¹ Fund performance is based on official published net asset values, which are based on the stock market closing prices at the end of the relevant month.

Historical performance is not an indicator of current or future performance. Performance data exclude commissions and expenses charged on the issue and redemption of units.

The tracking difference between the Fund's performance and the performance of the replicated index is primarily due to the following factors: Fees charged in connection with management of the Fund, the use of optimised sampling, income arising from securities lending, currency hedging costs, non-recoverable foreign withholding tax and transaction costs.

Note 7: Direct and indirect operational costs and fees from securities lending

Principle borrower setup with Credit Suisse (Switzerland) AG as borrower and UBS Fund Management (Switzerland) AG – acting on behalf of the sub-funds that generate income from securities lending – as lender. At least 80% of the income generated from securities lending during the reporting period has been credited to the fund.

Note 8: Portfolio composition

The composition of the portfolio shows portfolio changes without fractions. This may lead to rounding differences in the calculation of the total.

Note 9: Off-balance sheet transactions (commitment approach I)

For currency derivatives, only the net sale requires covering, therefore only the sell side (net) is shown in off-balance sheet transactions as exposure reducing derivatives.

Note 10: Sub-funds or unit classes launched during the year – presentation of comparatives

Information on the statement of assets and income of sub-funds or unit classes launched during the current reporting period is shown with zero values in the previous period.

The following unit classes were activated, or deactivated due to redemptions of the entire current portfolio.

Note 11: Last valuation day

The last valuation day in August (30 August 2024) is not consistent with the effective month-end of 31 August 2024. The investments of the fund were therefore valued as of 30 August 2024 and the last net asset value calculated on this day.

Note 12: Valuation of the fund assets and units

- The net asset value of each sub-fund and the share of each class (quotas) is calculated at fair value at the end of the accounting year and in the unit of account of the corresponding sub-fund for each day on which units are issued or redeemed. For days on which the stock exchanges or markets of the main investment countries of a sub-fund are closed (e.g. bank and stock exchange holidays), no calculation of the assets of the corresponding sub-fund takes place.
- Investments traded on a stock exchange or other regulated market open to the public shall be valued at the current prices paid on the principal market. Other investments or investments for which current prices are not available shall be valued at the price that would probably be obtained by diligent sale at the time of the estimate. In this case, the fund management company applies appropriate valuation models and principles recognised in practice to determine the market value.
- Open-ended collective investment schemes are valued at their redemption price or net asset value. If they are regularly traded on a stock exchange or on another regulated market open to the public, the fund management company may value them in accordance with Article 2.
- The value of money market instruments that are not traded on a stock exchange or another regulated market open to the public is determined as follows – the valuation price of such investments, starting from the net acquisition price, is successively adjusted to the redemption price while the investment return calculated therefrom remains constant. In the event of significant changes in market conditions, the valuation basis of the individual investments is adjusted to the new market return. In the absence of a current market price, the valuation is generally based on money market instruments with the same characteristics (quality and domicile of the issuer, issue currency, maturity).
- Bank balances are measured at their receivable amount plus accrued interest. In the event of significant changes in market conditions or creditworthiness, the valuation basis for bank balances is adjusted to the new circumstances.
- The net asset value of a unit of a class of a sub-fund is calculated by dividing the quota attributable to the unit class in question in the market value of the assets of this sub-fund less any liabilities of this sub-fund allocated to the unit class in question by the number of units of the corresponding class in circulation. In each case it is rounded to the next smallest unit of account of the reference currency.

7. The share of the fair value of the net assets of a sub-fund (assets of a sub-fund less liabilities) attributable to the relevant unit classes shall be determined initially upon the first issue of several unit classes (if such issue takes place simultaneously) or that of a further unit class on the basis of the amounts accruing to the relevant sub-fund for each unit class. The share is then recalculated for each of the following events:
- issue and redemption of units;
 - the record date for distributions insofar as (i) such distributions only arise on individual unit classes (distribution classes) or (ii) the distributions of the various unit classes differ as a percentage of their relevant net asset value or (iii) different commission or cost charges arise regarding the distributions of the various unit classes as a percentage of the distribution;
 - the net asset value calculation as part of the allocation of liabilities (including costs and commissions due or accrued) to the various unit classes if the liabilities of the different unit classes differ as a percentage of their respective net asset values, namely where (i) different commission rates are applied to the different unit classes or where (ii) class-specific cost charges are made;
 - the net asset value calculation as part of the allocation of income or capital gains to the various unit classes, provided that the income or capital gains arise from transactions occurring only in the interest of one unit class or in the interest of several unit classes but not in proportion to their share of net assets of a sub-fund.

Note 13: Extraordinary events

The war in Ukraine had and still has a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and the Fund Management Company is closely monitoring the situation in order to quickly take appropriate action to protect the interest of investors in our funds. It has put in place the necessary measures to at all times comply with applicable laws and regulations, in particular but not limited to the enacted sanctions regimes in the EU, Switzerland, the UK and the US. As we are experiencing serious trading limitations beyond sanctioned Russian securities, we are applying fair value pricing for all relevant securities where price quotes (if available) are not considered reflective of their current market value.

Note 14: Changes to the Fund Contract with effect from April 25, 2024

The Swiss Financial Market Supervisory Authority FINMA approved the amendments to the fund contract requested by the fund management company and the custodian bank in a ruling dated April 23, 2024. The amendments entered into force on April 25, 2024. The publications on the electronic platform www.swissfunddata.ch on March 4, 2024 and April 29, 2024:

In connection with the sub-funds CSIF (CH) Equity Emerging Markets Blue and CSIF (CH) Bond Fiscal Strength Global ex CHF Blue under the umbrella fund Credit Suisse Index Fund (CH) Umbrella, we would like to inform you about the creation of a side pocket in the form of a new **SP** unit class. Side pockets involve the segregation of illiquid assets of a collective investment scheme, which are subsequently subject to separate conditions in accordance with the fund contract. The creation of side pockets in Switzerland is subject to FINMA approval. Credit Suisse Funds AG (the "Fund Management Company") has applied for the creation of side pockets with FINMA. This notice provides background information regarding the creation of the side pocket.

1. Background

According to the investment guidelines of the sub-fund CSIF (CH) Equity Emerging Markets Blue, the sub-fund invests directly or indirectly in securities of the reference index MSCI Emerging Markets (reference index), while the sub-fund CSIF (CH) Bond Fiscal Strength Global ex CHF Blue invests directly or indirectly in securities of the reference index Bloomberg Global Treasury ex CHF Fiscal Strength Weighted Index. As of March 2022, the reference index for both sub-funds also included securities of sanctioned Russian companies and the Russian state (bonds and other fixed or variable rate debt securities and rights, or equity securities and rights (equities, participation certificates, cooperative shares, participation rights, including depository receipts)). Due to the Russian invasion of Ukraine and the introduction of various international sanctions against Russian companies and the Russian state, these securities were removed from the reference index. As a result of the sanctions, these securities can no longer be traded, and the Fund Management Company decided to value these securities at zero ("0") as of 2 March 2022. This valuation affects the NAV of the sub-funds accordingly. If existing investors redeem their units, they will lose any claims to these securities should they become revalued in the future. By creating the side pocket, these investors can still participate in a potential future revaluation of these securities, should they regain value in the future.

2. Summary of planned measures

To create the side pocket, an application was submitted to FINMA for a new **SP** class with the following characteristics:

- Illiquid, sanctioned Russian assets are transferred into a side pocket **SP** class as of the launch date.
- The units of the **SP** class of the sub-funds will be issued based on a ratio determined by the holdings of investors as of the reporting date (NAV as of 25 April 2024). The conversion ratio will be confirmed by the fund's auditor and communicated to investors in a subsequent notice.
- Each investor in the sub-funds will receive units in the **SP** class, provided they hold units in the sub-fund as of the reporting date. If an investor does not wish to receive units in the **SP** class, they can sell their units in the respective sub-fund. The redemption request must be received by the Custodian Bank by 23 April 2024 (3:00 p.m.).
- Currently, all illiquid, sanctioned assets in the two sub-funds are not tradable and therefore have no value; this situation may remain unchanged for an extended period. As a result, the **SP** class will initially and until further notice also have no value. Once the assets regain value and can be traded by the asset manager, the Fund Management Company will carry out the valuation in accordance with the fund contract.
- The **SP** class has been closed since its launch and cannot be subscribed.
- As long as the assets of the **SP** class have no value and cannot be traded by the asset manager, investors in the **SP** class may write off their units as worthless. This involves a redemption at zero, where the investor relinquishes all current and future claims on the units without compensation. Consequently, the number of outstanding units in the **SP** class will decrease accordingly and the claims of the remaining beneficiaries in the **SP** class will increase. Once assets of the **SP** class or individual securities become valuable and tradable by the asset manager, no further redemptions may be carried out until the liquidation of the **SP** class. The Fund Management Company will inform investors accordingly by means of a notice.
- Class **SP** units are accumulating units for which no all-in management fee is charged.
- The Fund Management Company shall initially bear all costs incurred in connection with the launch of the **SP** class and thereafter, as long as the assets of the **SP** class have no value and cannot be traded by the asset manager. If the assets of the **SP** class become tradable again and regain value, the costs accrued before and after the launch of the **SP** class may be charged to the **SP** class in accordance with the provisions of the fund contract.
- If the assets of the **SP** class become tradable again and gain value, the asset manager will sell the assets in the best interest of all investors and the proceeds will be paid out after deducting the accrued costs.
- The Fund Management Company may, at its discretion, decide to fully liquidate the **SP** class at any time, regardless of whether the assets of the **SP** class are tradable at that time.

- If the assets of the **SP** class have no value and cannot be traded by the asset manager at the time of liquidation, the Fund Management Company will ultimately bear the accrued fees and ancillary costs of the Fund Management Company and the Custodian Bank that could not be charged to the **SP** class due to the lack of value, as well as any liquidation costs.
- The Fund Management Company will liquidate the **SP** class no later than following the sale of all assets in this class.
- The Fund Management Company ensures that investors who are not invested in the **SP** class are not charged for costs incurred in connection with or after the launch of the **SP** class.

3. Impact on the investment guidelines of the sub-funds

- Following the creation of the **SP** class, the investment guidelines apply exclusively to the remaining unit classes and explicitly do not apply to the **SP** class. The remaining assets of the sub-funds that have not been allocated to the **SP** class will continue to be managed in accordance with the existing investment objective and the existing investment policy.

4. Further legal notices

- There is no guarantee for investors that the assets of the **SP** class can ever be revalued; rather, investors face the risk of a complete loss of value of the units in the side pocket **SP** class. Even if the assets of the **SP** class are revalued by the Fund Management Company in the future, there is no assurance that this revaluation will be equally advantageous for all investors, regardless of the timing and duration of their investment.
- Following the classification of the assets of sanctioned Russian companies and the Russian state (bonds and other fixed or variable rate debt securities and rights, or equity securities and rights (shares, participation certificates, cooperative shares, participation rights, including depository receipts)) as well as the sub-fund's ruble-based accounts as illiquid assets, they may be subject to (particularly negative) impacts of the sanctions related to the Ukraine conflict and new, previously unknown events. In addition, events that occurred before the classification of the assets as illiquid may also have a (particularly negative) impact on these assets.

5. Changes to the fund contract

The Fund Management Company, Credit Suisse (Schweiz) AG, Zurich, with the agreement of the Custodian Bank, intends to make the following changes to the fund contract, subject to the approval of the Swiss Financial Market Supervisory Authority FINMA:

§ 5 Investors

§ 5 point 1 is supplemented with the following section:

"For the **SP** class, the group of investors is limited to those who were invested in the existing, launched classes of the sub-fund as of the reporting date."

Section 6 Units and unit classes

§ 6 point 1 is supplemented with the following insertion (change highlighted):

"1. The Fund Management Company may, with the consent of the Custodian Bank and the approval of the supervisory authority, create, cancel or merge various unit classes for each sub-fund at any time. All unit classes, except for the **SP** class, are entitled to participate in the undivided assets of the corresponding sub-fund, which itself is not segmented. This participation may vary due to class-specific costs or distributions, or due to class-specific income, and therefore, the different unit classes of a sub-fund may have different net asset values per unit. The assets of the sub-fund as a whole are liable for class-specific costs, with the exception of the **SP** class."

§ 6 point 4 is supplemented with the following section:

"Class **SP** units are accumulating units for which no all-in management fee is charged. They are only available to investors who were invested in the existing, launched classes of a specific sub-fund as of the reporting date. The **SP** class is a "side pocket" class, into which the assets of sanctioned Russian companies and the Russian state (bonds and other fixed or variable rate debt securities and rights, or equity securities and rights (shares, participation certificates, cooperative shares, participation rights, including depository receipts)) of the sub-fund as of the reporting date, as well as the sub-fund's ruble-based accounts, were transferred. The **SP** class has been closed since its launch and cannot be subscribed. The valuation is carried out monthly. As long as the assets of the **SP** class have no value and cannot be traded by the asset manager, investors in the **SP** class may write off their units as worthless. This involves a redemption at zero, where the investor relinquishes all current and future claims on the units without compensation. Consequently, the number of outstanding units in the **SP** class will decrease accordingly and the claims of the remaining beneficiaries in the **SP** class will increase. Once assets of the **SP** class or individual securities become valuable and tradable by the asset manager, no further redemptions may be carried out until the liquidation of the **SP** class. The Fund Management Company will inform investors accordingly by means of a notice. The Fund Management Company shall initially bear all costs incurred in connection with the launch of the **SP** class and thereafter, as long as the assets of the **SP** class have no value and cannot be traded by the asset manager. If the assets in the **SP** class become tradable again and gain value, the accrued fees and ancillary costs of the **SP** class will be charged in accordance with § 20 of the fund contract. The Fund Management Company will liquidate, within a reasonable period, assets within the **SP** class that have gained value after the creation of the **SP** class, provided that a residual value remains, considering any fees and ancillary costs to be offset in accordance with § 20 of the fund contract. In cases where only individual assets of the **SP** class have value and can be traded and liquidated by the asset manager while others remain non-tradable, the Fund Management Company will make a partial repayment, while the **SP** class will continue to exist for the still non-tradable assets. In accordance with § 26 of the fund contract, the Fund Management Company may, at its discretion, decide to fully liquidate the **SP** class at any time, regardless of whether the assets of the **SP** class are tradable at that time. In exercising its discretion, the Fund Management Company will consider factors such as the liquidation of the sub-fund, the tradability of the assets of the **SP** class, and the likelihood of trading opportunities in the assets of the **SP** class. If the assets of the **SP** class have no value and cannot be traded by the asset manager at the time of liquidation, the Fund Management Company will ultimately bear the accrued fees and ancillary costs of the Fund Management Company and the Custodian Bank that could not be charged to the **SP** class due to the lack of value, as well as any liquidation costs. The Fund Management Company and the Custodian Bank must ensure that investors meet the criteria for Qualified Investors."

§ 7 Adherence to the investment regulations

§ 7 is supplemented with a point 3 as follows:

"3. Following the creation of the **SP** class, the investment guidelines apply exclusively to the remaining unit classes and explicitly do not apply to the **SP** class. The remaining assets of the sub-funds (i.e. non-sanctioned Russian assets) will continue to be managed in accordance with the existing investment objective and existing investment policy."

§ 16 Calculation of net asset values

§ 16 point 1 is supplemented with the following section:

"This does not apply to units in the **SP** class, which are valued monthly. As long as the assets of the **SP** class cannot be traded by the asset manager, the Fund Management Company shall value the affected assets at zero ("0") and these assets shall be deemed to have no value for the Fund Management Company. Once the assets can again be traded by the asset manager, the Fund Management Company will carry out the valuation in accordance with the fund contract."

§ 17 Issue and redemption of units

§ 17 point 1 is supplemented with the following section:

1550 Credit Suisse Index Fund (CH) Umbrella

Semi-annual Report as at August 31, 2024

"This does not apply to units in the **SP** class, which can no longer be subscribed after launch. As long as the assets of the **SP** class have no value and cannot be traded by the asset manager, investors in the **SP** class may write off their units as worthless. This involves a redemption at zero, where the investor relinquishes all current and future claims on the units without compensation. Consequently, the number of outstanding units in the **SP** class will decrease accordingly and the claims of the remaining beneficiaries in the **SP** class will increase. Once assets of the **SP** class or individual securities become valuable and tradable by the asset manager, no further redemptions may be carried out until the liquidation of the **SP** class. The Fund Management Company will inform investors accordingly by means of a notice. Investors in the **SP** class will receive any potential proceeds from the sale as soon as the assets of the **SP** class become tradable again and can be sold, provided that proceeds are generated from the sale of the **SP** class assets. There is no guarantee for investors that the sale of securities in the **SP** class will result in proceeds being realised."

In § 17, a new point 10 is added as follows:

"The Fund Management Company may, at its discretion, create a "side pocket" class for a sub-fund, into which certain assets of existing unit classes of the sub-fund that have become illiquid for an indefinite period of time, as defined in more detail in the fund contract in the framework of a side pocket class, may be transferred. A new side pocket class must be described in § 6 of this fund contract and is subject to approval by FINMA."

§ 18 Payment and withdrawals by transfers of assets in kind instead of cash

§ 18 is supplemented with the following section:

"Exempt from this are units of the **SP** class, in respect of which, upon their creation, all assets of sanctioned Russian companies and the Russian state (bonds and other fixed or variable rate debt securities and rights, or equity securities and rights (shares, participation certificates, cooperative shares, participation rights, including depositary receipts)) of the sub-fund as of the reporting date, as well as the sub-fund's ruble-based accounts, are transferred by contribution in kind to the **SP** class. No withdrawals of assets in kind may be made during the term of the **SP** class."

§ 20 Fees and incidental costs charged to the sub-funds' assets

§ 20 point 1 is supplemented with the following section:

"The above does not apply to the services described above for the **SP** class, for which no all-in management fee is charged."

§ 20 point 7 is supplemented with the following section:

"**SP** class

No all-in management fee is charged to the **SP** class.

The Fund Management Company shall initially bear all costs incurred in connection with the launch of the **SP** class and thereafter, as long as the assets of the **SP** class have no value and cannot be traded by the asset manager.

The following accrued fees and ancillary costs of the Fund Management Company and the Custodian Bank may be charged in whole or in part to the assets of the unit class, provided that the assets of the unit class have a value and are tradable by the asset manager:

- a) Costs for the purchase and sale of investments, including customary brokerage fees, commissions, taxes and duties, as well as costs for Continuous Linked Settlement (CLS) and costs for the inspection and maintenance of quality standards for physical assets;
- b) Charges by the supervisory authority for the creation, amendment, liquidation, merger or consolidation of the umbrella fund or sub-funds;
- c) Annual fees payable to the supervisory authority;
- d) Fees for the auditing firm for the annual audit and certifications in connection with the creation, amendments, liquidation, merger or consolidation of the umbrella fund or sub-funds;
- e) Fees for legal and tax advisors relating to the creation, amendments, liquidation, merger or consolidation of the umbrella fund, sub-funds, and unit classes, as well as the general safeguarding of the interests of the umbrella fund or sub-funds and their investors;
- f) Costs associated with the exercise of voting rights or creditor rights by the umbrella fund or sub-funds, including fees for external advisors;
- g) Costs and fees related to intellectual property registered in the name of the umbrella fund or sub-funds, or to the usage rights of the umbrella fund or sub-funds;
- h) Any costs incurred through extraordinary measures taken by the Fund Management Company, asset manager of collective investments or Custodian Bank to protect investors' interests;
- i) Costs for the publication of the net asset value of the sub-funds and all costs for communications to investors, including translation costs, unless attributable to misconduct by the Fund Management Company;
- j) Costs for printing legal documents, as well as the annual and semi-annual reports of the umbrella fund.

Costs under item a) are, where possible, directly added to the acquisition cost or deducted from the sale price of the respective investments; otherwise, they are recognised under expenses. Credit Suisse (Schweiz) AG, Zurich, does not levy its own brokerage fees. If the **SP** class has no value and cannot be traded by the asset manager at the time of liquidation by the Fund Management Company, the Fund Management Company will ultimately bear the accrued fees and ancillary costs of the Fund Management Company and the Custodian Bank that could not be charged to the **SP** class due to the lack of value, as well as any liquidation costs. The Fund Management Company ensures that investors who are not invested in the **SP** class are not charged for costs incurred in connection with or after the launch of the **SP** class."

§ 26 Duration of the sub-funds and liquidation

§ 26 point 2 is supplemented with the following section (change highlighted):

"The Fund Management Company or the custodian bank may initiate the liquidation of one or more sub-funds, **or of a unit class such as the SP class**, by terminating the fund contract without notice."

§ 26 point 5 is supplemented with the following sections (changes highlighted):

"Following the termination of the fund contract, the Fund Management Company must immediately liquidate the affected sub-funds **or the affected unit class in the case of the SP class**. If the supervisory authority orders the liquidation of a sub-fund **or the SP class**, that sub-fund or class must be liquidated immediately. The Custodian Bank is responsible for paying out the liquidation proceeds to the investors. If the liquidation is protracted, the proceeds may be paid out in instalments. Prior to the final payment, the Fund Management Company must obtain the approval of the supervisory authority."

6. Changes to the prospectus

The Fund's prospectus has been amended accordingly.

The establishment of the **SP** unit class for the sub-funds **CSIF (CH) Equity Emerging Markets Blue and CSIF (CH) Bond Fiscal Strength Global ex CHF Blue**, which was announced by means of notice on 4 March 2024, was approved by the Swiss Financial Market Supervisory Authority (FINMA) by decision dated 23 April 2024 and implemented by Credit Suisse Funds AG, Zurich, as Fund Management Company (effective 30 April 2024: UBS Fund Management (Switzerland) AG), with the approval of Credit Suisse (Schweiz) AG, Zurich, as Custodian Bank, as of 25 April 2024.

Units in the **SP** unit class were issued in addition to units in existing unit classes. Illiquid, sanctioned Russian assets were transferred into unit class **SP**. The units of the **SP** unit class of the sub-funds were issued based on a ratio determined by the holdings of investors as of the reporting date (NAV as of 25 April 2024). The ratio was confirmed by the Fund's auditing firm. The number of units issued in existing unit classes remained unchanged as of the reporting date due to the issuance of the **SP** unit class.
