collective investment that have already been subject to such tax. Class I shares, Class J shares, Class X shares and Class Y shares may benefit from a reduced rate of 0.01% per annum if all shareholders of these share classes are institutional investors.

Investment income received or capital gains realised by the Company may be subject to tax in the countries of origin. All liabilities in respect of taxes payable on unrealised capital gains on investments are provided for as soon as there is a reasonable certainty that a liability will crystallise.

**Note 18 - Taxation (continued)**

No stamp duty or other tax is payable in the Grand Duchy of Luxembourg on the issue of shares in the Company.

The Company is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current laws.

**Note 19 - Share classes**

Class A shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1%, retained by the Principal Distributor, applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class AS shares: are offered in Singapore to CPF Investors as more fully described in the current prospectus of the Company. Class AS shares are offered at the applicable net asset value and are not subject to an entry charge. In addition, a maintenance charge of up to 0.40% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor.

Class AX shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% (except for the Franklin Diversified Conservative Fund which has an entry charge of up to 5.00%) of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1% applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class B shares: As from April 1, 2016, no additional Class B Shares are issued. Class B Shares purchased by an Investor prior to April 1, 2016 are subject to a contingent deferred sales charge up to 4% if such investor sells shares within 4 years of purchase. In addition, a maintenance charge of up to 0.75% per annum of the applicable average net asset value and a servicing charge of 1.06% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Starting from 2011, shares will be automatically converted into Class A shares of the same Fund 7 years after their purchase as more fully disclosed in the prospectus.

Class C shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of 1.00% if an investor redeems shares within one year of purchase. In addition, a maintenance charge of 1.08% per annum of the applicable average net asset value is deducted. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other party.

Class EB shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class EB shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class F shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class F shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class G shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.10% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class G shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class I shares: are offered to institutional investors as more fully described in the current prospectus of the Company. Purchases of Class I shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

### Note 19 - Share classes (continued)

Class J shares: are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company. Purchases of Class J shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class N shares: are subject to an entry charge of up to 3.00% of the total amount invested. In addition, a maintenance charge of up to 1.25% per annum of the applicable average net asset value is accrued daily and is deducted and paid monthly to the Principal Distributor. Class N shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class S shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class S shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class W shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class W shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class X shares: are not subject to an entry charge and no management fees will be payable by an investor on the acquisition of Class X shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class X shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Y shares: are not subject to an entry charge and no management, registrar, transfer, corporate, domiciliary or administration fees will be payable by an investor on the acquisition of Class Y shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class Y shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Z shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class Z shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Accumulating shares (acc): do not distribute any dividends but the income attributable is reflected in the increased value of the shares. All other terms and conditions are the same as those which apply to distributing share classes.

Distributing shares: may have different frequencies. (Mdirc) & (Mdis) share classes distribute monthly, (Qdis) share classes distribute quarterly, (Bdis) share classes distribute bi-annually and (Ydis) share classes distribute annually.

Class dirc shares: are distributing share classes with the suffix "dirc" are offered as part of a currency hedged share class.

Class pc shares: are distribution share classes designed to offer, under normal market conditions, dividend distribution at a fixed percentage of the Net Asset Value per Share or a fixed amount respectively.

Performance fee classes: are classes that are subject to performance fees and are denoted by the inclusion of "PF" in their names.

Hedged share classes: In respect of hedged share classes, the Company offers the following alternatives:

- H1: in order to reduce exchange rate fluctuations and return fluctuations, the base currency exposure of the fund is hedged into the hedged share class alternative currency.
- H2: a hedging strategy is applied in order to reduce the risk of currency movements between the currency of the hedged share class and other material currencies of the securities and cash held by the Fund.
- H4: where currency controls imposed by a country's monetary authority prevent free movement of currency ("Restricted Currency"), another hedging methodology is used. The share class is denominated in the base currency of the Fund but hedges the Fund's base currency into a specified Restricted Currency for investors in that Restricted Currency.

The principal distributor grants remuneration from the commissions due to it for the sale of the investment fund (management fees) to distributors and asset managers. Institutional investors who hold the fund shares economically for third parties will also receive reimbursements.

**Note 20 - Expenses reimbursement**

On a daily basis, for share classes where the expenses are capped, the level of expenses is calculated and compared to the cap and where the level of expenses is higher than the cap, this difference is booked as a decrease of expense (the “waiver fees”). The performance fees do not form part of the capped expenses. On a monthly basis the waiver fees are deducted from the fees received by Franklin Templeton International Services S.à r.l.

The amount of waiver fees is disclosed as “Expenses reimbursement” in the “Statement of Operations and Changes in Net Assets”.

**Note 21 - Other Charges**

Other expenses mainly consist of conducting officers, legal fees, registration & filing fees, paying agent fees and tax fees.

**Note 22 - Statement of changes in the investment portfolio**

Upon request, you can receive a free report which lists all buy and sell transactions for each fund during the reporting period at the company’s registered office or from the representative in Switzerland

**Note 23 - Transaction costs**

Transaction costs are costs incurred to acquire and dispose of financial assets or liabilities. They include fees and commissions paid to agents, brokers and dealers. During the period ended December 31, 2022, the Company incurred the following transaction costs:

\*This fund was closed on November 14, 2022

For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

**Note 24 - Equalisation**

The Funds use an accounting practice known as equalisation, by which a portion of the proceeds from issues and the costs of sale of shares, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transaction, is credited or charged to undistributed income. As a result, undistributed net investment income per share is unaffected by issues or redemptions of shares. However, in respect of any Fund offering only accumulation shares, the Board of Directors reserves the right not to apply equalisation.

**Note 25 - Total Expense Ratio**

The Total Expense Ratio (TER), expressed as a percentage, reflects the total cost relative to the average net assets of the fund over the period. The total costs include the administration fee, the administration and paying agent fee, the custodian bank fee and other costs that are summarized in the development of the fund's assets.

For share classes launched during the period, the TER is annualised.

## Note 26 - Global Credit facility

Effective February 4, 2022, the Company together with other European and U.S. registered investment funds managed by Franklin Templeton (individually, "Borrower"; collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling USD 2,675 million (Global Credit Facility) to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability, to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the company and other costs incurred by the Company, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

During the financial period ended December 31, 2022, the Company did not use the Global Credit Facility.

## Securities Financing Transactions (SFTs) and Total Return Swaps (TRS)

The Company engages in Securities Financing Transactions (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions) through its exposure on securities lending transactions and total return swap contracts during the year, in accordance with Article 13 of Regulation. Information on securities lending transactions and total return swaps are detailed below.

### Global data

Fund	Fund Currency	Securities lending			Gross Volume of TRS <sup>1</sup>	Total securities Lending and TRS in % of net assets

Franklin Strategic Income Fund	USD	1 to 3 months	United States of America	15,861
Franklin U.S. Low Duration Fund	USD	1 to 3 months	United States of America	10,026

(1) absolute value of the unrealised gains/(losses)

All Funds engaged in total return swap contracts utilise bi-lateral settlement and clearing with their respective counterparty.

#### Data on reuse of collateral

Collaterals received in relation to Securities lending and Total Return Swaps cannot be sold, re-invested or pledged.

#### Safekeeping of collateral

All the collateral received in relation to Securities Lending is in custody at Goldman Sachs or J.P. Morgan SE, Luxembourg Branch. As at the reporting date, there was no collateral granted with respect to securities lending transactions.

All the collateral received in relation to Total Return Swaps is in custody at J.P. Morgan SE, Luxembourg Branch.

#### Data on return

The total income earned from the securities lending programme is detailed in Note 13.

The return from total return swap contracts is accrued to the Funds.

#### Collateral

The following table reports the collateral held as at December 31, 2022 to reduce counterparty exposure on OTC derivatives.

Fund	Counterparty	Collateral currency	Cash held as collateral	Sovereign Bonds held as collateral

**Portfolio Turnover Ratio**

The portfolio turnover ratio, expressed as a percentage, is equal to the total of purchases and sales of securities netted against the total value of subscriptions and redemptions, over average net assets of the Fund for the period. It is effectively a measure of how frequently a Fund buys or sells securities.

The portfolio turnover ratio calculation is not applicable to Liquid Reserve and Money Market Funds, as such a ratio is not relevant to such Funds due to the short-term nature of the investments.

<b>Fund</b>	<b>Portfolio Turnover Ratio</b>

**Audited annual report and unaudited semi-annual reports**

The abridged audited annual reports will be sent to all shareholders registered on June 30. The audited annual report is available on request free of charge from the registered office of the company and from the representative in Switzerland. The abbreviated audited semi-annual reports will be available on the following website: [www.franklintempleton.ch](http://www.franklintempleton.ch)

These will then only be sent to shareholders in the countries where local regulations so require.

The audited annual report is available on request free of charge from the registered office of the company and from the representative in Switzerland.

At Franklin Templeton Switzerland Ltd, in addition to the issue and redemption prices, the prospectus, the key investor information and the financial reports (annual and semi-annual reports), a copy of the company's articles of association is also available free of charge. Documents listed in "Viewable Documents" can be viewed during normal business hours.
