Hedged Share Classes

Depending on the Subfund, Class AH, AHP, BH, BHP, CAH, CAHP, CBH, CBHP, DAH, DAHP, DBH, DBHP, EAH, EAHP, EBH, EBHP, IAH, IAHP, IAHP25, IBH, IBHP, IBH25, IBHP25, MAH, MAHP, MBH, MBHP, SAH, SAHP, SBH, SBHP, UAH, UAHP, UAH500, UAHP500, UBH, UBHP, UBH500, UBHP500, UXAH, UXAHP, UXBH, UXBHP, X1AH, X1AHP, X1BH, X1BHP, X2AH, X2AHP, X2BH, X2BHP, X3AH, X3AHP, X3BH, X3BHP, X1AH, X1AHP, X1BH, X1BHP, X2AH, X2AHP, X2BH, X2BHP, X3AH, X3AHP, X3BH and X3BHP Shares are issued in one or more alternate currencies.

In order to reduce the risk of an overall depreciation of the Subfund's Reference Currency against the alternate currency of the Share Classes AH, AHP, BH, BHP, CAH, CAHP, CBH, CBHP, DAH, DAHP, DBH, DBHP, EAH, EAHP, EBH, EBHP, IAH, IAHP, IAHP25, IAHP25, IBH, IBHP, IBH25, IBHP25, MAH, MAHP, MBH, MBHP, SAH, SAHP, SBH, SBHP, UAH, UAHP, UAH500, UAHP500, UBH, UBHP, UBH500, UBHP500, UXAH, UXAHP, UXBH, UXBHP, X1AH, X1AHP, X1BH, X1BHP, X2AH, X2AHP, X2BH, X2BHP, X3AH, X3AHP, X3BH, X3BHP, X1AH, X1AHP, X1BH, X1BHP, X2AH, X2AHP, X2BH, X2BHP, X3AH, X3AHP, X3BH and X3BHP, the net asset value of the respective Share Classes as calculated in the Subfund's Reference Currency, will be hedged against the respective alternate currency of Share Classes AH, AHP, BH, BHP, CAH, CAHP, CBH, CBHP, DAH, DAHP, DBH, DBHP, EAH, EAHP, EBH, EBHP, IAH, IAHP, IAHP25, IAHP25, IBH, IBHP, IBH25, IBHP25, MAH, MAHP, MBH, MBHP, SAH, SAHP, SBH, SBHP, UAH, UAHP, UAH500, UAHP500, UBH, UBHP, UBH500, UBHP500, UXAH, UXAHP, UXBH, UXBHP,

X1AH, X1AHP, X1BH, X1BHP, X2AH, X2AHP, X2BH, X2BHP, X3AH, X3AHP, X3BH, X3BHP, X1AH, X1AHP, X1BH, X1BHP, X2AH, X2AHP, X2BH, X2BHP, X3AH, X3AHP, X3BH and X3BHP through the use of forward foreign exchange transactions. The aim of this approach is, as far as possible, to mirror the performance of the Share Class in the Subfund's Reference Currency minus any hedge costs.

Within this approach, the currency risk of the investment currencies (except for the Reference Currency) versus the alternate currency will not be hedged or will only be partially hedged. Investors are made aware that currency hedging is never perfect – it aims to reduce the effects of currency movements on a Share class, but it cannot eliminate them entirely. The foreign exchange transactions in relation to Share-Class Hedging will be executed by UBS Asset Management Switzerland AG, an affiliate of UBS Group, acting in its capacity as FX hedging agent for the purpose of FX hedging activities including determination of the appropriate hedging positions and placement of FX trades (the "FX Hedging Agent").

Depending on the Subfund, with Share Class AH, AHP, BH, BHP, CAH, CAHP, CBH, CBHP, DAH, DAHP, DBH, DBHP, EAH, EAHP, EBH, EBHP, IAH, IAHP, IAHP25, IBH, IBHP, IBHP25, MAH, MAHP, MBHP, SAH, SAHP, SBH, SBHP, UAH, UAH500, UAH500, UBH, UBHP, UBHP500, UXA, UXAHP, UXAH, UXAP, UXAHP, UXB, UXBH, UXBP, UXBHP, X1A, X1AP, X1AH, X1AHP, X1B, X1BP, X1BH, X1BHP, X2A, X2AP, X2AH, X2AHP, X2B, X2BP, X2BH, X2BHP, X3A, X3AP, X3AH, X3AHP, X3B, X3BP, X3BH and X3BHP amounts to EUR 100, CHF 100, USD 100, SGD 100, RON 100, PLN 100, GBP 100, CZK 1000, JPY 10000 and/or HUF 10000, and of Share Classes DA, DAP, DAH, DAHP, DB, DBP, DBH, DBHP, EA, EAP, EAH, EAHP, EB, EBP, EBH, EBHP, IA, IAP, IAH, IAHP, IA25, IAP25, IAH25, IAHP25, IB, IBP, IBH, IBHP, IB25, IBP25, IBH25, IBHP25, MA, MAP, MAH, MAHP, MB, MBP, MBH, MBHP, SA, SAP, SAH, SAHP, SB, SBP, SBH and SBHP to EUR 1000, CHF 1000, USD 1000, SGD 1000 and/or GBP 1000, depending on the currency denomination of the Share Class in the respective Subfund and its characteristics. After the initial offering, Shares may be subscribed at the applicable net asset value ("Net Asset Value").

The Company may, at any time, decide on the issue of Share Classes in any additional freely convertible currencies at an initial issue price to be determined by the Company.

Except in case of Alternate Currency Share Classes, Share Classes shall be denominated in the Reference Currency of the Subfund to which they relate. Investors may, at the discretion of the central administration ("Central Administration"), pay the subscription monies for Shares in a convertible currency other than the currency in which the relevant Share Class is denominated. As soon as the receipt is determined by the depositary bank of the Company ("Depositary Bank"), such subscription monies shall be automatically converted by the Depositary Bank into the currency in which the relevant Shares are denominated. The Company may at any time issue, within a Subfund, one or more Share Classes denominated in a currency other than the Subfund's Reference Currency. The Company may enter into forward currency contracts for, and at the expense of, this Alternate Currency Class in order to minimize the effect of price fluctuations in this alternate currency. However, no assurance can be given that the hedging objective will be achieved. The Net Asset Value of the Shares of these Alternate Currency Classes does not develop in the same way as that of the Share Classes issued in the Reference Currency.

In the case of Subfunds with Alternate Currency Classes, the currency hedging transactions for one Share Class may, in exceptional cases, adversely affect the Net Asset Value of the other Share Classes. Shares may be held through collective depositories. In such cases, Shareholders shall receive a confirmation in relation to their Shares from the depository of their choice (for example, their bank or broker), or Shares may be held by Shareholders directly in a registered account kept for the Company and its Shareholders by the Company's Central Administration. These Shareholders will be registered by the Central Administration. Shares held by a depository may be transferred to an account of the Shareholder with the Central Administration or to an account with other depositories approved by the Company or with an institution participating in the securities and fund clearing systems. Conversely, Shares held in a Shareholder's account kept by the Central Administration may at any time be transferred to an account with a depository. The Company may divide or merge the Shares in the interest of the Shareholders.

After the initial offering, Shares may be subscribed at the applicable net asset value ("Net Asset Value"). The Company may, at any time, decide on the issue of Share Classes in any additional freely convertible currencies at an initial issue price to be determined by the Company. Except in case of Alternate Currency Share Classes, Share Classes shall be denominated in the Reference Currency of the Subfund to which they relate.

Investors may, at the discretion of the central administration ("Central Administration"), pay the subscription monies for Shares in a convertible currency other than the currency in which the relevant Share Class is denominated. As soon as the receipt is determined by the depositary bank of the Company ("Depositary Bank"), such subscription monies shall be automatically converted by the Depositary Bank into the currency in which the relevant Shares are denominated.

The Company may at any time issue, within a Subfund, one or more Share Classes denominated in a currency other than the Subfund's Reference Currency.

The Company may enter into forward currency contracts for, and at the expense of, this Alternate Currency Class in order to minimize the effect of price fluctuations in this alternate currency. However, no assurance can be given that the hedging objective will be achieved. The Net Asset Value of the Shares of these Alternate Currency Classes does not develop in the same way as that of the Share Classes issued in the Reference Currency.

In the case of Subfunds with Alternate Currency Classes, the currency hedging transactions for one Share Class may, in exceptional cases, adversely affect the Net Asset Value of the other Share Classes.

Shares may be held through collective depositories. In such cases, Shareholders shall receive a confirmation in relation to their Shares from the depository of their choice (for example, their bank or broker), or Shares may be held by Shareholders directly in a registered account kept for the Company and its Shareholders by the Company's Central Administration. These Shareholders will be registered by the Central Administration. Shares held by a depository may be transferred to an account of the Shareholder with the Central Administration or to an account with other depositories approved by the Company or with an institution participating in the securities and fund clearing systems. Conversely, Shares held in a Shareholder's account kept by the Central Administration may at any time be transferred to an account with a depository.

The Company may divide or merge the Shares in the interest of the Shareholders.

Notes

Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg.

The financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds under the going concern basis of accounting except for the subfunds merged (Credit Suisse (Lux) Edutainment Equity Fund, Credit Suisse (Lux) European Quality Dividend Equity Fund, Credit Suisse (Lux) Global Value Equity Fund, Credit Suisse Investment Partners (Lux) Global Balanced Convertible Bond Fund), that are prepared on a non-going concern basis.

The significant accounting policies are summarised as follows:

a) Computation of the net asset value of each subfund

The net asset value of the Shares of each subfund shall be calculated in the reference currency of the respective subfund and shall be determined under the responsibility of the Company's Board of Directors in Luxembourg on each banking day in Luxembourg (each such day being referred to as a "Valuation Day"). A banking day is defined as being a day on which banks are normally open for business in Luxembourg.

For the active subfunds, the Net Asset Value calculated will be increased by up to a maximum of 2% per Share in the event of a net surplus of subscription applications or reduced by up to a maximum of 2% per Share in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day. The effective date for the introduction of the Net Asset Value adjustment mechanism (Single Swing Pricing) was as of 1 January 2012.

The NAV per share as disclosed in the statistical information is the published NAV per share whereas the total net assets disclosed in the statement of net assets is the total net asset value excluding period end swing adjustment.

As per 30 November 2024 swing pricing was applied on the subfunds: UBS (Lux) Systematic Index Fund Yield CHF, UBS (Lux) Commodity Allocation Fund, UBS (Lux) European Small and Mid Cap Equity Long/Short Fund, UBS (Lux) Digital Health Equity Fund

c) Valuation of investment securities of each subfund

Securities which are listed or regularly traded on a stock exchange shall be valued at the last available purchase price. If such a price is not available for a particular trading day, but a closing mid-price (the mean of the closing bid and ask prices) or a closing bid price is available, the closing mid-price, or alternatively the closing bid price, may be taken as a basis for the valuation.

If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange on which the security is chiefly traded.

In the case of securities for which trading on a stock exchange is not significant whereas a secondary market with regulated trading among securities dealers does exist (with the effect that the price is set on a market basis), the valuation may be based on this secondary market.

Securities traded on a regulated market shall be valued in the same way as securities listed on a stock exchange.

Securities that are neither listed on a stock exchange nor traded on a regulated market shall be valued at their last available market price. If no such price is available, the Company shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.

Units or shares in UCI shall be valued on the basis of their most recently calculated net asset value, where necessary taking due account of the redemption fee. Where no net asset value and only buy and sell prices are available for units or shares in UCI, the Shares/shares in such UCI may be valued at the mean of such buy and sell prices.

Fiduciary and fixed-term deposits shall be valued at their respective nominal value plus accrued interest.

If a valuation in accordance with the above rules is rendered impossible or incorrect owing to special or changed circumstances, then the Company's Board of Directors shall be entitled to use other generally recognized and auditable valuation principles in order to value the subfund's assets. In exceptional circumstances, further valuations may be carried out on the same day; such valuations will be valid for any applications for purchase and/or redemption subsequently received.

d) Cash at banks and at brokers

Cash at banks and at brokers includes cash in hand, margin calls and deposits held at call with banks.

e) Net realised gain/loss on sales of investments of each subfund

The realised gains or losses on the sales of securities are calculated on the basis of the average acquisition cost.

f) Foreign exchange conversion

The financial statements are kept in the reference currency of each subfund and the combined financial statements are kept in CHF.

Cash at banks, other net assets and the value of portfolio securities in currencies other than the reference currency of each subfund are converted into the reference currency at the foreign exchange rate prevailing on the date of valuation.

Income and expenses in currencies other than the reference currency of each subfund are converted into the reference currency at the foreign exchange rate applicable at the date they accrue to the subfund.

Realised gains or losses on foreign currencies are accounted for in the statement of operations and the statement of changes in net assets.

The acquisition cost of securities in currencies other than the reference currency of each subfund is converted into the reference currency at the foreign exchange rate valid at the date of acquisition.

g) Transactions on investments in securities of each subfund

The transactions on investments in securities are booked on a trade date basis.

h) Valuation of financial futures contracts of each subfund

Unmatured financial futures contracts are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and the statement of changes in net assets and are shown under unrealised gain/loss on financial future contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on financial futures contracts".

i) Valuation of forward foreign exchange contracts of each subfund

Unmatured forward foreign exchange contracts are valued at valuation date at forward exchange rates prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and the statement of changes in net assets and are shown under unrealised gain/loss on forward foreign exchange contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on forward foreign exchange contracts".

j) Valuation of swaps

On each valuation day, swap agreements are valued at the net present value of the future cash flows, using the relevant interest rate yield curve on valuation day. For the valuation of excess return swaps, the relevant underlying is taken into account. The resulting unrealised gains or losses are shown under unrealised gain/loss on swap contracts in the statement of net assets. Realised gains or losses are also posted to the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on swap contracts".

k) Valuation of contract for differences of each subfund

Unmatured contracts for difference are valued at valuation date at market prices prevailing at this date and resulting unrealised gains or losses are posted to the statement of operations and the statement of changes in net assets under "Change in net unrealised appreciation (depreciation) on financial futures contracts" and are shown under unrealised gain/loss on financial future contracts in the statement of net assets. Realised gains or losses are also posted to the statement of

operations and the statement of changes in net assets under "Net realised gain (loss) on financial futures contracts".

l) Valuation of option contracts of each subfund

Premiums received on issued options are recorded as liabilities and premiums paid on the purchase of options are recorded as assets in the statement of net assets.

Option contracts outstanding on the reporting date are valued at the last settlement or close price on the stock exchanges or regulated markets. Realised and unrealised gains or losses are recorded in the statement of operations and the statement of changes in net assets under "Net realised gain (loss) on sales of investments" and Change in net unrealised appreciation (depreciation) on investments.

m) Allocation of accrued expenses

Accrued expenses which can be allocated directly to a subfund are charged to the subfund. Accrued expenses which cannot be allocated directly are divided among the subfunds in proportion to the net assets of each subfund.

n) Securities Lending

The Company can practise lending of securities included in its portfolios of its subfunds. The Company may only lend securities within a standardized system of securities lending organised by a recognised institution of securities compensation or by first class financial institutions specialised in this type of operations.

o) Income recognition

Dividends are recorded on ex-dividend date, net of withholding tax. Interests are accrued on a daily basis.

p) Other income

The trailer commissions received during the period are accounted under "Other income".

q) Combined financial statements

The combined financial statements are expressed in CHF. The various items of the combined statement of net assets, combined statement of operations and the combined statement of changes in net assets as of 30 November 2024 are equal to the sum of the corresponding items in the financial statements of each subfund.

The following exchange rates were used for the conversion of foreign combined financial statements as of 30 November 2024.

Exchange rates

CHF 1 = EUR 1.074691

CHF 1 = USD 1.135089

For the liquidated or merged subfunds, the exchange rate used for the conversion of the combined financial statements is the one as at liquidation or merger date.

Note 2 – Management fee

As remuneration for its services and reimbursement of its expenses, the Management Company is entitled to a monthly management fee, payable at the end of each month and calculated on the basis of the average of the daily net asset value of the relevant share class during that month.

Note 3 – Taxe d'abonnement

Under the prevailing laws and regulations, the Company is subject in Luxembourg, on the basis of its investments, to a "taxe d'abonnement" at the annual rate of 0.05%, payable quarterly and calculated on the basis of the net assets of each subfund at the end of each quarter. In the case of Share Classes that may only be acquired by institutional investors, this annual tax rate is 0.01%.

The portion of net assets, which is invested in other undertakings for collective investment in securities under Luxembourg law, is exempt from this tax.

Note 4 – Performance fee

In addition to the Management fees, the following Subfunds are subject to a fee linked to the performance of the assets that the relevant Investment Manager is managing ("Performance Fee"):

Credit Suisse (Lux) Edutainment Equity Fund
 UBS (Lux) AI and Robotics Equity Fund
 UBS (Lux) Climate Solutions Equity Fund
 UBS (Lux) Digital Health Equity Fund
 UBS (Lux) Energy Evolution Equity Fund

UBS (Lux) European Entrepreneur Equity Fund
 UBS (Lux) European Small and Mid Cap Equity Long Short Fund
 UBS (Lux) Security Equity Fund
 UBS (Lux) Thematic Opportunities Equity Fund

Below the detailed calculation method of the performance fees for Credit Suisse (Lux) Edutainment Equity Fund, UBS (Lux) AI and Robotics Equity Fund, UBS (Lux) Climate Solutions Equity Fund, UBS (Lux) Digital Health Equity Fund, UBS (Lux) Energy Evolution Equity Fund, UBS (Lux) European Entrepreneur Equity Fund, UBS (Lux) Security Equity Fund, UBS (Lux) Thematic Opportunities Equity Fund:

The Management Company is entitled to a Performance Fee for the Subfund, which is calculated daily ("Computation Frequency") on the basis of the unswung net asset value before performance fee accrual for the relevant Valuation Day of the Share Class concerned ("Calculation Date"). The relative high watermark principle is adopted for the calculation of the performance fee, meaning that any underperformance incurred by the relevant Share Class of the Subfund against its benchmark during the performance reference period of 5 years ("Reference Period") must be recovered before a Performance Fee becomes payable, it being understood that performance fees may be payable during the reference period of 5 years and/or in the first years of a Subfund's existence, in case the relevant Share Class of the Subfund has not existed for 5 years or after a reset of the high watermark (having an equivalent impact on the handling of the reference period as a new launch).

The Performance Fee shall be payable (i.e., crystallised) on an annual basis. The Crystallisation Period will end on May 31st (with the first Crystallisation Period being potentially longer than 12 months while starting with the launch of the Subfund or the relevant Share Class and lasting at least 12 months).

The calculation of the Performance Fee and the necessary provisioning take place with every Net Asset Value calculation. The accrued Performance Fee shall be payable annually in arrears within one month after the end of the respective Crystallisation Period, and, if Shares are redeemed during the Crystallisation Period, the amount of Performance Fee included in the Net Asset Value per Share will be due and owed (i.e. crystallized) for these redeemed Shares in due proportion on the date of the Shareholder's redemption.

If, on the Calculation Date, the net performance of the unswung net asset value of a Share Class (net of all costs) is above the benchmark performance, a Performance Fee of 15% for all Share Classes shall be deducted on the difference between the performance of the unswung net asset value of the relevant Share Class and the performance of the benchmark (i.e. relative value) over the same Crystallisation Period, provided that such difference exceeds the sum of any yearly underperformances against the benchmark during the performance reference period of up to 5 years (or less in case the relevant Share Class of the Subfund has not existed for 5 years or after a reset of the high watermark). The Performance Fee is calculated on the basis of the Shares of the relevant Share Class that are in circulation during the Crystallisation Period

whereas the effect of new subscriptions is neutralized. The new subscriptions will therefore only be impacted by the Performance Fee after they contributed to the performance of the relevant Share Class.

UBS (Lux) European Small and Mid Cap Equity Long Short Fund:

The Management Company is entitled to a performance fee for the Subfund which is calculated daily ("Computation Frequency") on the basis of the unswung Net Asset Value of the Share Class concerned.

The performance fee is calculated with each unswung Net Asset Value. The necessary provisions are made accordingly.

A performance fee may only be levied if, on the Valuation Day following a Trading Day, the unswung Net Asset Value of a Share Class on a Trading Day used in the calculation of the performance fee exceeds all the unswung Net Asset Values previously achieved on a Trading Day ("high watermark"). The high water mark will never be reset throughout the life of the Subfund, meaning that the performance reference period corresponds to the whole life of the Subfund.

If, on the Valuation Date following a Trading Day, the unswung Net Asset Value (prior to deduction of the performance fee and net of all costs) of a Share Class is greater than the preceding unswung Net Asset Values (prior to deduction of the performance fee) applicable to the previous Trading Days, a performance fee of 20% shall be deducted on the difference between the unswung Net Asset Value of the Share Class on the Valuation Day following the Trading Day and the high water mark. Calculation of the performance fee takes place on the basis of the Shares of the relevant Class that are currently in circulation. New subscriptions do not affect the provisioned performance fee amount.

Note 5 – Income distribution

The Board of Directors is entitled to determine the payment of dividends and decides to what extent distributions are to be made from the net investment income attributable to each distributing Share Class of the subfund in question. In addition, gains made on the sale of assets belonging to the subfund may be distributed to investors. Further distributions may be made from the Subfund's assets in order to achieve an appropriate distribution ratio. Distributions may be declared on an annual basis or at any intervals to be specified by the Board of Directors.

Note 6 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

If a Subfund invests at least 10% of its net assets as a fund of fund in target funds, a composite TER of the fund of funds is to be calculated as follows: The prorated TER of the individual target funds including a performance related remuneration, weighted according to the share they represent in the overall assets of the fund of funds as of the closing date and the TER of the fund of funds minus the retroceded commissions received from the target funds during the reporting year.

No TER is disclosed for shares classes/Subfunds liquidated during the reporting year.

TER for the last 12 months:

The Management Company of the Company changed. On 1 October 2024, Credit Suisse Fund Management S.A. was merged by absorption into UBS Fund Management (Luxembourg) S.A., and the latter was renamed UBS Asset Management (Europe) S.A. As a result, UBS Asset Management (Europe) S.A. became the Management Company of the Company on 1 October 2024.

On 21 October 2024, the legal merger of Credit Suisse (Luxembourg) S.A. into UBS Europe SE took place and consequently the Depositary Bank of the Company changed.

A new prospectus came into force as of October 2024.

Note 15 – Subsequent event

No subsequent events occurred after the period end.

Note 16 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which company shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of company shares sold to investors from the other countries in which company shares can be bought and sold, the company and the Depositary may recognize approved translations (i.e. approved by the company) into the languages concerned as binding upon itself.

Note 17 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch, acts as securities lending agent.

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary. Service providers that provide services to the Company in the field of securities lending have the right to receive a fee in return for their services that is in line with the market standards. The amount of this fee will be reviewed and adapted, where appropriate, on an annual basis. Currently, UBS Switzerland AG, the securities lending service provider, is responsible for the ongoing securities lending activities and collateral management, and UBS Europe SE, Luxembourg Branch, the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. They first deduct from gross revenues a cost component of 6 bps p.a., calculated on the value of the lent securities (4.5 bps of such cost component are attributed to UBS Switzerland AG and 1.5 bps are attributed to UBS Europe SE). The remaining portion of the gross revenues is then split as follows: 80% of the gross revenue received from securities lending transactions negotiated at arm's length is credited to the relevant subfund, while 15% of the gross revenue are retained as fees by UBS Switzerland AG, and 5% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch. All fees for operating the securities lending program are paid from the securities lending agent's portion of the gross income. This covers all direct and indirect costs incurred through securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Appendix 4 –Remuneration Policy (unaudited)

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the “Management Company” or the “AIFM”) has adopted a remuneration framework (the “Framework”) whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the “UCITS Law”) transposing the UCITS Directive 2009/65/EC (the “UCITS Directive”) as amended by Directive 2014/91/EU (the “UCITS V Directive”);
- (ii) the Alternative Investment Fund Managers Directive (“AIFMD”) 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA’s guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA’s guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EU of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”);
- (viii) the CSSF Circular 23/841, transposing the ESMA Guidelines on certain aspects of the MiFID II remuneration requirements (ESMA 35-43-3565) (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the “UBS Group”) Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>.

The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 25 September 2024. No material change was made to the Framework.

Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

Appendix 4 –Remuneration Policy (unaudited)

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2023 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	12 161	2 787	14 948	104
- whereof Identified Staff	6 794	2 159	8 953	44
- thereof Senior Management*	1 937	677	2 614	10
- thereof Other Identified Staff	4 857	1 482	6 339	34

*Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Managers and the Independent Director.

Remuneration of the delegates' identified staff

As market or regulatory practice develops the Portfolio Manager(s) may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made and in case of changes to the identified staff and/or in case of change in the number of subfunds over the year, this may result in disclosures in relation to the Fund not being comparable to the disclosures made in the prior year.

For the year ending 30 November 2024, the aggregate total remuneration paid by the UCITs to the Delegates (portfolio management or risk management activities) in relation to the Fund amounted to CHF 3 595 596.35, of which CHF 0.00 represented the variable remuneration.
