Notices to investors and general information

Notices

The executive board of LGT Capital Partners (FL) Ltd., as the management company of LGT Quality Funds has resolved to merge the sub-fund LGT Bond Fund Quality Hedged of LGT Multi-Assets II (the "merging sub-fund") with the sub-fund LGT Sustainable Short Duration Corporate Bond Fund Hedged of LGT Quality Funds (the "receiving sub-fund") (see below and hereinafter referred to as the "merger").

The Financial Market Authority of Liechtenstein (the "FMA") approved the merger on 4 October 2019.

Merging sub-fund LGT Bond Fund Quality Hedged with relevant unit class / ISIN:

LGT Bond Fund Quality Hedged - (CHF) I2

LI0196464395

Receiving sub-fund LGT Sustainable Short Duration Corporate Bond Fund Hedged with relevant unit class / ISIN:

LGT Sustainable Short Duration Corporate Bond Fund Hedged - (CHF) I2

LI0211365619

Unit class (CHF) IM of the merging sub-fund has not been launched.

This notice, provided to you as a unitholder of the receiving sub-fund, hereby informs you of the following changes:

a) Background and rationale for the merger:

LGT Capital Partners (FL) Ltd. (the "Management Company") would like to offer investors optimal investment opportunities at all times. The management company therefore regularly reviews its product strategy and range, adjusting them accordingly to meet new needs and circumstances. As a consequence of this review process, the executive board of the management company has decided to merge the merging sub-fund with the receiving sub-fund in order to improve efficiency.

b) Possible impact of the merger on unitholders:

1. Possible impact on the rights and obligations of unitholders:

The merger will have no impact on the rights and obligations of unitholders.

2. Material differences in respect of investment policy and strategy:

There will be no change in the investment policy and strategy as a result of the merger.

3. Material differences in respect of the unit redemption terms:

There will be no change in the unit redemption terms as a result of the merger.

4. Costs:

There will be no change in the costs charged by the receiving sub-fund as a result of the merger.

Costs associated with the preparation and implementation of the merger will not be charged to either of the sub-funds involved in the merger or to their unitholders.

5. Expected outcome:

The merger of the sub-funds will result in a more cost-efficient management for the benefit of the unitholders as the size of the receiving sub-fund will increase. This typically leads to an improvement in the total expense ratio ("TER").

6. Base currency

The base currency will not change.

7. Periodic reporting:

The periodic reporting will remain unchanged.

8. Possible dilution in performance:

There will be no expected performance dilution through additional participation following the merger.

9. Tax treatment of unitholders following the merger:

For unitholders of the receiving sub-fund, there are no expected implications for their tax treatment.

10. Major implications on the portfolio:

There is no expected material re-arrangement of the portfolio as a result of the merger.

c) *Specific rights of the unitholders in relation to the merger:*

1. Right to obtain additional information, especially in relation to the treatment of the accrued income:

The accrued income of the merging sub-fund will be transferred to the receiving sub-fund.

2. Right to obtain a copy of the merger report:

The merger report prepared by the auditor can be obtained free of charge from the management company or the depositary, LGT Bank Ltd., Vaduz (the "Depositary").

3. Right to request redemption or, where applicable, the conversion of units:

If you consent to the merger of the merging sub-fund with the receiving sub-fund, which you hold, you do not need to take any further action.

If you do not consent to the merger, you may register your units of the receiving sub-fund for redemption free of charge.

Redemption requests must be received by the depositary by no later than on 29 November 2019, 14:00 CET.

d) *Significant terms of the merger process and the effective merger date:*

1. Significant terms of the merger process:

The merger is not subject to an approval by the unitholders. There is no suspension of unit trading for the unitholders of the receiving sub-fund.

2. Effective merger date:

The merger will become effective as of 29 November 2019.

e) *Changes in the key investor information document of LGT Sustainable Short Duration Corporate Bond Fund Hedged:*

There will no changes to the key investor information document (the "KIID") of the receiving sub-fund (LGT Sustainable Short Duration Corporate Bond Fund Hedged of LGT Quality Funds).

Notes to the Semi-Annual Report

Key accounting principles

Determination of net asset value

For each sub-fund, the net asset value, net asset value per class and net asset value per unit are calculated in respect of each day designated to be a valuation day and at the end of the financial year by the management company or its delegate, as specified in annex A of the prospectus for relevant sub-funds.

The net asset value of the sub-fund will be calculated by deducting total liabilities of the sub-fund (including the costs and fees described below) from the total assets of the sub-fund.

The net asset value per class will be calculated by deducting the liabilities of a sub-fund attributable to such class from the assets of the sub-fund attributable to such class. Class-specific assets and liabilities may include, but are not limited to, any cost or profit arising from a class-specific currency hedging; the portion of fees and expenses attributable to a class including the management fee, the performance fee, the operations fee and other adjustments such as the costs, prepaid expenses, losses, dividends, profits, gains and income which the management company determines relate to such class.

The net asset value per unit is calculated by dividing the net asset value per class by the number of units of that class in issue.

The net asset value, the net asset value per class and the net asset value per unit will, unless the management company determines otherwise, be determined in respect of each valuation day in accordance with the unit trust agreement and the following principles:

1. The value of any cash on hand, on loan, on deposit or on call, bills, demand notes, promissory notes, accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received shall be deemed to be the full amount thereof plus accrued interest, if any, unless the management company shall have determined that any such position is not worth the full amount thereof and a deduction appropriate to reflect the true value of the asset in which event the value shall be deemed to be such value as the management company consider to be the reasonable value.

2. a. Except in the case of any interest in a managed fund to which paragraph 3 applies and subject to paragraphs 4 and 5 below, all calculations based on the value of investments quoted, listed, traded or dealt in on any stock exchange, commodities exchange, futures exchange or over-the-counter market shall be made by reference to the latest closing price – or lacking any closing price at the last available bid price – on the principal stock exchange for such investments as at the close of business in such place on the day as of which such calculation is to be made. For valuing debt instruments, accrued interest may have to be added.

b. Where there is no stock exchange, commodities exchange, futures exchange or over-the-counter market all calculations based on the value of investments quoted by any person, firm or institution making a market in that investment (and if there shall be more than one such market maker then such particular market maker as the management company may designate) shall be made by reference to the latest bid price quoted thereon, provided always that if the management company considers that the prices ruling on a stock exchange other than the principal stock exchange provide in all the circumstances a fairer criterion of value in relation to any such investment, such prices shall be adopted.

c. Derivative contracts traded on a stock exchange, commodities exchange, futures exchange or over-the-counter market shall be valued at the settlement price as determined by the market where the derivative is traded. If the market price is not available, the derivative contract may be valued in accordance with (b) above. Derivative contracts which are not traded on any of the aforementioned exchanges or markets and are not cleared by a clearing counterparty will be valued on the basis of the mark to market value of the derivative contract or if market conditions prevent marking to market, reliable and

prudent marking to model may be used. Derivative contracts which are not traded on any of the aforementioned exchanges or markets and which is cleared by a clearing counterparty shall be valued on the basis of a quotation provided at least daily by the relevant counterparty and verified at least weekly by a party independent of the counterparty, or another independent party which is approved for such purpose by the management company. Alternatively, a derivative contract which is not traded on a regulated market and which is cleared by a clearing counterparty may be valued using an alternative valuation. Alternative valuation, if any, will follow international best practice and adhere to the principles on valuation of OTC instruments established by bodies such as IOSCO and AIMA. The alternative valuation will be provided by a competent person selected by the management company or its agents, or a valuation by any other means provided that the alternative valuation will be fully reconciled to the counterparty valuation on a monthly basis. Any significant difference between the alternative valuation and counterparty valuation will be promptly investigated and explained.

d. Forward foreign exchange contracts shall be valued in the same manner as derivative contracts which are not traded in a regulated market or by reference to the price at the valuation day at which a new forward contract of the same size and maturity could be undertaken.

3. In the case of a sub-fund which is a money market fund, the management company may value the assets of a sub-fund using the amortised cost method of valuation if the use of such method of valuation is permissible, subject to the requirements of the FMA. Any intention to value investments using the amortised cost method of valuation pursuant to paragraphs for a sub-fund will be disclosed in annex A of the prospectus.

4. Subject to paragraphs 3, 4 and 5, the value of each interest in any open-ended unit trust or corporation, open-ended investment company or other similar open-ended vehicle (a managed fund) shall be the last published net asset value per unit, share or other interest in such managed fund as of or reasonably close to the relevant valuation day (where available) or (if the same is not available) its estimated net asset value as of or reasonably close to such relevant valuation day;

5. if no net asset value, bid and offer prices or price quotations are available as provided in paragraphs 2, 3 or 4, the value of the relevant asset shall be determined from time to time in such manner as the management company shall determine (including, among other means of establishing a fair value, model pricing);

6. notwithstanding the foregoing, the management company may require some other method of valuation to be used if they consider that such valuation better reflects a fair value;

7. any value (whether of a security or cash) other than in the base currency or class currency shall be converted, as applicable, into the base currency or class currency at an applicable rate; and

8. the value of any accrued debt, liability and obligation (including all accrued management, incentive and professional fees), any accounts payable and any contingencies for which reserves are made shall be deemed to be the full amount thereof unless the management company determines otherwise.

Swinging single pricing

For any sub-fund, the management company may determine to apply a swinging single pricing mechanism for dealing with performance dilution issues that arise when a fund experiences large inflows or outflows to ensure that long-term unitholders are not materially disadvantaged by the negative impact from redemptions and subscriptions.

The swinging single pricing mechanism utilizes a single net asset value per unit for subscriptions and redemptions, which is adjusted upwards or downwards for net inflows or outflows, respectively, to cover the transaction costs, commissions, taxes, spreads and other costs incurred by a sub-fund due to cash flows. As a result, the aforementioned costs will be borne by subscribing and redeeming investors. The adjustment factor (the "swing factor") is typically applied when the net in- or outflows exceed a certain threshold (the "swing threshold"). Annex A of the prospectus specifies whether or not a single

swinging policy is applied for a given sub-fund and sets out the maximum swing factor and the swing threshold, where applicable.

Suspension of determination of net asset value

For each sub-fund, the management company may suspend the determination of the net asset value, the net asset value per class and/or the net asset value per unit if the management company deems that such suspension is in the best interest of the unitholders, the UCITS and/or a sub-fund, including the following circumstances:

1. in case any principal stock exchange, commodities exchange, futures exchange or over-the-counter market where a material part of the assets of the sub-fund is listed, quoted, traded or dealt in is closed (other than customary weekend and holiday closing) or trading is substantially restricted or suspended; or
2. in case no reasonable valuations in respect of a material part of the sub-fund's assets or liabilities are available in a timely manner;
3. when circumstances exist as a result of which it is not reasonably practicable to determine the net asset value, the net asset value per class or the net asset value per unit on an accurate and timely basis; or
4. as a result of exchange restrictions or other restrictions affecting the transfer of funds or transactions on behalf of the sub-fund are rendered impracticable or purchases and sales of the sub-fund's investments cannot be effected at normal rates of exchange; or
5. a decision is made to liquidate and wind down the sub-fund.

The costs and commissions charged on the management of the segments are disclosed using the internationally recognized indicator "Total Expense Ratio (TER)" This ratio expresses the sum of all costs and commissions charged on an ongoing basis to the fund's assets (operating expenses) taken retrospectively as a percentage of the fund's assets.

The TER is calculated using the "ongoing charges" calculation method according to CESR-Guideline, taking account of the TER of investments in target funds if the present fund is also substantially invested in target funds. Insofar as performance-related remuneration ("performance fee") was applicable to the period under report, this shall also be reported separately as a percentage of the average net assets. In this case, TER2 shall be reported in addition to TER1, corresponding to the sum of TER1 as well as the percentage share of the performance fee.

The costs of the master funds are already included in the Total Expense Ratio of the feeder funds.

Transaction costs

The sub-funds will bear any and all incidental costs in connection with the investment, reinvestment or diversion of investments transaction costs including brokerage commissions and dealer mark-ups, mark-downs and spreads. However, the depositary's transaction costs (excluding currency hedging costs) as well as any taxes and duties relating to such transactions by the depositary will be paid out of the operations fee. The depositary's transaction costs represent approximately 20% of the operations fee. Any external costs, i.e. third-party fees incurred through the sale and purchase of investments; such costs will be set off directly against the purchase price or sales value of the relevant investments.

Securities lending

Where stated in annex A of the prospectus in respect of the relevant sub-fund, the management company may for efficient portfolio management purposes only, lend some or all of the securities held in such sub-fund to third parties to enhance its return.

In general, securities lending transactions may only be effected via recognized clearing organisations, such as Clearstream International or Euroclear, or first-rate banks, securities firms, financial services providers or insurance companies specialised in securities lending, within the parameters set by any such organisations. When entering into a securities lending transaction, the management company on behalf of the UCITS must obtain collateral whose value corresponds to no less than the entire value of the loaned securities and any interest accrued. Any such collateral must be furnished in a form of a permissible financial security. Said collateral will not be required if the securities lending is effected via Clearstream International or Euroclear or any equivalent organisation that assures the management company on behalf of the UCITS that the value of the loaned securities will be reimbursed. In complying with the investment rules, loaned securities must constantly be taken into account.

The depositary shall be entitled to retain a maximum of 50% of the proceeds from securities lending transactions to cover its direct and indirect costs.

The management company shall not recover withholding taxes on investments covered by securities lending agreements.

As of 31 October 2019, there were no securities lent.
