semi-annual reports and the changes made to the securities
portfolio of the Fund mentioned in this publication are
available free of charge at the sales agencies and at the registered
office of the Fund.

Characteristics of the Fund

Semi-Annual Report as of 31 October 2020
LUXEMBOURG SELECTION FUND

LUXEMBOURG SELECTION FUND (hereinafter the "Fund") was established on 9 October 2003 as a Société d'investissement à capital variable (SICAV) with multiple subfunds established in accordance with the provisions of the amended 2010 Law and the Luxembourg Law of 10 August 1915 on commercial companies, each as amended. The Fund is subject in particular to the provisions of Part I of the amended 2010 Law, specifically for Collective Investment in Transferable Securities as defined in the European Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS") ("Directive 2009/65/EC").

UBS Third Party Management Company S.A. (hereinafter the "Management Company"), is a société anonyme under Luxembourg law subject to the provisions of Section 15 of the amended 2010 Law with its registered office at 33A, avenue J.F. Kennedy, L-1855 Luxembourg.

Following an extraordinary general meeting of the shareholders held on 29 December 2011, the Articles of Incorporation of the Fund (the "Articles of Incorporation") were amended in order to have the Fund regulated by the Part I of the amended Luxembourg law of 17 December 2010 on undertakings for collective investment (the "Amendments to the Articles of Incorporation"). The Articles of Incorporation have been deposited with the Registrar of the Luxembourg District Court. The Amendments to the Articles of Incorporation were published in the Memorial on 30 January 2012.

The Fund is characterised by a structure with multiple subfunds divided into several separate portfolios of assets called "subfunds", within which different classes of shares may be issued. The assets of different classes in the same subfund will be invested jointly pursuant to the investment policy of the subfund, but in which a specific fee structure, specific minimum investment amounts, a specific distribution policy, a specific accounting currency, special hedging or other features may be applied separately to each class.

The total net assets of the various subfunds constitutes the total net assets of the Fund, which always corresponds to the capital of the Fund and consists of fully paid up and non-nominal shares (the "shares").

At general meetings, shareholders have the right to one vote per share held, irrespective of the difference in value of shares of the respective subfunds. The shares of a particular subfund are entitled to one vote per share held when voting at meetings affecting that subfund. The rights attached to shares are those contained in the 1915 Law, provided that they are not derogated by the amended 2010 Law.

The Fund constitutes a single legal entity. It is specified, however, that in relations between shareholders, each subfund is considered a separate entity constituting a separate pool of assets with its own objectives and represented by one or more separate classes. In addition, vis-à-vis third parties, and particularly vis-à-vis the creditors of the Fund, each subfund shall be exclusively responsible for the commitments attributed to it.

The Board of Directors reserves the right at any time to launch new subfunds and/or other classes of shares, whose investment policy, features and terms of offer will be communicated in due course by an update of the sales prospectus. In compliance with the regulations laid down in "Dissolution and merger of the Fund and its subfunds" of the prospectus, the Board of Directors reserves the right to terminate or to merge certain subfunds.

The duration and the assets of the Fund are not restricted.

The Fund's financial year ends on the last day of April.

The Annual General Meeting is held every year on second Wednesday of October at 11:00 a.m. at the registered office of the Fund or any other address indicated in the notice of the meeting. If such day is not a business day in Luxembourg, the annual general meeting will be held on the next business day.

Only the information contained in the prospectus and in one of the documents referred to therein is valid.

Other information on the Fund, as well as on the net asset value, the issue, conversion and redemption prices of the Fund's shares may be obtained on any business day at the registered office of the Fund and from the Depositary. If necessary, any information relating to a suspension or resumption of the calculation of the net asset value, the issue or redemption price as well as all notifications to shareholders will be published in the "Mémorial" and in the "Luxemburger Wort", and, if applicable, in the different distribution countries.

Copies of the Articles of Association of the Fund may be obtained at the registered office of the Fund. Provisions of the agreements referred to in the prospectus may be inspected during usual business hours on any Luxembourg business day at the registered office of the Fund.

In addition, the Articles of Association, the sales prospectus as well as the latest annual and semi-annual reports are available free of charge from the Depositary. The issue and redemption prices as well as any documents mentioned above may also be obtained there.

No subscriptions will be accepted on the basis of the financial reports. Subscriptions will only be accepted on the basis of the current issue prospectus accompanied by the most recent annual report, or the most recent semi-annual report, if applicable.

The figures stated in this report are historical and not necessarily indicative of future performance.

Notes to the Financial Statements

Semi-Annual Report as of 31 October 2020
LUXEMBOURG SELECTION FUND

Note 1 – Significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

a) Calculation of the net asset value

The net asset value per share of the subfunds is determined as follows:

- LUXEMBOURG SELECTION FUND – Active Solar, LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection, LUXEMBOURG SELECTION FUND – Core Medio, LUXEMBOURG SELECTION FUND – Core Medio Elevato, LUXEMBOURG SELECTION FUND – Nerrick US Equities, LUXEMBOURG SELECTION FUND – Psychology for Sustainable Yield ENPAP Selection Fund, LUXEMBOURG SELECTION FUND – Solar & Sustainable Energy Fund and LUXEMBOURG SELECTION FUND – Xantos, each Working Day.

The net asset value of each subfund is equal to the total assets of that subfund less its liabilities. The net asset value of each subfund is expressed in the currency of that subfund as described in the prospectus, and is determined on each Valuation Day by dividing the total net assets of the subfund by the number of shares then in circulation. The net asset value per share of each subfund is determined using the last known price (i.e. the closing price, or if that price does not reflect a reasonable market value for the Board of Directors, the last price known at the time of valuation) each Business Day, unless otherwise indicated in Section I of the prospectus.

For the subfund LUXEMBOURG SELECTION FUND – Active Solar, share classes in EUR and CHF may be the object of foreign exchange contracts to hedge their exposure to currency risk.

In case of significant subscriptions or redemptions, various costs for investment and divestment made accordingly within the subfund (in this case LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund – ESG Selection) may affect their respective net asset values. These costs can be derived from taxes, brokerage fees, dealing spreads and other market and trading considerations (the “Costs”). To protect the interests of existing shareholders, the Board

may apply a swing pricing policy to the net asset value of the subfund. In such case, the proceeds will be for the benefit of the subfund. Swing pricing policy aims at more closely reflecting the Costs, when the net balance of subscriptions and redemptions for the subfund is greater than a predetermined threshold percentage of the Subfund’s assets. In general, the net asset value will be adjusted upward when there is strong demand to buy shares of a subfund and downward when there is a strong demand to redeem the shares of the subfund. These NAV adjustments will normally not exceed 2% of the original NAV. The Board may decide to increase this adjustment limit in specific circumstances to protect shareholders’ interests.

As at 31 October 2020, the swing pricing mechanism was not implemented in the Fund.

b) Valuation principles

- Based on the net acquisition price and calculating returns on a constant basis, the value of money market instruments with a residual maturity of less than one year is constantly adjusted to the redemption price of these instruments. In the event of material changes in market conditions, the valuation basis is adjusted to reflect the new market yields;
- Debt securities with a residual maturity of more than one year and other securities are valued at the closing price, if they are listed on an official stock exchange. If a security is listed on several exchanges, the last known price on the primary market is the determinant;
- Debt securities with a residual maturity of more than one year and other securities, if they are not listed on an official stock exchange, but traded on another regulated market which is recognised, open to the public and operating regularly, are valued at the last available price on this market;
- Time deposits with an original maturity exceeding 30 days can be valued at their respective rate of return, provided the corresponding agreement between the credit institution holding the time deposits and the Fund stipulates that these time deposits may be called at any time and that, if called for repayment, their cash value corresponds to this rate of return;
- Any cash in hand or on deposit, notes payable on demand, bills and accounts receivable, prepaid expenses, cash dividends, interests declared or accrued as aforesaid and not yet received shall be valued at their full nominal value, unless in any case the same is unlikely to be paid or received in full, in

which case the Board may value these assets with a discount he may consider appropriate to reflect the true value thereof;

- The value of swaps is calculated using a method based on the net present value of future cash flows, recognised by the Board of Directors;
- Shares of UCITS authorized according to Directive 2009/65/CE and/or other assimilated UCIs will be valued at the last known net asset value at the Valuation day;
- Securities and other investments listed on a stock exchange are valued at the last known prices. If the same security or investment is listed on several stock exchanges, the closing price on the stock exchange that represents the primary market for this security will be used.

In the scenario where securities and other investments are traded on a stock exchange with low volume but are traded among market makers on a secondary market using price determination methods that are in line with market practice, the Fund may use the prices of this secondary market as the basis for valuing such securities and investments. Securities and other investments that are not listed on a stock exchange, but which are traded on another regulated market which is recognised, open to the public and operating regularly, are valued at the last known price on this market.

If the known prices are not in line with the market, the respective securities, as well as the other legally admissible assets, will be valued at their market value which the Fund, acting in good faith, shall estimate on the basis of the price likely to be obtained.

The Fund is authorized to temporarily apply other adequate valuation principles to the assets of a subfund if the aforementioned valuation criteria appear impractical or inappropriate due to extraordinary circumstances or events.

c) Net realised profits (losses) on the sale of securities
The profits or losses realised on sales of securities are calculated based on the average cost of the securities sold.

d) Valuation of forward exchange transactions
Unrealised profits and losses resulting from unexpired exchange transactions are determined on the Valuation Day on the basis of the forward exchange rate applicable on that date.

e) Valuation of financial futures

Financial futures are valued at the most recently published price, applicable on the valuation day. Profits and losses and changes in unrealised profits and losses are recorded in the statement of operations. Profits and losses are determined using the FIFO method, according to which the first contracts acquired are considered the first sold.

f) Valuation on options

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. OTC options are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents.

The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the changes in net assets respectively under the positions realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

g) Swaps

The Fund may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

The value of swap transactions is calculated by an external service provider and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows.

In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used.

The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

This valuation method is approved by the Board of Directors.

Changes in unrealized gains and losses are reflected in the statement of operations under the changes in "Unrealized appreciation (depreciation) on swaps".

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

h) Foreign currency conversion

Cash at bank, other net assets and the assessed value of portfolio securities denominated in currencies other than the reference currency of the various subfunds are converted at the "mid-closing spot rates" in effect on the Valuation Day. Income and expenses denominated in currencies other than the reference currency of the various subfunds are converted to the "mid-closing spot rates" in effect at the date of payment. Profits or losses are recorded in the statement of operations.

The acquisition cost of securities denominated in currencies other than the reference currency of the various subfunds is converted to the "mid-closing spot rate" in effect at the acquisition date.

i) Accounting of securities portfolio transactions

Securities portfolio transactions are accounted for the banking days following the date of transaction.

j) Combined financial statements

The combined financial statements of the Fund are prepared in CHF. The various items of the combined statement of net assets and the combined statement of operations as at 31 October 2020 are equal to the sum of the corresponding items in the financial statements of each subfund converted into CHF at the closing exchange rates.

For the conversion of the combined financial statements as at 31 October 2020, the following exchange rates were used:

Exchange rates		
CHF 1 =	EUR	0.936642
CHF 1 =	USD	1.091048

For the liquidated or merged subfunds, the exchange rate used for the conversion of the combined financial statements is the one as at liquidation or merger date.

k) Formation expenses

The formation expenses are borne by the Fund and are amortised over a period of five years. These expenses include the expenses of preparing and printing the sales prospectus, notary fees, launch fees paid to administrative and exchange authorities in Luxembourg and abroad, expenses for printing certificates and/or other fees in relation to the establishment, promotion and launch of the Fund.

Costs in connection with the launch of a new subfund are written off over a period not to exceed five years on the assets of the subfund, in an annual amount determined by the Board of Directors of the Fund on an equitable basis.

l) Receivable on securities sales

Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

m) Recording of income

Dividends, net of taxes withheld at source, are recorded as income on the date on which the corresponding securities are listed for the first time "ex-dividend." Income from interest is compounded daily.

Note 2 – Fees and expenses

The Depositary receives a fee (see table below), calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the asset of the subfund for all subfunds with the exception of LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection where the Depositary is entitled to receive out of the assets of the subfund an annual fee equal to a percentage of the Net Asset Value of the subfund subject to a minimum per subfund. The Depositary fee is accrued on each Valuation Day and shall be payable monthly in arrears. The Depositary will also be entitled to transaction fees charged on the basis of the investments made by each subfund consistent with market practice in Luxembourg. Fees paid to the Depositary may vary depending on the nature of the investments of each subfund and the countries and/or markets in which the investments are made. The Depositary will also be entitled to reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties. Further fees may be payable to the Depositary in consideration of ancillary services rendered to the Fund and relating to the core services of the Depositary.

Depository fee

LUXEMBOURG SELECTION FUND	Depository fee (per annum)

– Psychology for Sustainable Yield ENPAP Selection Fund	max 0.0416% (with a minimum of 30 000 EUR)	max 0.0201% calculated based on the assets of the subfund, calculated and accrued at each Valuation Day (with a minimum of 17 500 EUR)
– Solar & Sustainable Energy Fund	max 0.07% (with a minimum of 30 000 EUR)	12 800 EUR (with a maximum of 0.025% of the net assets of the subfund at the end of the relevant semester)
– Xantos	max 0.10% (with a minimum of 30 000 EUR)	12 800 EUR (with a maximum of 0.025% of the net assets of the subfund at the end of the relevant semester)

* The Central Administrative Agent and the Management Company are also entitled to the reimbursement of reasonable out-of-pocket expenses properly incurred in carrying out its duties. Further fees may be payable to the Central Administrative Agent and the Management Company in consideration of ancillary services rendered to the Fund and relating to the core services of the Central Administrative Agent and of the Management Company.

Investment Advisory and Management fee

The Management Company of each subfund receives a management fee and/or investment advisory fee, which it pays to the manager and/or investment adviser.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Active Solar for Class A EUR shares, Class C CHF shares and Class C USD shares is fixed at 1.50% per annum and 2.40% per annum for Class B EUR shares. This fee is calculated based on the assets of the share class, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the Portfolio Manager.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Arcano Low Volatility European Income Fund - ESG Selection is charged as detailed in the share classes table below, which is calculated (all taxes excluded) monthly on the average total net assets of the subfund (excluding those net assets held in the form of investments in other investment funds managed or controlled by entities of the same portfolio manager). This fee is payable monthly in arrears directly out of the subfund’s assets. The Management Fee includes the Portfolio Management Fee and the Distribution Fee.

Where there is a Variable Management Fee, this will be subject to the following conditions:

- The Variable Management Fee is calculated separately for each class of shares that has a Variable Management Fee structure as per the above table. It shall be accrued daily, deducted and paid annually for each class of shares.
- The Variable Management Fee amounts to the set percentage per share class (as detailed in the share classes table) of the respective annual performance (on a calendar year basis) of the net asset value per unit of each class, as long as the performance is positive. The performance of any share classes that distribute any dividends is calculated considering the reinvestment of dividends.
- For the first year a share class is activated, the Variable Management Fee period starts on the launch date. The first annual reset will take place on 1 January 2019.
- In case of redemption or cash distribution, the proportion of the accrued provision corresponding to the number of shares redeemed or the amount corresponding to the cash distribution, shall be immediately crystallized and due to the portfolio manager.
- The crystallisation process consists in freezing the portion of Variable Management Fee connected to a redemption request of an investor during the investment period.

Share Class	Reference Currency	Distribution Accumulation	Management Fee	
			Fixed	Variable ⁽¹⁾
AE-A	EUR	Accumulation	none	none
CC-D	CHF	Distribution – Quarterly	0.70%	none
CE-A	EUR	Accumulation	0.70%	none
RE-A	EUR	Accumulation	1.30%	none
VE-AP	EUR	Accumulation	none	18.00%
VE-DP	EUR	Distribution – Quarterly	none	18.00%

⁽¹⁾ Variable management fee applies only when returns are greater than 0%

The annual management fee paid by LUXEMBOURG SELECTION FUND – Atyartha Global Opportunities Fund is fixed at 1.50% per annum, calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Global Euro Bond Fund is of a maximum of 1.00% per annum. This fee is calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

The annual management fee paid by LUXEMBOURG SELECTION FUND – LSF Alternative UCITS Strategies is of a maximum of 1.50% per annum. This fee is calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

The annual management fee paid by LUXEMBOURG SELECTION FUND – LSF Enhanced Equity Exposure is maximum 1.50% per annum for all share classes. This fee is calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Nerrick US Equities is maximum 1.50% per annum for Class A shares of which a maximum of 0.75% per annum will be paid to distribution partners. The annual management fee for Class I Shares is of a maximum of 1.00% per annum. This fee is calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Psychology for Sustainable Yield ENPAP Selection Fund is for each of the portfolio managers a fee of up to 0.40% p.a. for exercising their function in relation to the relevant Segment of the subfund managed by the respective portfolio manager. The services of all portfolio managers for the subfund are subject to a global minimum fee of EUR 360 000 p.a.. Each of the sub-portfolio managers are authorized to receive a fee described in the relevant agreements for exercising their

function in relation to the relevant Segment of the subfund managed by the respective sub-portfolio manager. Each of the sub-portfolio managers will receive their fee from the relevant portfolio manager, who has appointed the respective sub-portfolio manager. These fees are calculated based on the portion of the assets of the subfund managed by each of the Portfolio Managers subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Solar & Sustainable Energy Fund is fixed at 0.90% per annum for class A1, at 0.60% per annum for class A2, A3 and A4 and at 0.50% per annum for class A5 calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund. The annual consulting fee paid to Arcane is fixed at 1.00% per annum for class A1, at 0.80% per annum for class A2, A3 and A4 and at 0.70% per annum for class A5 calculated based on the value of the average net assets of the share class, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund during the month in question.

The annual management fee paid by LUXEMBOURG SELECTION FUND – Xantos is 1.50% for share class “A” and 0.75% for share class “C”. This management fee, received monthly by the Management Company, is calculated based on the assets of the subfund, calculated and accrued at each Valuation Day and payable on a monthly basis during the following month directly out of the assets of the subfund.

Flat fee

LUXEMBOURG SELECTION FUND – Core Medio is subject to a “Management fee” of 0.20% p.a. calculated daily on the average total net assets of the respective class during the month concerned.

LUXEMBOURG SELECTION FUND – Core Medio Elevato is subject to a “Management fee” of 0.20% p.a. calculated daily on the average total net assets of the respective class during the month concerned.

Performance fee

Every three months, the manager of LUXEMBOURG SELECTION FUND – Active Solar receives, charged directly to the subfund, a performance fee equal to 15.00% of the difference between the amount of the net assets before payment of the performance fee and adjusted according to the amount of the subfund’s share subscription and redemption orders, with the last Valuation Day of a three-month period and the amount of the net assets on the first Valuation Day of the three-month period, in excess of the 3 month LIBOR, according to the currencies of reference (USD/CHF/EUR). The performance fee is calculated at each calculation of net asset value.

The manager of LUXEMBOURG SELECTION FUND – Atyartha Global Opportunities Fund shall have the right to a performance fee equal to 10.00% of the increase in net asset value of each share class. The concept commonly called “high water mark” will be applied to calculate the performance fee for each share class. The performance fee will be paid quarterly after the performance period under review. The performance period will include each 3-month period of the financial year. The performance fee will normally be paid within 15 working days following the end of the performance period under review.

The performance fee will be equal to 10.00% of the increase in net asset value of each share class for each performance period under review. In other words, it will be the positive difference between the level of the net asset value of a share class at the end of a performance period (net of management fee and other charges but before deduction of the performance fee and adjusted pro rata for the subscription and redemption orders submitted during the performance period) and the level of the net asset value of the share class concerned on the date of payment of the last performance fee.

The performance fee will be accrued weekly and taken into account when calculating the net asset value of each share class on each Valuation Day, adjusted pro rata for the subscription and redemption orders submitted for each share class during the performance period. The performance fee related to each share class redeemed during a performance period will be deducted from the redemption price of the share class redeemed. The performance fee to be paid by share classes redeemed during a given performance period will equal the positive difference between the net asset value of the share class on the Valuation Day

on which the redemption is effected and the net asset value of the share class concerned on the date of payment of the last performance fee.

In addition, for the subfund LUXEMBOURG SELECTION FUND – LSF Alternative UCITS Strategies, the Portfolio Manager is paid a performance fee of 5.00% of the positive difference between (1) The Net Asset Value per share of the Fund (after accruals of all fees except Performance Fees) as of the Performance Fee Valuation Day (the last Valuation Day of the performance fee period as defined below), and (2) The High Water Mark.

The High Water Mark at a given valuation day is equal to the greater of (1) the initial subscription price and (2) the last end-of-period NAV per Share at which a performance fee has been paid (High Water mark principle). The calculated performance fee will be adjusted for subscriptions and redemptions during the period. In case of redemption, the accrued performance fee attributable to the redeemed shares will be crystallized and paid to the Portfolio Manager. The calculation of the performance fee will be based on the Net Asset Value per share of the subfund.

The performance fee period is quarterly, ending on the last day of each quarter of the calendar year. The performance fee is payable quarterly in arrears out of the Subfund's assets.

In addition, for the subfund LUXEMBOURG SELECTION FUND – LSF Enhanced Equity Exposure, the Portfolio Manager is paid a performance fee of 15% of the positive difference between (1) The Net Asset Value per Share of the Fund (after accruals of all fees except Performance Fees) as of the Performance Fee Valuation Day (the last Valuation Day of the performance fee period as defined below) and (2) The High Water Mark.

The High Water Mark at a given valuation day is equal to the greater of (1) the initial subscription price and (2) the last end-of-period NAV per Share at which a performance fee has been paid (High Water mark principle). The calculated performance fee will be adjusted for subscriptions and redemptions during the period. In case of redemption, the accrued performance fee attributable to the redeemed shares will be crystallized and paid to the Portfolio Manager. The calculation of the performance fee will be based on the Net Asset Value per Share of the subfund.

The performance fee period is yearly, ending on the last day of each calendar year. The performance fee is payable yearly in arrears out of the subfund's assets.

The manager of the subfund LUXEMBOURG SELECTION FUND – Nerrick US Equities is entitled to a performance fee. The concept commonly called "high water mark" will be applied to calculate the performance fee for each share class. For the first financial year, the "high water mark" applicable for each Valuation Day will be the initial subscription price. At the beginning of each following financial year, the "high water mark" applicable for each Valuation Day will be the net asset value of each share class on the last Valuation Day for which a Performance Fee was paid.

The performance fee will be paid annually after the performance period under review. The performance period will include each 12-month period of the financial year, except for the first period, which will begin on the date of the closing of the initial subscription period of the subfund. The Performance Fee will normally be paid within 15 working days following the end of the performance period under review.

The performance fee will be equal to 10.00% on the outperformance of the subfund versus the benchmark of the S&P 100 Index. In other words, it will be the positive difference between the level of the net asset value of a share class at the end of a performance period (net of management fee and other charges but before deduction of the performance fee and adjusted pro rata for the subscription and redemption orders submitted during the performance period) and the performance of the benchmark of the S&P 100 Index at the same time.

The performance fee will be accrued daily and taken into account when calculating the net asset value of each share class on each Valuation Day, adjusted pro rata for the subscription and redemption orders submitted for each share class during the performance period. The performance fee related to each share class redeemed during a performance period will be deducted from the redemption price of the share class redeemed. The performance fee to be paid by share classes redeemed during a given performance period will equal the positive difference between the net asset value of the share class on the Valuation Day on which the redemption is effected and the net asset value of the share class concerned on the date of payment of the last performance fee.

Any delegated portfolio manager of LUXEMBOURG SELECTION FUND – Psychology for Sustainable Yield ENPAP Selection Fund may, as set out in the relevant portfolio management agreement, receive a performance fee equal to 20.00% of the positive difference (if any) between:

- (1) The total net assets of the Segment (after accruals of all fees except performance fees) as of the Performance Fee Valuation Day, and
- (2) The Target Net Asset Value.

The total net assets of the Segment are equal to the value of the assets included in the Segment at a given Performance Fee Valuation Day.

The term “Target Net Asset Value” at a given valuation day is defined as being equal to the High Water Mark, augmented by the Benchmark in Money terms.

The Benchmark in Money terms corresponds to the index that has been indicated in the portfolio management agreement entered into with each relevant portfolio manager.

The Benchmark in Money terms is the yield which would have been realized by investing the High Water Mark - with relevant cash inflow/outflow taken into account as follows - in an investment vehicle replicating the performance of the index above mentioned over the relevant Performance Fee Period.

The Performance Fee Period is an annual period starting from the last end-of-period at which a performance fee has been paid; the first Performance Fee Period starts from the first date at which the net asset value for the subfund is calculated.

The Benchmark in Money Terms is calculated taking into account cash inflows and outflows over the performance period with the same methodology used to calculate the daily net asset value of the subfund. The Benchmark in money terms is reset on every Performance Fee Valuation Day which entitles the portfolio managers to the payment of a performance fee.

The High Water Mark at a given Valuation Day is equal to the greater of:

- (1) the value of the total net assets included in the Segment at the initial subscription date, adjusted for cash inflows and cash outflows of the relevant period, and

- (2) the last end-of-period the total net assets of the Segment at which a performance fee has been paid, adjusted for cash inflows and cash outflows of the period.

The above mentioned performance fee is capped at 4.00% per annum of the net asset value for the Segment. In case of redemptions, the accrued performance fee attributable to the cash outflow will be crystallized and paid to the Portfolio Manager.

The performance fee period is 1 year, ending on the 31st of December of each year.

The manager and investment adviser of LUXEMBOURG SELECTION FUND – Solar & Sustainable Energy Fund receive a performance fee charged to the subfund (50.00%-50.00% split between the two). The performance fee of LUXEMBOURG SELECTION FUND – Solar & Sustainable Energy Fund is calculated and fixed at each valuation date and these fixed amounts are paid at the end of each month. The performance fee is equal to 10.00% of the increase in NAV for class A1, A2 and class A3. The increase is calculated by comparing the NAV (after deducting the management commission, consultancy fees and current expenditure but before accounting for the performance fee) to the high water-mark. The high water mark is equal to the highest NAV (after performance fees) reached on a previous valuation day, adjusted according to the amounts received for investments and the amounts payable for redemptions of the share class. The high-water-mark principle ensures that in case of loss, no performance fee will be paid until the loss has been recovered.

In addition, each 6 months, the manager of LUXEMBOURG SELECTION FUND – Xantos will receive, a performance fee equal to 10.00% on the portion superior to 3.00% for any given six month (6.00% p.a.) of the total return, which will be calculated on the difference between the amount of the net asset value of shares in class A, B and C, on the last valuation day of the current period of six months, before payment of the performance fee and adjusted according to the amount of the subfund’s share subscription and redemption orders, and the last day of the preceding period of six months. If the difference is only 3.00% for the six month period or less, no performance fee will be paid. The hurdle rate of 3.00% will be reset at the beginning of each six month period to zero, regardless whether the performance fee has been paid or not for the previous six month period. The high water mark principle ensures that in case of

a loss, no performance fee will be paid until the loss has been recovered.

The performance fee will be calculated at each calculation of net asset value. In accordance with the principle commonly referred to as the "high-water mark" and for purposes of calculating the performance fee, the following element will be taken into account: if the amount of the net assets falls during a six-month period under consideration, it will be carried forward so that no performance fee will be due until the net assets have reached the level of the last six-month period in which a performance fee was paid. As a result, the reference point becomes the historical high net asset value for purposes of calculating the performance fee, which will be paid at the beginning of a new six-month period following the six-month period under consideration.

All of the fees and expenses that cannot be attributed to a specific subfund will either be allocated equitably to all subfunds or will be charged pro rata on the net asset value of each subfund, if the amount and reason justify doing so.

Other commissions and fees

The Fund shall also bear the other operating costs, including, inter alia, the expenses purchasing and selling securities, government taxes and regulatory authority fees, the costs of exchange listings, the fees for the independent auditors and all legal advisers, the cost of translating any documents intended for foreign regulatory authorities, the cost of printing the sales prospectus and the share certificates, expenses related to publications, expenses for preparing and printing the KIIDs and operational costs in relation to the day to day management of the Fund. All expenses are taken into account in the determination of the net asset value per share of each subfund.

Note 3 – Taxe d'abonnement

Under the legislation and regulations currently in effect, the Fund is subject to the Luxembourg tax d'abonnement at the annual rate of 0.05% payable quarterly (0.01% per annum for share classes reserved for institutional clients) and calculated on the basis of its net assets at the end of each quarter.

The tax is not levied on the portion of the net asset value invested in units or shares of other undertakings

for collective investment under Luxembourg law, fully subject to this tax.

Note 4 – Distribution of income

The subfunds pursue the below distribution policy:

LUXEMBOURG SELECTION FUND	Distribution policy
– Active Solar	accumulation
– Arcano Low Volatility European Income Fund - ESG Selection	accumulation or distribution, depending on the share class
– Atyartha Global Opportunities Fund	accumulation
– Core Medio	accumulation
– Core Medio Elevato	accumulation
– Global Euro Bond Fund	accumulation
– LSF Alternative UCITS Strategies	accumulation
– LSF Enhanced Equity Exposure	accumulation
– Nerrick US Equities	accumulation
– Psychology for Sustainable Yield ENPAP Selection Fund	distribution
– Solar & Sustainable Energy Fund	accumulation
– Xantos	accumulation

Note 5 – Commitments on Financial Futures

Commitments on financial futures per subfund and respective currency as of 31 October 2020 can be summarised as follows:

Financial Futures

LUXEMBOURG SELECTION FUND	Financial Futures on bonds (bought)	Financial Futures on bonds (sold)
– Psychology for Sustainable Yield ENPAP Selection Fund	10 020 469.38 EUR	8 789 805.00 EUR

LUXEMBOURG SELECTION FUND	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
– Psychology for Sustainable Yield ENPAP Selection Fund	- EUR	89 302 428.21 EUR
– Solar & Sustainable Energy Fund	- EUR	3 185 120.14 EUR

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts*notional contract size*market price of the futures).

Note 6 – Soft commission arrangements

For the period from 1 May 2020 until 31 October 2020, no “soft commission arrangements” was entered into on behalf of LUXEMBOURG SELECTION FUND and the amount of “soft commission arrangements” totals zero.

Note 7 – Total Expense Ratio (TER)

This index, which has been calculated in accordance with the current version of the “Swiss Funds & Asset Management Association SFAMA” on the calculation and publication of the Total Expense Ratio (TER) and Collective Investment Scheme, expresses, retrospectively and as a percentage of total net assets, all fees and expenses charged on the total net assets (operating expenses).

TER for the past 12 months:

LUXEMBOURG SELECTION FUND	Total Expense Ratio (TER)	Thereof Performance Fee
– Active Solar A EUR	17.16%	15.39%
– Active Solar B EUR	19.97%	17.29%

Note 10 – Authoritative language

The English version of these statements is authoritative. The Fund and the Depositary, however, can be considered responsible for the translations they have approved in the languages of the countries in which shares are offered for sale.

Note 11 – Securities Lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

2) Securities Financing Transaction Regulation (SFTR)

The Fund engages in Securities Financing Transactions (hereafter “SFT”) (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

Global Data

The following table details the value of securities lending as a proportion of the subfund’s Net Assets Value as well as a proportion of the total lendable securities, as at 31 October 2020.

LUXEMBOURG SELECTION FUND	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Active Solar	17.92%	17.66%
– Psychology for Sustainable Yield ENPAP Selection Fund	18.00%	22.48%
– Solar & Sustainable Energy Fund	7.90%	8.55%

The total amount (absolute value) of the securities lent is disclosed in Note 11 – Securities Lending.
