1211 Geneva

Helvetia Allegra Fonds is a contractual umbrella fund under Swiss law of the type "Other funds for traditional investments" pursuant to the Swiss Federal Act on Collective Investment Schemes of 23 June 2006 (CISA), which is divided into the following sub-funds:

- Helvetia Allegra ONE
- Helvetia Allegra 30
- Helvetia Allegra 50
- Helvetia Allegra 85

The Fund Contract was drawn up by CACEIS (Switzerland) SA as Fund Management Company and submitted to the Swiss Financial Market Supervisory Authority FINMA with the consent of CACEIS Bank, Paris, succursale de Nyon / Suisse as Custodian Bank. The Fund Contract was first approved by the Swiss Financial Market Supervisory Authority (FINMA) on 9 May 2018.

The sub-funds are based upon a collective investment agreement (Fund Contract), under which the Fund Management Company undertakes to provide the Investor with a stake in the Investment Fund in proportion to the fund units acquired by the Investor in the corresponding sub-fund, and to manage this sub-fund at its own discretion and for its own account in accordance with the provisions of the law and the Fund Contract. The Custodian Bank is party to the Fund Contract in accordance with the tasks conferred upon it by the law and the Fund Contract.

Unit classes designated A1, A2, E, H1, H2, R1, R2, and I1 may currently be opened for the sub-funds:

Class A1	The units of the A1 class are accumulating units and are available to Helvetia Schweizerische Lebensversicherungsgesellschaft AG in connection with new life insurance contracts.
Class A2	The units of the A2 class are accumulating units and are only available to Helvetia Schweizerische Lebensversicherungsgesellschaft AG in connection with existing life insurance policies.
Class E	E units of the E class are accumulating units that are aimed at professional investors pursuant to Art. 10 para. 3 and 3ter CISA in connection with Helvetia Pension Solutions.
Class H1	The units of the H1 class are accumulating units and are only available to the Group companies of Helvetia Holding AG.
Class H2	The units of the H2 class are accumulating units and are only available to the pension funds of the Helvetia Group.
Class R1	The units of the class are accumulating units intended for the entire investing public.
Class R2	The units of the R2 class are accumulating units intended for the entire investing public only with existing contracts with the Helvetia Group.
Class I1	The units of the I1 class are accumulating units and are available to qualified investors pursuant to Art. 10 (3) CISA. The minimum investment for this class is CHF 10 million.

The reference currency of classes A1, A2, E, H1, H2, R1, R2, and I1 corresponds to the accounting currency of the relevant sub-fund.

Investors are only entitled to the assets and income of the sub-fund in which they hold an interest. Only the corresponding sub-fund is liable for the liabilities attributable to an individual sub-fund.

In accordance with the Fund Contract, the Fund Management Company is entitled to create, liquidate, or merge different unit classes for each sub-fund at any time, subject to the consent of the Custodian Bank and the approval of the supervisory authority.

¹ To facilitate reading, no differentiation based on gender is made. The corresponding terms generally apply to the masculine and feminine.

Asset manager's report

Helvetia Allegra ONE Fonds

Market Review in Q2 2024

The global economy continued to grow moderately in the second quarter, with the US maintaining a clear growth advantage over Europe. In Switzerland, price stability (annual inflation rates below 2%) was restored, while inflation remains elevated in the Eurozone and the US. Due to robust economic growth, US inflation proved particularly persistent. However, core inflation, which excludes volatile components like commodity and energy prices, continued its downward trend. The differing inflation situations were reflected in the monetary policies of the respective economic areas. In June, the Swiss National Bank was able to cut interest rates by 25 basis points for the second time (now 1.25%), and the European Central Bank also responded to declining inflation figures with a rate cut (now 4.25%). The US Federal Reserve, on the other hand, kept its key interest rate unchanged at 5.25% due to persistent inflationary pressures.

Global bonds declined slightly (Bloomberg Global Aggregate -1.1%), with Swiss bonds being an exception, yielding positive returns. They benefited from low inflation, SNB rate cuts, and their status as a safe haven in Europe.

Portfolio Activity in Q2 2024

We did not change anything to the portfolio.

Market Review in Q2 2024

The global economy continued to grow moderately in the second quarter, with the US maintaining a clear growth advantage over Europe. In Switzerland, price stability (annual inflation rates below 2%) was restored, while inflation remains elevated in the Eurozone and the US. Due to robust economic growth, US inflation proved particularly persistent. However, core inflation, which excludes volatile components like commodity and energy prices, continued its downward trend. The differing inflation situations were reflected in the monetary policies of the respective economic areas. In June, the Swiss National Bank was able to cut interest rates by 25 basis points for the second time (now 1.25%), and the European Central Bank also responded to declining inflation figures with a rate cut (now 4.25%). The US Federal Reserve, on the other hand, kept its key interest rate unchanged at 5.25% due to persistent inflationary pressures.

Global stock markets achieved positive quarterly returns. The S&P 500 increased by 4.3% and the Swiss SMI by 4.0%. However, Eurozone stocks (-1.6%) suffered from political uncertainties arising after the announcement of French parliamentary elections. Global bonds declined slightly (Bloomberg Global Aggregate -1.1%), with Swiss bonds being an exception, yielding positive returns. They benefited from low inflation, SNB rate cuts, and their status as a safe haven in Europe.

Portfolio Activity in Q2 2024

We regularly took profit on outperforming equities and allocated the proceeds to underperforming bonds.

Past performance is no guarantee of future results. The performances indicated above do not include the commissions and costs that may arise at the moment of issue and redemptions of the units.

According to the fund contract, no benchmark applies to this investment fund.

Fees

Fees and incidental costs charged to the Investor (excerpt from §18 of the Fund Contract)

Issuing commission in favour of the Fund Management Company and/or the Custodian Bank

Maximum **1.50%**

Redemption commission in favour of the Fund Management Company and/or the Custodian Bank

Maximum **1.50%**

Fees and incidental costs charged to the fund's assets (excerpt from §19 of the Fund Contract)

Management fee of the Fund Management Company

Maximum **1.60% p.a.**

The commission is used for the administration, asset management and also for the compensation of the Custodian Bank for the services it provides, such as the safekeeping of the assets of the sub-fund or the Umbrella Fund, the provision of payment transactions and the other tasks of the Umbrella Fund listed in §4.

In addition, the sub-funds or the Umbrella Fund may be invoiced for the other fees and incidental costs listed in §19 of the Fund Contract. Information on the rates actually charged can be found in the annual and semi-annual reports.

«Soft Commissions»

The management company has not signed any agreements to share the management fees nor has it signed any «soft commissions» agreements.

Net asset value calculation principles

1. The net asset value of each sub-fund and the proportions attributable to the individual classes (percentages) is calculated in accounting currency of the corresponding sub-fund at the market value as at the end of the financial year and for each day on which units are issued or redeemed. The assets of the corresponding sub-fund will not be calculated on days on which the exchanges / markets in a sub-fund's main investment countries are closed (e.g. bank and stock exchange holidays).
2. Securities traded on an exchange or other regulated market open to the public are to be valued at the current prices paid on the main market. Other investments or investments for which no current price is available are to be valued at the price that would probably have been obtained in a diligent sale at the time of the estimate. In such cases, the Fund Management Company will use appropriate and recognized valuation models and principles to determine the market value.
3. Open-ended collective investment schemes are valued at their redemption price / net asset value. If they are regularly traded on an exchange or other regulated market open to the public, the Fund Management Company may value such funds in accordance with point 2.
4. The value of money market instruments that are not traded on an exchange or other regulated market open to the public is determined as follows:
The valuation price of such investments is gradually adjusted in line with the repayment price, taking the net purchase price as the basis and ensuring that the investment returns calculated in this manner are kept constant. If there are significant changes in market conditions, the valuation principles for individual investments will be adjusted in line with the new market returns. If there is no current market price in such instances, calculations are, as a rule, based on the valuation of money market instruments with the same characteristics (quality and domicile of the issuer, issuing currency, term to maturity).
5. Bank deposits are valued at the amount of the claim plus accrued interest. If there are significant changes in market conditions or credit rating, the valuation principles for time deposits will be adjusted in line with the new circumstances.
6. The net asset value of a class of a sub-fund is determined by the proportion of the market value of the fund assets attributable to that class, less any of the fund liabilities that are attributed to that class, divided by the number of units of that class in circulation. It will be rounded to 0.01.

If, on a valuation day, the sum of subscriptions and redemptions of units of a sub-fund results in a net inflow or outflow of at least 2% of the net fund assets of the sub-fund, the valuation net asset value of the respective sub-fund is increased or reduced (swinging single pricing).

7. The adjustment amounts to 0.40% of the valuation net asset value of the Helvetia Allegra ONE sub-fund, to 0.30% of the Helvetia Allegra 30 sub-fund, to 0.25% of the valuation net asset value of the Helvetia Allegra 50 and to 0.25% of the valuation net asset value of the Helvetia Allegra 85 respectively. Incidental costs (specifically standard brokerage charges, commissions, fees, etc.) incurred by the on average in connection with the investment of the amount paid in, or with the sale of a portion of investments corresponding to the redeemed unit(s), will be charged to the fund assets. The adjustment leads to an increase in the net asset value if the net movements lead to an increase in the number of units of the sub-fund. The adjustment results in a reduction in the net asset value if the net movements result in a decrease in the number of units in the sub-fund. The net asset value calculated using swinging single pricing is therefore a modified net asset value in accordance with sentence 1 of this item.

8. The percentages of the market value of the net assets of a sub-fund (sub-fund assets less liabilities) attributable to the individual unit classes is determined for the first time at the initial issue of more than one class of units (if this occurs simultaneously) or the initial issue of a further unit class. The calculation is made on the basis of the assets accruing to the corresponding sub-fund for each unit class. The percentage is recalculated when one of the following events occurs:
 - a) when units are issued and redeemed;
 - b) on the cut-off date for distributions, provided that (i) such distributions are made only for individual unit classes (distribution classes), or provided that (ii) the distributions of the various unit classes differ as percentages of their individual net asset values, or provided that (iii) different commission or costs, as percentages, are charged on the distributions of the various unit classes;
 - c) if (i) different commission rates are applied to the different unit classes when the net asset value is calculated, as part of the allocation of liabilities (including due or accrued costs and commissions) to the various unit classes, provided that the liabilities of the various unit classes differ as percentages of their individual net asset values or if (ii) class-specific costs are charged;
 - d) when the net asset value is calculated, as part of the allocation of income or capital gains to the various unit classes, provided the income or capital gains originate from transactions made solely in the interests of one unit class or in the interests of several unit classes, but not in proportion to their share of the net assets of a sub-fund.
