SYNCHRONY(LU) FUNDS (the "Fund") is an open-ended Mutual Investment Fund (Fonds Commun de Placement) incorporated under Luxembourg law which invests its assets in transferable securities.

The Fund is established in accordance with management regulations originally signed in Luxembourg on 12 November 2012.

SYNCHRONY(LU) FUNDS, as a Mutual Investment Fund governed by Part I of the amended Law of 17 December 2010 concerning undertakings for collective investment, does not have legal personality and is established in accordance with Directive 2009/65/EC as last amended.

The prospectus, the precontractual informations regarding the sub-funds categorised under the terms of Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the "SFDR"), as amended and supplemented by the regulatory technical standards (RTS), key information documents (PRIIPs KIDs) and the management regulation, as well as the annual and semi-annual reports, may be obtained free of charge from the Fund's management company, custodian, distributors and paying agents, as well as from local representatives and correspondents.

#### **Note 2- Main accounting methods and bases for assessment**

##### **a) Presentation of the financial statements**

The Fund's financial statements are prepared in accordance with the current statutory and regulatory rules in Luxembourg relating to undertakings for collective investment, pursuant to the terms of the issue prospectus for the Fund and to the main accounting methods generally accepted in Luxembourg.

The Fund's financial statements have been prepared in accordance with the going concern principle.

##### **b) Valuation of assets**

The calculation was made on the basis of the last closing prices of all global stock markets available at the date of the financial statements or the last price available at the date of the financial statements.

The securities, money market instruments, options and contracts admitted to or traded on a recognised stock exchange or on a regulated market are valued on the basis of the last price available at the date of the financial statements and if several markets exist, on the basis of the last known price of the stock exchange which constitutes the main market for the security in question, unless such prices are not representative.

For unlisted securities, securities listed but for which the last known price is not representative, and money market instruments other than those listed on a regulated market, the valuation is based on the reasonable and likely realisable value, estimated prudently and in good faith by the management company.

Liquid assets are valued at their nominal value plus any interest that has accrued but is not yet due.

Units in collective investment undertakings are valued on the basis of the last available net asset value at the date of the financial statements or the last available closing price at the date of the financial statements.

Over-the-counter derivatives are measured at fair value.

- fees related to the activities conducted by the official representative of the Fund in Switzerland and the payment service in Switzerland.

The advertising costs and other expenses directly linked to the tender or distribution of shares, including the cost of printing and reproduction of documents used by distributors in connection with their business are not incurred by the Fund's sub-funds.

#### **Note 4- Management fee of target funds**

At the date of the financial statements, the Fund had not invested in related target funds.

#### **Note 5- Issue, redemption and conversion fees**

No subscription or redemption fee is applied for the sub-funds.

For each sub-fund a sales fee of up to 3% and a conversion fee of up to 1% of the net asset value of a unit of the sub-fund are paid to the distributor.

#### **Note 6- Subscription tax**

The Fund is governed by Luxembourg law.

In accordance with law and regulations in force, the Fund is subject to annual subscription taxes of 0.05% for the A, EUR A and CHF A classes, and 0.01% for I, EUR I, I EUR-H and I CHF-H classes, intended for institutional investors only, calculated and payable quarterly on the basis of the net asset value at the end of each quarter.

In accordance with Article 175 a) of the law of 17 December 2010 as amended, the part of the net assets invested in UCI already subject to subscription duty is exempted from this tax.

All the sub-funds cover this duty.

#### **Note 7- Total Expense Ratio (“TER”)**

The TER presented in this report's "Statistics" is calculated in accordance with the Guidelines on the calculation and disclosure of the Total Expense Ratio of collective investment schemes, issued on 16 May 2008 and as amended on 5 August 2021 by the *Asset Management Association Switzerland*.

The TER is calculated over the past 12 months preceding the report date.

Transaction fees are not included in the calculation of the TER.

If a fund invests at least 10% of its assets in other funds that publish a TER, a synthetic ratio of the fund of funds is calculated on the financial year closing date or at the end of the first half-year of the financial year. This corresponds to the sum of the TER (prorated) of the individual target fund, weighted on the basis of its proportion in the net assets of the fund on the closing date, the subscription and redemption fees of the target funds actually paid and the TER of the fund of funds, less the trailer fees paid by the target funds over the reporting period. The synthetic TER is calculated based on the information available on the date of writing this document.
